EXECUTIVE SUMMARY

The Makueni 2015/16 Program based budget is the second to be prepared and reaffirms the broad policies and strategies for Socio economic transformational agenda founded in the FY 2014/15 budget. The agenda is aimed at improving the living standards of Makueni Citizenry by ensuring each household earns at least Kshs 500/day.

The budget is anchored on three key development priorities;

Water Sector Development; Harvesting Water for Socio-Economic development; Kutwwiikany'a Kiw'u. The objective of this strategy is to harvest water everywhere for socio Economic transformation. The county is implementing the eighteen(18) months programme focusing on harvesting water in the whole county. The integrated water harvesting programme will entail afforestation, smart agriculture, construction of mega dams, mini dams and water pans and rehabilitation of existing dams and water pans. The government will also construct and rehabilitate at least one water pan per household, roll out water harvesting and storage in all public institutions throughout the country for household and agricultural use.

Social Sector Development; The Social sector development strategy is aimed at ensuring all Makueni citizens are healthy, educated and equipped with basic life skills, and that they are able to participate fully and share more equitably in the growing prosperity of the county. The strategy focuses on Gender, Health and Education sectors' development.

The county health care reforms aim to build a lasting healthy County through continuous provision of medical drugs to all health centres, upgrading of existing health facilities, construction of laboratories in all health centres amongst other initiatives.

To tap the creativity and knowledge of the young people / encourage entrepreneurship and innovation the Government has budgeted funds for business empowerment programs, loans to youth, men & women, support to small business traders, cooperative development & marketing and skills development.

The Government has also enhanced support to girl and boy child in the county by allocating more funds for sanitary towels programs to all school-going girls and also funds for mentoring the boy child.

To complement the abilities of the vulnerable groups to participate fully in the County's development, the government has allocated funds to support persons with disability, orphaned and vulnerable children, and those living in extreme poverty.

Infrastructural development; Modern infrastructure is a key prerequisite for sustained agricultural and industrial transformation. For this reason, the County Government's has prioritized investment in infrastructure covering all roads connecting sub-county headquarters and gravelling all roads to village market centres to all weather standards. This will ensure accessibility within the county is improved and produce reaches the intended markets. The county has also budgeted funds for rural electrification programmes to ensure all market centers and institutions are connected to the national grid.

To promote economic empowerment of the citizenry the government has budgeted for funds to set up a micro finance institution in the county to support the citizenry in provision of affordable banking and credit facilities.

The successful implementation of the this budget is expected to have a positive impact on socio economic transformation of the Makueni citizenry. The County treasury will continue to enforce its mandate as spelt out in PFM Act Sec 104 to ensure proper utilisation of public finances.

2.0 OFFICE OF THE GOVERNOR

2.1 Department's Vision and Mission

2.1.1 Vision

A leading institution in public policy formulation, implementation, coordination, supervision and prudent resource management.

2.1.2 Mission

To provide overall leadership and policy direction in resource mobilization management and accountability for quality service delivery.

2.2 Performance Overview and Background for Programme(s) Funding

The office of the Governor & deputy Governor is charged with the mandate of providing County leadership in implementation of County Policy and development by ensuring the County Government works in harmony through improved policy direction, coordination and information sharing between County Government, Departments and Agencies.

In FY 2014/15 the office has been able to constitute key bodies / forums meant to oversee the overall running of the county government. Amongst them is the budget & economic forum.

In the FY 2015/16 the department will continue with its role of strengthening county planning, coordination and management services by establishing a cabinet coordination unit, establishing a public relations & communication office and strengthening intergovernmental relations amongst other duties.

7.0 HEALTH DEPARTMENT

The Health department consisting of various units namely: Health promotion, Nursing, Clinical, Nutrition, Community Health, health records, laboratory services, EPI services, Disease Surveillance, Rehabilitative Services, Reproductive Health Services, HIV/TB & Malaria services all implemented under Curative and Preventive and Promotive programmes.

7.1 Department's Vision & Mission

7.1.1 Vision

A globally and nationally competitive, healthy and productive county.

7.1.2 Mission

To deliberately build progressive, responsive and sustainable technologically driven evidence-based and client-centered health system for accelerated attainment of highest standard of health to all people in Makueni County.

7.2 Performance Overview and Background for Programme(s) Funding;

In the FY 2013/14 the department has managed to increase accessibility & improve quality of care and uptake of services through: construction of five theatres in five major hospitals in five sub-counties, installed ultra-modern x-ray unit for Mbooni & Sultan Hamud hospitals, ensured adequate stock of drugs, non-pharmaceuticals, equipped hospitals with specialized equipment health centres and dispensary with basic equipment's, purchased twelve ambulances, establish a command centre for the ambulances, renovated 69 dispensaries and upgraded 51 dispensaries.

The department was faced with several challenges amongst them; few personnel, expansiveness of the –supervision proved to be hard task together with limitation of utility vehicles, delayed reimbursement for free maternity and erratic funding for rural health facilities from national government

The financial year 2015/16 Budget gives priority to scaling up the policy and development interventions aimed at enhancing the equitable access to medical services. Such measures will

include: enhancing the provision of FREE maternal health care and ensuring that most deliveries are conducted under the care of skilled health attendants, equipping public health facilities and provision of adequate medical supplies, improving immunization coverage for children, reducing morbidity and mortality from malaria, HIV/AIDS, tuberculosis and non-communicable diseases. To increase access to basic health care, the department has budgeted for construction of new health facilities identified through public participation consultation forums to increase accessibility to this service. Further to this strategy the department has budgeted for upgrading of two level 4 facilities Makindu and Makueni Hospitals to County referral Hospitals (Level 5).

7.3 Programmes and their Objectives

PROGRAMME	OBJECTIVES
P1; General administration & planning	To ensure efficient service delivery through prudent management of public resources and influences design implementation and monitoring processes in all health related sector actions across the Sector programmes.
P2; Curative Health	Improve the health status of the individual, family and Community by ensuring affordable and available health care services.
P3; Preventive and Promotive Health Care Services	To increase access to quality and effective Promotive and preventive health care services in the county.

8.0 GENDER, YOUTH & SOCIAL SERVICES

The goal of the department is to facilitate and promote youth, men, women and sports activities by championing an enabling environment and empowering community to take participative role in development.

The department seeks to promote issues of gender equality, equity and empowerment for different groups such as women, children, the unemployed youth, people living with HIV/AIDS (PLWHAs) and Persons with disabilities (PWDs).

8.1 Department's Vision and Mission

8.1.1 Vision

Empowered and participative society which enjoys equal rights and taking charge of their destiny

8.1.2 Mission

To mobilize and empower communities for participative social, economic and political development

8.2 Performance Overview and Background for Programme(s) Funding

In the FY 2013/14 the department made the following key achievements; Trained 2100 boda riders throughout the county, purchased 80 bodabodas and have formed 30 Sacco's, trained 1270 youths, men and women on entrepreneurship, constructed eight social halls, completed six sports fields, conducted a survey for PWD's and OVC's, 23 children homes and special units were supported with 5000ltrs water tanks, 4 green houses, 10 drip kits and food stuffs. 10 different self-help groups and CBO's were supported with 100 seater tents and chairs while 2 groups benefited with seats, 3 groups benefited with goats, 25 groups were supported with 5,000ltr water tanks, and 1 group benefited with car wash machine. The department also organized the Governor's cup successfully guiding men and women football and volleyball to successful conclusion where more than 405 teams participated from the ward level to the county final. During the same period the county was entered in the books of rugby by winning bowl at the princilloo sevens held in Mombasa and have so far entered the 15aside team in the

KRU league. Athletics were adequately supported and our athletes have competed successfully nationally winning the 10km in the inaugural 1st lady marathon held in Nairobi and other athletes have performed outstandingly in different meets. In the Special Olympics the team from Makueni scooped major honors with 10 of our special team selected to represent Kenya in the world championship to be held in the USA in June this year.

The department has been faced with myriad of challenges. They include delays in passage of the budget which affected timely implementation of most of our projects. The youth empowerment fund was not implemented due to failure by the assembly to pass respective legislation. Procurement delays meant that projects could not be implemented as scheduled. Shortage and low capacity of staff was also another challenge that curtailed the department's achievements.

During the 2015/16-2017/18 MTEF period focus will be based on the following priority areas; Empowerment of groups, initiating street children outreach programme, supporting OVC & the elderly, support to PWDs, construction and equipping of social halls, support and promotion of sporting activities and events, construction of sports stadium and Levelling of sporting fields, initiating mentorship programmes, undertaking HIV/AIDS awareness programme .

The flagship projects for the department are a County stadium, a talent center and the construction of Wote conference and ICT center. The department will also enhance its support to the girl child by providing sanitary towels to all school-going girls and develop a policy to protect the boy-child.

9.0 TRADE, INDUSTRY, TOURISM AND COOPERATIVES

9.1 Department's Vision and Mission

9.1.1 Vision

A globally competitive County economy with sustainable and equitable socio-economic Development

9.1.2 Mission

To promote, coordinate and implement integrated socio-economic policies and programs for a rapidly industrializing County economy

9.2 Performance Overview and Background for Program(s) Funding

In the FY 2013/14 the sector implemented four programmes which realized the following key achievement; Set up Business Empowerment programme with an initial seed capital of 25M, Supported SMEs to participate in 4 trade shows and exhibitions, one investment conference successfully held, constructed 20 market sheds and 8 livestock yards, successfully trained 240 SMEs and established a consumer protection unit, Data collection on market infrastructure carried out in 2 sub counties, survey of tourism sites within the county was undertaken and documented. Further development of these potential tourism attraction sites is to be undertaken by the sector to promote the county for both internal and external tourism.

Delayed and hurried procurements presented a big challenge as key aspects were over looked. The procurement process will hence forth be started in good time and meticulously undertaken. Insufficient funding led to partially completed projects. Only projects that can be done to conclusion will hence forth be undertaken. Inadequate staffing levels led to poor project supervision. Employment of additional staff has since been undertaken.

During the 2015/16-2017/18 MTEF period focus will be based on the following priority areas; Establishing investment, research & marketing unit, construction of market sheds, modern stalls/kiosks, jua kali sheds, stock yards and bus parks in major towns in the county. The sector will further establish light industrial park and facilitate trade shows and exhibitions for traders.

Business empowerment programs will be enhanced and collaboration with financial institution will be sort after to help entrepreneurs' access funds for business start-ups. The consumer protection unit will be further developed and capacity building for MSMEs shall be undertaken

10.0 DEPARTMENT OF AGRICULTURE, LIVESTOCK AND FOOD SECURITY

10.1 Department's Vision and Mission

10.1.1 Vision

A food secure county

10.1.2 Mission

Work with stakeholders to develop and implement structures for food production, processing and marketing on a sustainable basis in the county.

10.2 Performance Overview and Background for Programme(s) Funding

During the period under review the department made tremendous progress towards attainment of its vision of *a food secure county*. Various projects were designed and implemented with a view of achieving diverse objectives in the livestock, veterinary, fisheries, crops, and agribusiness and mechanization areas. Staff support and motivation was also addressed by availing office and field equipments including ICT, motor vehicle and office accommodation.

On dairy improvement various achievements were made. These includes; cattle upgrading through performance of 4,060 inseminations on subsidy basis, made 7,449 bales of hay , 480 tons loose hay, 15,800kgs silage, 600 farmers trained and 10 clusters were formed and trained on group management and leadership.

On livestock disease control, 6 vaccination crushes were rehabilitated, over 16,800 heads of cattle vaccinated against FMD and 2,329 dogs against rabies.

On milk marketing and value addition, 6 cooperative societies were supported to install 7 milk coolers. 3 motor cycles and 2 pick-ups were also provided and a milk mini processing plant in Kikima.

On poultry value chain; over 400 farmers were trained on poultry husbandry and were supported with 6,400 birds of the superior KARI Kuku Kienyeji for upgrading.

On Fish production; 30 farmers and 5 officers were taken on a study tour to expose them to new technologies and technics for efficient fish production.

To improve on crop production; a total of 64,451 Kgs of sorghum, maize, cowpeas and green grams to 12,752 farmers was distributed, 20 sorghum farmers clusters were formed, 36

sorghum farmers' clusters were capacity built on good crop husbandry and value addition to promote utilization of sorghum.

To improve on the availability of seeds in subsequent seasons, the department assisted 1,884 farmers to successfully bulk and bank 11,586 Kgs of assorted THVCs seeds out of which 6000kgs of assorted bulked seeds were retrieved and re distributed to other farmers to plant the following season.

To promote Mango production; 40 Mango cluster committees were formed & trained on leadership and group dynamics, 30 fruits service providers were also trained on Good Agricultural Practices.

The department has faced numerous challenges in implementing the budgets of 2013/14 and 2014/15. These includes; delays in budget approval, project approvals and procurement, staff shortage and poor staff morale due to delayed facilitation.

The budget for financial year 2015/16 will not only be geared towards ensuring food security but also increasing household income from commercialized agricultural production, a fete we seek to achieve by embracing value chain approach for the three agricultural zones (Mixed agricultural zone, marginal mixed farming zone and marginal farming zone) that exist in Makueni County.

The department has proposed an extension delivery model whereby extension workers will profile the farmers they work with, and identify the value chain to promote. Common interest groups growing same commodity in a given area will be the basis of establishing commercial villages for collective production, aggregating and marketing thereby ensuring proper market does not lack.

Already four viable value chains have been identified and infrastructure and linkages to promote value addition and marketing of the same initiated. Stakeholders and partners in the agricultural sector have also been aligned to synergize with County efforts to realize faster results.

Specifically, the department target to complete and Operationalization the multi fruit processing plant and also set aside a stabilization fund for the dairy plant Operationalization and milk marketing. Artificial insemination will be expanded to cover Entire County and capacity building and support to ensuring dairy and beef development thrive through production and conservation of feeds; and a disease management regime is established. The department will also do feasibility study on the construction of a multi-purpose agricultural

laboratory for various diagnostic needs of diseases and soils among others. The department will seek collaboration with trade on the construction of a class abattoir in the county.

Towards commercialization of crop sector, identified cash crop in the various zones will be promoted alongside sound agricultural resource management including soil and water conservation, good agricultural practices and up scaling production technologies including drip irrigation, green houses among others. Agricultural mechanization specifically farm tractor services for various farm operations will be revitalized to address labour constraint in agricultural production.

The department will step up fish production through capacity building producers and stocking newly constructed water masses as well as promoting small fish ponds on-farm. Corresponding infrastructure to support the growth such as harvesting gear and post-harvesting infrastructure will be developed.

The department has a functional agricultural training Centre which we target to equip for the provision of conference facilities besides the core function of agricultural excellence.

10.3 Programme Objectives

Programme	Objective
General Administration & Planning	Efficient and effective support services for delivery of department's programmes
Crop Development & productivity	Increased crop productivity and outputs
Agribusiness and information management	Increased market access and product development (Agribusiness, value addition and market development)
Livestock Resources Management and Development	Increased livestock production for socio-economic development and industrialization

11.0 DEPARTMENT WATER, IRRIGATION & ENVIRONMENT

11.1 Department's Vision and Mission

11.1.1 Vision

A leader in providing safe, reliable and affordable water in a clean environment

11.1.2 Mission

To protect, conserve and promote environment and Natural Resources management and increase access to affordable water supply for sustainable County development.

11.2 Performance Overview and Background for Programme(s) Funding

In the FY 2013/14 the department managed to desilt / construct 12 earth dams, purchased 1 dozer, 2 excavators 3 tippers , rehabilitated 15no. water projects, drilled 9no. boreholes drilled, constructed 10no.sand dams, laid 5.5km new pipeline extension ,constructed 2 intake sumps, purchased & installed 5pumps, installed 5 green houses, irrigate 15acres of land, implement 7no. irrigation schemes, constructed 20no,public toilets constructed in various market center's in the County and constructed 1no. Biodigester at Wote market.

In the implementation of the FY 13/14 & 14/15 budget the department was faced with the following challenges; inadequate allocation of funds to projects, late budget approvals, community conflicts, inadequate Legal and policy framework, high Poverty Level leading to overexploitation of resources resulting to general degradation of the environment thus compromising provision of environmental goods and services, climate change and population pressure leading to ecosystem degradation.

In the FY2015/16 the department will ensure provision of safe and adequate water through accountable institutions and management, construction of mega-dams, (2No.) Rehabilitation and construction of piped water schemes(30 no), boreholes (10 no.), earth dams(60 no) and sand dams(30no), springs development (15no).Through instruments of policy, legislation, finance and administration , the County will ensure radical improvement on structures, practices , technologies and coverage achieved under water Act 2002 including restructuring of water service providers licensed by Tanathi Water Service Board .

16.0 County Assembly

16.1 Department's Vision and Mission

16.1.1 Vision

To be a supreme, effective, efficient and self-sustaining County Assembly as a major participant in the process of good governance.

16.1.2 Mission

To facilitate the Members of County Assembly to efficiently and effectively fulfill their constitutional mandate in the devolved representative system of government by upholding and ensuring the autonomy of County Assembly in its corporate relationship with the other arm of the County Government.

16.2 Performance Overview and Background for Programme(s) Funding

The County Assembly has had only two programmes, Legislation, Oversight and Representation and Administrative services. The County Assembly had a Recurrent and Development budget which was introduced to mainly cater for capital projects that were planned in readiness of the devolved system of County Government.

Major achievements during the period under review

- a) Refurbishment and modernization of the County Assembly Chamber
- b) Enactment of several Acts of County Government to operationalize the 2010 Constitution, the County Government Act 2012 and the PFMA 2012
- c) Construction of the office block (ongoing), prefabricated offices and cafeteria,
- d) MCA and Staff capacity building
- e) Implementation of the modern Hansard Production System
- f) Construction of the perimeter fence for the Assembly and security

Constraints and challenges

During the period under review, there were challenges in budget implementation. They included:-

- a) Frequent breakdown of the IFMIS system. This has been a major hindrance to budget implementation. It has led to non utilization of voted provisions.
- b) Unrealistic resource envelop ceiling by the Commission of Revenue Allocation which has resulted in a lot of accrued bills injuring the credit image of the County Assembly.
- c) Inadequate office facilities to cater for Members of the County Assembly and Staff
- d) Lengthy procurement process, causing delay in budget implementation.
- e) Interference by the County Executive Member in their role as the Head of the County Treasury especially as regards to financial autonomy of the County Assembly.

The challenges identified above will be addressed in FY 2015/16 through consistent engagement with the National Treasury, County Treasury, Commission on Revenue Allocation, The Controller of Budget and Senate especially with regards to independence of the County Assembly from the County Executive and budget ceilings for the County Assembly. It is also instructive to note that the internet network in linking IFMIS to the County Assembly needs to be stabilized and to create minimal breakdowns in the IFMIS system especially in light of the E-procurement portal that all public entities will be undertaking their procurement processes.

The County Assembly is the arm of the County Government that makes legislation, represents the people and provides oversight on County public finances.

The Makueni County Assembly objective is “to facilitate the members of the County Assembly and the Senate to efficiently and effectively fulfill these Constitutional functions in a devolved representative system of the County Government by holding and ensuring that the autonomous status of the County Assembly in its corporate relationship with the other arm of the County Government” is maintained.

The major Services/outputs to be provided in MTEF period 2016/17-2017/18 and inputs required are:-

- Enactment of laws
- Representation
- Oversight over the utilization of public resources
- Capacity building
- Infrastructure improvement including ICT
- Construction of multi- storey office block

The County Assembly will require adequate funding in order to realize the above outputs and fulfill its Constitutional mandate. It is estimated that the County Assembly will require **KShs. 523,469,304/- (Five hundred and twenty three million four hundred and sixty nine thousand, three hundred and four)** in FY2015/16 to support its programmes, **Kshs 216,000,000/- (two hundred and sixteen million)** to initiate the Car and Mortgage fund for MCA's and Staff of the County Assembly as per approved SRC guidelines and **Kshs 126,530,696/- (One hundred and twenty million, five hundred and thirty thousand, six hundred and ninety six)** as arrears for the FY 2014/15.

16.3 Programme Objectives

Programme	Objective
072100 P.1 Legislation, Oversight and Representation	To strengthen the capacity of Members of County Assembly to make laws, enhance their representative capacity, oversight over the County Government to ensure effective implementation of County Government functions and the County Budget for optimal use of Public resources and enhanced accountability in governance.
072300 P. 3 General Administration, Planning and Support Services	To enhance professionalism, build human resource capacity and provide effective services to the Legislature to enable it meet its Constitutional mandate
