

ANNEX 2: CONSOLIDATED WARD CIDP 2023/27 PUBLIC PARTICIPATION NEEDS AND PRIORITIES

REPUBLIC OF KENYA

GOVERNMENT OF MAKUENI COUNTY

CIDP 2023-2027

WARD NEEDS, INTERVENTIONS AND PROJECT PRIORITIZATION

THEME: A RESILIENT ECONOMY FOR SUSTAINABLE DEVELOPMENT

MARCH 2023

1. KIBWEZI WEST SUB-COUNTY

1.1 EMALI MULALA WARD

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade, Lands)		
<ul style="list-style-type: none"> • Inadequate rainfall • Prolonged drought seasons Low yields • Insufficient markets for the local produce • Incapacitated stock yards • Non-Operational cooperatives • Lack of dumping sites • Lack of market plan • High licensing fees • Inadequate land succession programs 	<ul style="list-style-type: none"> • Provision of subsidized farm inputs • Physical planning of Markets • Review of fees and charges in the finance act. • Adoption of irrigated agriculture • Community sensitization on sustainable agricultural technologies • Survey and titling of land 	<ul style="list-style-type: none"> • Planned market planning initiative • Planned purchase of an inter-ward backle to undertake the farm pond initiative • Kiwu Musyi program • An extensive land survey program and urban planning initiative • Expansion of Emali stock yard • Planned installation of a dumpsite at Emali
Water Access		
<ul style="list-style-type: none"> • Drying up of the existing water sources • Insufficient water sources • Siltation of earth dams 	<ul style="list-style-type: none"> • Rehabilitation and pipeline extension in existing boreholes • Desilting of existing earth dams • Construction of a mega-dam 	<ul style="list-style-type: none"> • Construction of Muooni Mega dam • Program to construct of sump tanks in the existing rivers • Planned rehabilitation program of all boreholes in the ward • Purification of saline water through reverse osmosis technology and installation of an automated system of water supply to minimize on mismanagement.
Social Sector (Health, Education, Social Protection)		
<ul style="list-style-type: none"> • Lack of specialized services in the existing wards • Lack of emergency • Understaffing and lack of medical drugs to the existing facilities • Incapacitated CTTIs • Lack of feeding programs to the existing ECDEs • Mobility challenges in the CTTIs 	<ul style="list-style-type: none"> • Upgrade the existing Health facilities • Provision of emergency care services in the ward • Upgrading and capacity building of the existing CTTIs • Purchase of a bus for the CTTIs • Introduction of fashionable trades • Introduction of a feeding program 	<ul style="list-style-type: none"> • Purchase of a ward ambulance • Planned equipping and upgrading of Emali Level model center to a level 4 facility • Purchase of a bus to cater for both Ngetha and Kwakakulu CTTIs • Introduction of a ward feeding program • Extension of the CDD program • Construction of a sports complex at Emali
Infrastructure and Enablers		
<ul style="list-style-type: none"> • Unpassable roads especially during the rainy season • Unopened roads • Encroachment on road reserves • Underutilization of green energy 	<ul style="list-style-type: none"> • Need of a road rehabilitation program • Planned mapping of all existing roads • Connect the remote areas to the national grid • Promote green energy • Promotion of digital economy 	<ul style="list-style-type: none"> • Heavy grading of all county roads • Partnership with the national government to connect all areas to the national grid • Road rehabilitation program within the ward • Connect all market shed to solar energy
Key Cross-Ward/Sub County Project/Intervention		
<ol style="list-style-type: none"> a. Construction of a CTTI center at Kiuani b. The Manooni Water distribution scheme through a BOT c. The Manooni mega-Dam 		

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
d. A cross ward upgrading program		
e. Partnership with Mbitini ward to undertake the farm pond project and purchase of a interward tractor		

1.2 KIKUMBULYU NORTH WARD

Key Issues/challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade, Lands)		
Agriculture		
<ul style="list-style-type: none"> • High cost of certified seeds • Poor farming methods • Inadequate water for irrigation • Lack of aggregation centres • Pest and diseases • Lack of linkages to markets 	<ul style="list-style-type: none"> • Provision of timely certified seeds • Capacity building on smart agriculture • Linking farmers to ready markets • Provision of 2 farm tractors in each sub ward • Employment of more agricultural extension officers • Construction of collection stores at Kisayani, Ndetani, Kathyaka, Kanyungu 	<ul style="list-style-type: none"> • Construction of collection stores at kisayani, Kathyaka, kanyungu and ndetani • Provision of timely certified seeds • Employment of adequate extension officers • Trainings and capacity building on smart agriculture • Subsidized artificial insemination regularly
Trade and Industrialization		
<ul style="list-style-type: none"> • Poorly constituted market committees • High license fees • Market insecurity 	<ul style="list-style-type: none"> • Market planning for all markets in the ward • Provision of credit facilities • Construction of market public toilets at milu, katilamuni, kiwanzani, nthongoni, Yikivala, masalani • Installation of drainage and sewage systems • Reduction in license fees • Installation of floodlights and street lights in all markets in the ward 	<ul style="list-style-type: none"> • All markets in the ward to be planned • Provision of credit facilities • Construction of market public toilets at milu, kyaani, makaani, katilamuni, kiwanzani, nthongoni, Yikivala, masalani • Installation of durable and sustainable floodlights and street lights in all markets in the ward starting with kiaoni, Nyayo, Kathyaka, kisayani, kiwanzani
Lands		
<ul style="list-style-type: none"> • Insecurity of land tenure • Un demarcated public lands • Public spaces not established • Lack of market planning • Lack of sewerage systems • Inadequate market public toilets • Lack of waste disposal sites 	<ul style="list-style-type: none"> • Prompt issuance of title deeds and plot maps • Demarcation and establishment of public lands 	<ul style="list-style-type: none"> • Issuance of title deeds • Construction of toilets and drainage systems in Market cnetres.
Environment		
<ul style="list-style-type: none"> • Deforestation • Degraded land • Encroachment of catchment areas 	<ul style="list-style-type: none"> • Terracing • Tree planting • Preservation of catchment areas 	<ul style="list-style-type: none"> • Terracing • Tree planting • Preservation of catchment areas
Water Access		
<ul style="list-style-type: none"> • Siltation of earth dams • Poor water harvesting methods • Vandalism of water points 	<ul style="list-style-type: none"> • Dams desilting • Completion of Athi Tunguni water project • Enforcement of water act 	<ul style="list-style-type: none"> • Distribution of KIMAWASCO water all over the ward • Distribution of water tanks to house holds • Actualization of ATHI TUNGUNI water project and its

Key Issues/challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
<ul style="list-style-type: none"> • Saline boreholes • Long distance to water sources • Pollution River Athi • Inadequate water 	<ul style="list-style-type: none"> • Provision of water tanks to harvest rain water • Reviving boreholes 	<ul style="list-style-type: none"> • distribution • Desilting of all earth dams • Purification of silanga and matemani boreholes • Reviving and equipping of all non-functional boreholes. • Construction of two mega earth dams one in each sub ward.
Social Sector (Health, Education, Social Protection)		
Health		
<ul style="list-style-type: none"> • Under staffing in health facilities • Lack of power supply • Untimely medica drugs supply • Lack of lab services • Inadequate water supply • Lack of ambulance • Untrained CHVs 	<ul style="list-style-type: none"> • Employment of more practitioners • Timely medical supplies • Capacity building the CHVs Water connection to Health facilities 	<ul style="list-style-type: none"> • Construction of an imaging center at kisayani health centre with X-ray, Ultrasound and plaster department. • Fencing of Nthongoni dispensary and kiaoni dispensary. • Water connection to all health facilities in Kikumbulyu north ward. • Kathyaka health centre to be provided with resuscitaires and suction machine
Education		
<ul style="list-style-type: none"> • Inadequate ECDE classes • Inadequate • kiddy chairs and tables • Inadequate ECDE teachers • Inadequate play outdoor equipment • Lack of school feeding programme 	<ul style="list-style-type: none"> • Construction of more ECDE classrooms • Employment of more ECDE teachers • Electricity connection at Ndetani CTTI • Construction of special schools • Revision of CTTI trades • Introduction of school feeding programs • Provision of kiddy chairs and tables 	<ul style="list-style-type: none"> • Construction of more ECDE classrooms • At Nyayo, kiwanzani, katilamuni, kanyungu, Yikivala, Ithumula, • makaani and Nyayo • Equipping Ndetani CTTI • Provision of kiddy chairs tables and servicing outdoor equipment
Culture, Heritage and Tourism		
<ul style="list-style-type: none"> • Lack of equipped cultural center 	<ul style="list-style-type: none"> • Equipping of Mikuyuni cultural centre 	<ul style="list-style-type: none"> • Equipping of Mikuyuni cultural centre
Youth, Gender and Sports		
<ul style="list-style-type: none"> • Unemployment • Inadequate funding of sports activities • Lack of games kits • Lack of play fields • Drug abuse • Inadequate sportsmen trainings • Untapped youth talents • PWDs not recognized 	<ul style="list-style-type: none"> • Provision of games kit and improvement of Kasekeleni and kisayani play grounds • Trainings of Sportsmen • Creation of job opportunities • Bringing youth empowerment programs • Establishment of talents expressing programs by construction of a talent centre • Identification and recognition of PWDs through creation of PWDs kitty and their empowerment through trainings on technical skills • Establishment of youth forums to address youth affairs 	<ul style="list-style-type: none"> • Provision of games kit and improvement of Kasekeleni and kisayani play grounds or all public primary school playing grounds. • Trainings of Sportsmen • Creation of job opportunities • Bringing youth empowerment programs • Establishment of talents expressing programs by construction of a talent centre • Identification and recognition of PWDs through creation of PWDs kitty and their empowerment through trainings on technical skills • Establishment of youth forums to address youth affairs
Infrastructure and Enablers		
Roads		

Key Issues/challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
<ul style="list-style-type: none"> • Roads encroachment • Inadequate road structures • Soil erosion • Lack of road survey • Poor murraming 	<ul style="list-style-type: none"> • Installation of gabions • Construction of adequate road structures • Round up roads surveys • Heavy grading and murraming of all roads 	<ul style="list-style-type: none"> • Construction of adequate road structures • Heavy grading and murraming of Kwa Kilai- Kalulini- Nthongoni- Kiwanzani road • Heavy grading and murraming of Nyayo-kathyaka-kyaani-syumile road • Heavy grading and murraming of Kisayani – Kathyaka – mwanyani-ngaikini road • Opening & light grading of all feeder roads • Public roads surveys
Energy		
<ul style="list-style-type: none"> • Poor rural electrification • High cost of electricity connection • Inconsistent power supply 	<ul style="list-style-type: none"> • Enhance rural electrification • Sensitizing on the use of solar energy 	<ul style="list-style-type: none"> • Enhancing rural electrification across the ward • Installation of transformers at Kisayani, Kathyaka, Ngaikini, Kinguutheni clusters
ICT		
<ul style="list-style-type: none"> • Lack of network coverage • High cost of mobile internet 	<ul style="list-style-type: none"> • Enhancing net coverage • Providing community free Wi-Fi 	<ul style="list-style-type: none"> • Enhancing net coverage • Providing community free Wi-Fi
Key Cross-Ward/Sub County Project/Intervention		
<ol style="list-style-type: none"> Actualization of Athi Tunguni water project Electrification along Athi river to pump water for irrigation Installation of water turbines at river Athi Tarmacking of kisayani- Kathyaka- Kisingo road 		

1.3 MAKINDU

Key Issues/Challenges	Proposed Interventions	Key ward flagship interventions
Community Livelihood/Economic Empowerment (Agriculture, Trade)		
Agriculture		
<ul style="list-style-type: none"> • Lack of water for irrigation • Lack of ready market for produce • Disease and pest e.g., fall armyworm • Inadequate pasture and pasture seeds • Lack of right farm input • Lack of machineries for preparation of the farms before rainy season • Consistent drought leading to very low production • Unreliable weather forecasting information • Lack of technical knowledge on sustainable agriculture practices • Inadequate and expensive AI services • Inadequate funding to fisheries program 	<ul style="list-style-type: none"> • Increase water coverage • Market linkage through forming cooperatives • Provision of pesticides and extensional services • Provision of pasture seed • Provision of farming subsidize machines • To increase coverage for irrigation • Enhanced weather forecast research • Capacity building and sensitization of farmers on (SLM) • Provision of subsidize AI services • Increase funding for fisheries • Timely and quality seeds provision 	<ul style="list-style-type: none"> • Recruitment of more extension officers • The County to purchase mechanized agricultural farm machinery • Full operationalization of Makueni Grain Value Addition Plant in Makindu. • Rehabilitation of Makindu show ground. • Purchase of a backhoe.
Trade		

<ul style="list-style-type: none"> • Unplanned markets • Lack of public toilet • Lack of dumping sites • Poor drainage • Poor road network • Insecurity • Lack of electricity 	<ul style="list-style-type: none"> • Planning of all markets • Construct of a modern public toilet • Designate dump site in every market • Routine of road maintenance • Provision of security lights • Increase electricity coverage through collaboration between county government and national government. • Establish revenue system that offer part payment. • Construct modern market shed • Fast tracking of the Thursday market makindu and kiboko 	<ul style="list-style-type: none"> • Survey and Planning of all markets • Electricity extension program.
Land		
<ul style="list-style-type: none"> • Lack of title deeds • Prolong land dispute • Succession of land issues • Corrupt government officers • Land grabbing of land for public utilities 	<ul style="list-style-type: none"> • Provision of title deeds • Engagement of Lands commission to resolve land dispute • Assistance in succession of land 	<ul style="list-style-type: none"> • Provision of title deeds and land dispute resolution program • Planning of the lands/plots • Devolve all the departments on the sub county and also national officers • Planning of Maindu and Ikoyo towns • Survey, titling and gazettement of public land and catchment areas. • Establishment of Makindu/Kiundwani Municipality.
Water		
<ul style="list-style-type: none"> • Long distance to water sources • Inadequate water supply • Unsafe water for human consumption • Salinity of water sources • Unprotected water sources • Siltation of water earth dams • Vandalism of water projects • Disputes in water source • High costs of power for water pumping 	<ul style="list-style-type: none"> • Extension of water sources • Provision of new water source • Resolution of water sources dispute • Purification of water • Protection of water source • Fencing of Earth dams • Sensitization on community ownership of projects • Enforcement and compliance of the water act • Investnent in renewable energy sourves eg solar 	<ul style="list-style-type: none"> • Universal water coverage with alternative source of water • Protection of Water catchment areas. • Drilling, equipping and distribution of the following boreholes; Manyatta / ziwani; Kiambani / Ndivuni; Boma4; Yinzau Market; Kai Tuvila borehole; Kisingo Borehole; Miangeni Borehole; Kamboo Borehole; Mitendeu Borehole; Mulangu Borehole in New Kyale; Kavatini Market borehole and; Kalii Borehole. • Pipeline extension and construction of 100M³ Tank at Ndinduluke borehole. • Pipeline extension and Water kiosks for Ngakaa Borehole. • Replacement of Pump and Distribution of Ikungu Borehole.

		<ul style="list-style-type: none"> • Excavation and fencing of Yinzeu, Syengoni, Siathani, Kisingo and Ngiluni Earth Dams. • Rehabilitation and desilting Mukonyoni and Kwa Kisina earth Dams. • Desilting, rehabilitation and fencing of; Kwa Kambo-Mulilii, Kwa Mweu-Mitendeu, Kyanda-Ngaka, Muambani and Kwa Kasimu-Mulili Earth Dams.
Environment and Climate		
<ul style="list-style-type: none"> • Deforestation and environmental degradation • Encroachment of water catchment areas and springs • Increased gulley erosion • Inadequate knowledge on climate change adaptation and mitigation 	<ul style="list-style-type: none"> • Afforestation and community sensitization • Wet lands and spring protection • Sensitization on Sustainable land management • Climate change resilience building and response plan 	<ul style="list-style-type: none"> • Forest and land scape restoration • Climate change resilience building program • Tree planting
Social Sector (Health, Education)		
Health		
<ul style="list-style-type: none"> • Inadequate staff personnel • Closure of the facility when nurse is on leave • Inadequate drugs in the facilities • Lack of specialize treatment • Inadequate infrastructure- laboratory, maternity, fence and incinerator • Lack of electricity in the facilities • Under staffing in level 4 hospitals • Patient negligence 	<ul style="list-style-type: none"> • Provision of adequate drugs • Employment of more rural nurses • Equipping of health facilities. • Survey of the lands • Waiting bay constructions 	<ul style="list-style-type: none"> • Equipping of the facilities
Education		
<ul style="list-style-type: none"> • Lack of ECDE centers in some primary school • Terms of employment to ECDE teachers • No special schools for the PWDs • Encroachment of school land • Poor infrastructure in the CTTIs • Inadequate furniture in ECDE and CTTIs • Drop out of students due to lack of school fees • Inadequate bursaries allocation • Lack of transparency in bursaries allocation 	<ul style="list-style-type: none"> • Construction of ECDE centers in every primary school • ECDE Teachers to be employed permanent • Construction of PWDs schools • Survey and beaconing of schools • Construction, repair and maintenance of CTTIs and ECDE • Increase of bursary budget • Transparency and equitable of bursary funds 	<ul style="list-style-type: none"> • Construction of new modern structures and equip them • Survey and title deeds of ours schools.
Youth and sports		

<ul style="list-style-type: none"> • Unemployment • Drug abuse • Inadequate support in talent development • Inadequate funding of sports activities. • Incomplete talent Centre (Ngakaa Talent Centre) • Inaccessibility of county tenders 	<ul style="list-style-type: none"> • Creation of more job opportunities • Sensitize youth on drugs and substance effects • Increase budget allocation for sports • Completion of Ngakaa Talent Centre • Accessible tenders by the youth 	<ul style="list-style-type: none"> • Budget allocation for youth sports • Nurture talents inclusive the special groups
Infrastructure and Enablers		
Roads		
<ul style="list-style-type: none"> • Poor road network connectivity • Poor roads 	<ul style="list-style-type: none"> • Grading of existing roads • Construction of culvert and drifts 	<ul style="list-style-type: none"> • Grading, murraming and routine maintenance of roads. • Installation of culverts and drifts to ease connectivity. • Construction of Makindu Ward-Kitise/Kithuki Ward bridge • Opening up of the following roads; Kisingo – Yingoso - Miangeni – Makutano – Ngomano – Muambani – Kitise Brigde - 21KM; Yingoso – Nduluni – Usungu – Usungu drift – Yuuma Mavui; Makutano – Yindalani – Kandenja; Eagle Rise – Kikauni – Kandenja – Kikumbulyu North Boundery; St. Mathew – Kyandani – Tuvila – Kai – Tunguni; Sun Shine Girls – Kisingo Polytechnic; Kisingo – Masaalani; Masaalani – Yimwaa; Yimwaa – Kalimani; Yimwaa - Mulilii; Yimwaa – Itulu; Itulu – Kiboko; Nthia – Kavatini; Nthia – Malivini – Mbiuni – Ngulya – Kiboko; Kiboko – Kari Mwailu; Makindu down Market – Makindu Boys – Makindu A Primary School; Malcom (Ndauni) – Kyeni Secondary – Syengoni Primary; Makindu Airstrip – Kiambeni – Nzuki Slaughter House; Mombasa Road – Ndivuni – Kiambani Secondary – Kiambani Primary – Mombasa Road; Mombasa Road – Kwa Sammy Building – Kiu – Ndivuni; Miangeni Academy –

		<p>Kimboo Primary; Skygo Petrol Station – Syengoni – ABC Nguuni – Kyandani; A.I.C Kyeni – Shauri Moyo – Kyandani (Kwa Kimenzu); Mombasa Road – Makindu Grains Value Addition Plant – Boma 4 – Yiiiani – Kwa Ngala – Vombo; Kwa Makwata – Yinzau Primary – Yinzau Centre – Kwa Kianga (Boma 4); Yinzau Centre – Kwa Kasanga – Kwa Ngala; Miangeni-Kalii (26.5); Kalii -Kyande – Ngakaa; Kangii – Kathamboni-Kavete (15KM); Kiboko -Ngulye-Ndivuni-Itulu (8.8 Km); Mulilii -Bondeni-Makindu Town (5.5 Km); Kwa Kijana- Kwa Kaviti, Syusyani, Yiiiani-Yayona Dift (6.4km); Kavatini- Kawala-Kalii Secondary; Kawala -Miangeni-Kalii; Miangeni -Kikuu Road; Kavete-Kangii-Ngokani-ACK-Kyanda-Kalii.; Wote Road -Mitendeu-Ngakaa-Itulani-Kiboko; Kyanda – Ngakaa – Kivumbu; Itulani- Kangii; Msa Road -Kanaani Primary; Msa Road -Mikululo –Pipe Line; Makindu Down Town – Mulilii Centre; Kwa kisyula-kwa mwaniki-mulilii primary school; Old railway station –kwa muthembwa-kwa niko-kasuvi hill road; Sgr- old railway station-kwa kasoli-nthoka/miangeni-wote road; Kavete market –twaandu hill-kawala market-mwela farm-kalii primary and; Mulilii at mask point-Yimwaa market-Itulu market-Itulu market-through eng. Mumbe connection Msa-Nrb road-Kanaani secondary –Kanaani mkt-Miangeni primary-Kimboo Primary-Kimoini mkt.</p>
ICT & Energy		

<ul style="list-style-type: none"> • Poor network • Insufficient electricity supply • No ICT facilities 	<ul style="list-style-type: none"> • Upgrading of network • Enhancing electricity connectivity • Construction and equipping of ICT facilities 	<ul style="list-style-type: none"> • Construction and equipping of ICT centers
Governance		
<ul style="list-style-type: none"> • Poor management of projects • Lack proper knowledge on project governance • Stealing and vandalism of project equipment 	<ul style="list-style-type: none"> • Capacity building of PMCs and PSACs • Sensitization on Project ownership • Right qualifications of PMCs and PCACs 	<ul style="list-style-type: none"> • Civic education and capacity building
Key Cross-Ward/Sub County Project/Intervention		
<ul style="list-style-type: none"> a. Survey and Planning of towns/ markets across the ward b. Enhance mechanized agricultural farming c. Provision of title deeds d. Universal water coverage-Athi Tunguni water project extensions e. Construction of a mega dam at the meeting point of Kikuu/Muuoni/Kiboko and Athi River f. Forest and land scape restoration at household level. g. Upgrading and equipping of the facilities, special groups to have subsidies of the national service and provision of the PWD cards. h. Nurture all the talents inclusive the special groups and increase funding of the sports activities 		

1.4 NGUUMO WARD

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade)		
Agriculture and Food security		
<ul style="list-style-type: none"> • Poor farming methods and storage methods. • Poor market strategies / linkages for agricultural produce. • Pests and diseases affecting farm produce. • Inadequate supply of certified seeds. • Lack of skills on livestock keeping. • Poor breeds leading to low livestock productivity. • Inadequate pasture. • Few extensions officers • Lack of suitable food crops to substitute the prevailing food in the market • Overreliance of food crops for cash • Lack of soil test to know suitable crop of the area • Poor weather timing 	<ul style="list-style-type: none"> • Create awareness to change the mindset of a certain type of farming. • Provision of herbicides. • Provision of timely climatic information. • Enhancing market information. • Instant payment of the farm produces to avoid delayed payment due to the poverty level index. • Training of farmer new farming methods. • Training on pasture establishment and livestock keeping. • Vaccination Programme for livestock. • Cooperatives to purchase more brokers • Cooperatives to purchase food crops on cash not credit 	<ul style="list-style-type: none"> • Household water harvesting for enhanced food security and sustainable village economy (construction of farm ponds, provision of water tanks) • Grain value chain (supply of farm inputs ,(certified seeds ,manure and fertilizer).
Trade		

<ul style="list-style-type: none"> • High revenue rates • Expensive licenses • Poor planning of market centers • Insecurity in the markets • Lack of dumping sites in market centers • Lack of market livestock yard • Lack of street lights • No parking areas 	<ul style="list-style-type: none"> • Parking facilities along Nairobi –Mombasa highways • Reasonable taxes to small scale • Market public participation on revenue collection • Planning of interior markets days • Tax exemption of PWD • Improve public toilet standards • Provision of flood lights • Provide parking areas • Construction of market livestock yard at kiunduani 	<ul style="list-style-type: none"> • Cooperatives development (formation of cooperatives and agricultural group ,support to cooperatives)
Lands		
<ul style="list-style-type: none"> • Encroachment of roads and public utilities • Lands disputes • Grabbing of public land • High cost of land surveyors • settlement schemes not issued with title deeds • Lack of tittle deeds 	<ul style="list-style-type: none"> • Clearing of cutline waving of surveys charges for title deeds • Verification of lands to avoid land encroachment • Public utilities to be fenced and have sign boards • Committee in charge of public utilities to be formed • Enforcement county policies on public land • Allocate compensation funds on project done on private lands • Provide tittle deeds • Set funds for the landless/squatters 	<ul style="list-style-type: none"> • Land survey, mapping and titling (survey of land, land adjudication, issuance of title deed, land dispute settlement) • Survey and beaconing of Kiundwani, Kibarani and Mbui Nzau Markets
Water and Sanitation		
<ul style="list-style-type: none"> • Inadequate water supply due to imbalanced distribution water projects • Most of the borehole have Hard water. • Mismanagement of project funds by management committee leading to unsustainable projects. • Dispute between the land owners and water pipeline (lee ways) • Need to control run off during rainy season. • Umani water not reaching to the community • Many water brokers/cartels • Poor water harvest structures 	<ul style="list-style-type: none"> • Distribution of water sources • Increase rural water supply • Construction of water treatment to remove hardness. (purchase/introduce revise osmosis machines in most affected schemes. • Operationalize MARUWAB to take lead of management of water schemes in the ward • Feasibility study to identify appropriate water points • Construction of sand dams/terraces along major rivers/farms • Burning of the water bowsers/cartels • Chemical analysis on water projects • Change of water supply methods (from use of diesel to solar power) • Provision of water harvest structures 	<ul style="list-style-type: none"> • Distribution of water from Athi Tunguni water project at Tunguni hill to Kiunduani town and all other clusters. • Water resource management and governance. • Introduction reverse osmosis machine to remove hardness. • Construction of the following earth dams; Mithumoni – Ndumitava earth dam; Kakili – Tabora earth dam; Mii – Mii earth dam (Kwa-Matungu earth dam); Masumba – Kwa Mbwa earth dam; Nthungui – Kwa Munyaka earth dam; Vololo – Kwa-mboo earth dam; Yikivumbu – Kwa Maria earth dam; Masamukye – Silanga no. one earth dam; Katulani – Katongole earth dam; Ndunguni – Muthyamui earth dam; Kikumini – Kwa

	<ul style="list-style-type: none"> • Reduction of water tariffs 	<p>Ndumbi earth dam; Mwaini – Kwa Kimatu earth dam; Makasa – Makasa earth dam; Vololo – Mbole earth dam (Kwa Malonza) and; Kanyililya – Kwa Mbivi earth dam</p>
Natural Resources		
<ul style="list-style-type: none"> • Increasing human and wildlife conflicts • leading to crops destruction • Deforestation • Ward not benefiting from chyulu reserve • Mismanagement of public resources (kivuthi , kilema hill) 	<ul style="list-style-type: none"> • Provide mobile crusher to promote the income • Mapping of natural resources • Construct Entrance gates to natural resources (chyulu game reserves) • Initiate of mobile crusher to enhance income 	<ul style="list-style-type: none"> • Fencing of natural resources
Social Sector (Health, Education)		
Health		
<ul style="list-style-type: none"> • Understaffing • Lack of drugs in the dispensaries • Community health volunteers to be considered in the pay roll • Poor observation of working hours 	<ul style="list-style-type: none"> • Improvement of waiting bays in the dispensaries. • Equipment of maternity wing (Ilatu dispensary) • Laboratory equipment to be improved in the dispensaries • Timely supply of drugs • Need to refresh courses for the health volunteers • Level four hospital, introduce a private wing • UHC to have a specific date of payment 	<ul style="list-style-type: none"> • Health infrastructure development • Free universal health care
Education		
<ul style="list-style-type: none"> • Understaffing due to pp1 and pp2 • No feeding programme for ECDE kids • Underpayment of ECDE teachers • Trainees dropout in the technical courses n(CTTI) • Lack of enough ECD centres • Under marketable technical courses in CTTIs 	<ul style="list-style-type: none"> • Sensitization on civic education in our school • Provision of boarding facility in our CTTI • Advertisement of our CTTI • CTTI trainees to be allocated with bursary funds • Employ more ECDE teachers • Introduce feeding programmer to ECDE kids • Construction of ECD center at munathi • Construction of munathi ECD center 	<ul style="list-style-type: none"> • Education infrastructure development
Youth, Women and PWDs		
<ul style="list-style-type: none"> • High unemployment among the youth • Drug and substance abuse. • Limited access to loans for doing business • Inadequate sporting facilities and equipment. • Inadequate civic education of communities. • Inactive PWD groups • Lack of guidance and counselling 	<ul style="list-style-type: none"> • Sports and games to be factored • Provision of loan to youth by reducing restriction from access • Youth empowerment • Establishment of market driven courses for the youth to acquire necessary ideas • Youth training on poultry keeping. • Regulation on use of drugs. 	<ul style="list-style-type: none"> • Economic empowerment programme (youth, women and PWDS empowerment) • Promoting technical skill courses in CCTIS

	<ul style="list-style-type: none"> • Construction of special school of PWD in the ward • PWD to be considered on cash transfer. • Provide mentorship, guidance and counselling programs 	
Tourism, Culture and heritage		
<ul style="list-style-type: none"> • Unidentified tourism attraction site 	<ul style="list-style-type: none"> • Create awareness on importance of culture • Construction of mbuinzau kaunguni soto loitoktok road to promote the local tourism sites. 	<ul style="list-style-type: none"> • Empower and create awareness
Infrastructure and Enablers		
<ul style="list-style-type: none"> • Road encroachment • Gullies on feeder road • Roads with few or no water dykes • Lack of electricity connection to household and institution • Low technology uptake level 	<ul style="list-style-type: none"> • Introduction of ICT program in each sub ward • Community involvement during road construction • Construction of gabion • Heavy grading and murraming of road • Re – equipping of CICs • Construction of mbuinzau Kaunguni- soto loitoktok road 	<ul style="list-style-type: none"> • Road network development • Energy development and promotion
Devolution		
<ul style="list-style-type: none"> • lack of county administrative offices • lack of bank accounts for PMC 	<ul style="list-style-type: none"> • Revisiting of PMC policy (integrity issues to be considered) • Linkage between department heads • PMC to be trained on monitoring of the projects • Capacity build the county staffs 	<ul style="list-style-type: none"> • Construction of ward administration offices
Key cross-ward/sub county project /intervention		
<p>a. Heavy grading of Kiunduani-kitui road</p> <p>b. Opening of mbuinzau – loitoktok road</p> <p>c. Complete and operationalize poultry house at mbuinzau</p> <p>d. KIMAWASCO to ensure Makindu -kiunduani water pipeline is in use</p>		

1.5 NGUU MASUMBA WARD

Key Issues/Challenges	Proposed Interventions	Proposed Priority Project
Community Livelihood/Economic Empowerment (Agriculture, Trade, Lands, Cooperatives)		
Agriculture		
<ul style="list-style-type: none"> • Drought • Infestation by pest and diseases • No market for our farm produce • Inadequate planting seeds during rain seasons 	<ul style="list-style-type: none"> • Supply enough water to help in doing irrigation farming. • Subsidize farm chemicals and also help farmers to access them easily accessible i.e. to be availed in agriculture offices 	<ul style="list-style-type: none"> • Provide tractors and machinery for farm mechanization • Subsidy inclusion for planting materials and farm chemicals. • Staff more extension officers • Provision of a market /industry for hides and skins • Provision of quality AI for milk breeds

<ul style="list-style-type: none"> • Expensive mechanization • Pest and diseases • No market for our farm produce • Inadequate planting seeds during rain seasons • No market for hides and skins • AI provision for dairy cattle isn't sufficient 	<ul style="list-style-type: none"> • Subsidize planting materials and supply them to sub location level. • Help farmers in digging farm ponds to help during draught season • Capacity build farmers on ways of marketing their farm produce, new modes of farming and value addition. • Introduce a market for hides and skins • Reliance of other water sources • Grow the certified seeds • Tree planting and soil conservation • Improved livestock breeds • Contract farming 	<ul style="list-style-type: none"> • Modern livestock yard in Yikivumbu • Provision of certified seeds • Irrigation along Kikuu river • Mega dams from Muuoni kikuu river • Provision of pasture and pasture seeds • Construction of aggregation centre in Kikumini • Mapping of farmers and the type of crops they grow most • Purchase of farm tractor with rippers • Provide dozers at fair prices for digging of farm ponds
Cooperatives		
<ul style="list-style-type: none"> • Lack of awareness on the importance of cooperatives 	<ul style="list-style-type: none"> • Create awareness on importance of cooperatives 	<ul style="list-style-type: none"> • Provide accessible cooperatives for cotton • Capacity building of farmers on the formation of Sacco's and marketing of their farm products. • Organized marketing group
Trade		
<ul style="list-style-type: none"> • No market cleaning in Ndunguni market • No public toilet in Ndunguni market • No market shed in Ndunguni • No enough street lights for Ndunguni market • No stockyard in our ward • There are less street lights in Kikumini • The tanks around market shed are not enough for water collection • Market cleaning in Kikumini is done only a few days 	<ul style="list-style-type: none"> • Introduce market cleaning • Provide more streetlights • Provide a market shed for selling of goods • Introduction of a stock yard and market day in kikumini 	<ul style="list-style-type: none"> • Construction of public toilet at the market • Construction of a market shed • Installation of street lights in Kakili market • Installation of three street lights • Employ casuals to help in cleaning Ndunguni market • Provision of a stock yard and market day in Kikumini • Construction of aggregation center at kikumini • Provision of market cleaning in Katulani • Provide a market day for Kikumini and Masumba • Construction of a market shed in katulani
Lands		
<ul style="list-style-type: none"> • Lack of title deeds • Issue on land succession 	<ul style="list-style-type: none"> • Help the community in acquiring title deeds • Government to ensure the ukai land owners do not lose their land 	<ul style="list-style-type: none"> • Issuance of title deeds • Government to ensure clarity on land ownership • County government to facilitate the exercise • Physical planning of markets and towns. • Construction of a public toilet in Makasa
Water and Sanitation		

<ul style="list-style-type: none"> • Inadequate water • There is no supply of water • The public toilet are never cleaned • Long distances to water sources 	<ul style="list-style-type: none"> • Ensure supply of water to Ndunguni market and within the community • Supply water to more areas • Clean public toilets • Environment and natural resource management. • Purification of Water. • Enhance access to water for irrigation (Kimia). 	<ul style="list-style-type: none"> • Rehabilitate Kalovya borehole • Supply water and station a kiosk at Ndunguni market • Build and rehabilitate sand dams, sump tanks and water extensions from the existing water sources and along Muoni, Kimia and Kikuu rivers • Supply kaluki borehole around kwa Musau where there is water kiosk to benefit the people from kwamunyu village • Supply of Kilimanjaro fresh water at kwa Ndumbi, Ndunguni, Makasa, Kikumini and 15 other locations. • Supply Kwa Ndumbi BH to Ngongweni primary school • Drilling and distribution of Ndulu village and Masumba boreholes • Construction of gabbions along Kimia river • Thwake water to be distributed in Mii • Water dams in kikuu and muooni river • Extension of the existing water from vololo and Katangini Mweini • Solarization of kikuu water tank kikuuu water sump supply • Excavating, desilting, check dams' construction and rehabilitation of kwa Munyaka, Ndumuitava, Kwa Kivwau, Kimatyu, Tabora, Kwa Mutisya, Kwa Mutae, Kisayani, Kwa Ndumbi, Muthyamui, Kwa Ndavi-Munywoki, Ndimutava and Kwa Mukuthi earthdams. • Mukame ambeu water supply
Environment and Natural Resource Management		
<ul style="list-style-type: none"> • Tree planting • Land degradation (gullies) • No enforcement committee • Lack of Utilization of natural resources 	<ul style="list-style-type: none"> • Rehabilitation of range land • Gabion construction • Reforestation in hills • Pasture planting • Enforce environmental laws 	<ul style="list-style-type: none"> • Rehabilitation of range land • Rehabilitation of range land • Gabion construction • Pasture planting • Planting trees at Ithumba hill • Recruit enforcement committee to sustain ithumba hill trees • Utilization of Kivuthi at nguu hills (volcano stones) • Construction of check dams along the existing gulleys • Planting of grass & trees in bare land reclamation of Nguu hill to be reserved and university to be constructed community crutcher to be provided at nguu Hill
Social Sector (Health, Education, Youth Empowerment Sports and Social Inclusion)		
Health		
<ul style="list-style-type: none"> • Lack of electricity in Ndunguni dispensary • Lack of laboratory in Ndunguni dispensary • Lack of maternity wing in Ndunguni dispensary 	<ul style="list-style-type: none"> • Help in installing electricity in the dispensary or solar power installation • Add laboratory services • There is need for more staff • Introduce maternity wing 	<ul style="list-style-type: none"> • Purchase of more land for expansion of Ndunguni dispensary • Construction of maternity wing • Construct a laboratory • Construction of a burning chamber • Supply piped water in the dispensary • Pay CHVs to motivate them and employ more staff

<ul style="list-style-type: none"> • Understaffing • Lack of burning area for the chemical waste • Lack of motivation for the CHVs • Inadequate water supply in Ndunguni dispensary • No staff quarters • The land where the dispensary has been built is very small 	<ul style="list-style-type: none"> • Provide burning equipment for the hospital materials • Motivate CHVs • Supply water in the dispensary 	<ul style="list-style-type: none"> • Construction of staff quarters at Ndunguni dispensary • Fencing of Makasa dispensary • Fencing of Mithumoni dispensary • Construction of functional lab in vololo • Upgrading maternity • Sustainable family planning • Equip Mbulutini dispensary and installation of electricity • Improvement and equipping of Mweini qnd katulani dispensaries
Education		
CTTIs		
<ul style="list-style-type: none"> • There are very few courses offered • Inadequate staff • No fiber line in the youth polytechnic • There is inadequate infrastructure • Equip kwa matungu polytechnic 	<ul style="list-style-type: none"> • Introduce more courses in the CTTI • Add more staff in the CTTI • Expand the CTTI • Add ICT services and library within the CTTI 	<ul style="list-style-type: none"> • Construct ECDE class in Mithumoni primary • ECDE construction at Ndulu primary • Introduction of new trades at the CTTIs • Building more infrastructure at the CTTI • Build an ECDE centre in Kikumini primary school • Construction of ICT and library within the CTTI
ECDEs		
<ul style="list-style-type: none"> • Ndunguni ECDE is not well equipped • Bursaries disbursement takes too long to reach the beneficiaries 	<ul style="list-style-type: none"> • Build an ECDE centre in Kikumini primary school 	<ul style="list-style-type: none"> • Construction of ECDEs all public schools • Equip all ECDEs • Classroom to be constructed at kiواني, yumbuni, Nguma, vololo, Ngangani • Introduction of feeding programs in our ECDE centres • Construction of kwa mukonyo ECDE teacher
Youth Empowerment Sports and Social Inclusion		
<ul style="list-style-type: none"> • Lack of PWD centre and trainees as well as the equipment in the available special unit 	<ul style="list-style-type: none"> • Need for infrastructure, trainers and equipment for the PWD 	<ul style="list-style-type: none"> • construction of PWD centre in Kikumini and recruitment of PWD trainers • Community capacity building programs • Construction of rehabilitation centre • Facilitation of youth programmers to be funded • Capacity building to the youth /women • Provision of sports & equipment • Classroom to be constructed at kiواني, yumbuni, Nguma, Vololo, Ngangani
Infrastructure and Enablers		
<ul style="list-style-type: none"> • Lack of bridges culverts and drifts in roads • Very thin roads in some areas 	<ul style="list-style-type: none"> • There is need for culverts, bridges and drifts in road • There is need for expansion of feeder roads 	<ul style="list-style-type: none"> • Construct Ndunguni-kwa mukula drift and Muoni – Ndivuni culverts • Upgrading of kwa ndeme-kwa Paulo road, Kalovya–kwa Nzeki road and Kikumini –Ngongweni –Makasa –Emali road drift, Kikumini-Ngongweni Makasa- Emali bridge and Kikumini-kwa ishirini-Itaava road.

		<ul style="list-style-type: none"> • Culverts on Kwa maundu Kwa Ndavi • Tarmacking of Simba -Kikumini -Wote Road • Construction of bridghe in kanyenyoni-matiliku road • Grading of kwa mutua-kwa mamuu to kwa mukonyo primary school road, Masumba- tabora-itaava to Mithumoni road and Masumba-tabora to Kikuu road. • Grading and murruming of Uutini-mlolongo-kwa ndava-katangi road • Promotion of renewable energy • Promotion of technology and innovation
Key Cross-Ward/Sub-County Project/Intervention		
<ul style="list-style-type: none"> a. Construction of mega dam at Kikuu river b. Upgrading of Kikumini health centre to level 4 facility c. Tarmacking of Simba–Kwa Ndava-Masumba-Kilili-Kwa Philip road. d. Establishment of Agricultural training institute at Ukai 		

1.6 KIKUMBULYU SOUTH

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade, Lands)		
Agriculture		
<ul style="list-style-type: none"> • Brokerage for agricultural produce • Inadequate extension services • little knowledge and skills on farming and extension services • low agricultural and livestock productivity/ yields • lack of farm inputs • K. south ripper broke down and has no operator • Unreliable rainfall • Lack of electricity connectivity. • poor animal breeds • Lack of livestock yards for livestock trading 	<ul style="list-style-type: none"> • Strengthening of agricultural and livestock extension services • Provision of market for farm produces and market information • Provision of subsidized farm inputs- certified seeds, pesticides, AIs and subsidized farm inputs to farmers • Operationalization of Ward ripper and employment of a driver • Sensitize on and provide more productive breeds 	<ul style="list-style-type: none"> • Strengthening of agricultural and livestock extension services • Provision of subsidized farm inputs- certified seeds, pesticides, AIs and subsidized farm inputs to farmers • Maintain and operationalization of the ward ripper • Provide farmers with more productive breeds. • Support farmers with friendly loans/grants.
Trade		
<ul style="list-style-type: none"> • inaccessibility to interest friendly loans or grants • Under-utilization of natural resources (volcanic rocks and sand). • Inadequate market cleaning services • Lack of latrines in market centers – mikuyuni and 42 	<ul style="list-style-type: none"> • Construction of stockyard at mbuinzau and mikameni • utilize existing groups to form cooperative societies • Provision of loans with affordable interest rates. • Revival of tetheka fund • Construction of public toilets • Survey of the markets • be given the best breed fit for the environment 	<ul style="list-style-type: none"> • Construction of livestock yard at Kibwezi town and Kyanginywa market – with purchase of lands • strengthening of green gram cooperatives (Kikumbulyu North and South Sacco). • Construction of open air market at Siembeni and other recreational facilities – with purchase of land • construction of modern trading stalls at ngoleni trading center
Lands and Urban Development		

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
<ul style="list-style-type: none"> • Unsurveyed land • Lack of waste disposal dumpsites and bins • Poor urban planning 	<ul style="list-style-type: none"> • Land mapping, surveying and titling • mapping of natural resources across the ward • Development of cottage industries for value addition of the available natural resources • Poor drainage system • Establishment of crusher for making of ballast • Staffing of ward land surveyors and planners 	<ul style="list-style-type: none"> • Land succession, mapping, surveying and titling • Planning of Kikumbulyu south markets and urbans • Construction of a dumpsite at Wayani. • Construction of a complete sewerage line and treatment plant. • Construction of Kibwezi Township Playground toilet. • Construction of public toilets and rainage systems in Market centres.
Water Access		
<ul style="list-style-type: none"> • High cost of water • Inadequate clean and safe water • climate change effects • Climate change effects • Vandalism of water projects • Long distance to access water 	<ul style="list-style-type: none"> • Water pipeline extension • Rehabilitation and protection of water sources and riparian lands • Desilting and fencing of earthdams • Rock catchment water harvesting • repair the broaken pipes • Installation of water tanks • Construction of sand dams and check dams • Water governance and management • Community sensitization on Water Act, Project management and sustainability • Climate change mitigation and adaptation – Mbuinzau hills 	<ul style="list-style-type: none"> • Rock catchment water harvesting – installation of water tanks at Kwa mutulu rock catchment • Protection of water sources • construction and distribution of water kiosks for Kilui Water projects and water kiosks at miamba village • Tapping of UON water source • Rehabilitation of Kibwezi-Kalamba water pipeline • Water governance and management – Public education on water bill, record keeping, financial management, project management and sustainability • Rehabilitation and distribution of existing water points – Kwingithya, ilingoni, matua and nthunguni boreholes, kwa sembi earth dam (install damliner) • Installation of water tank at kyanzili borehole • Installation of steel tanks at malikuthea • Construction of Sand dams and check dams at kalulini earth dam • Desilting of Kwa King’ole, and kwa massive earth and fencing of kilui water source. • Construction of mega earthdams along nthunguni and yanda malisyo rivers for irrigation.
Social Sector (Health, Education, Social Protection)		
Health		
<ul style="list-style-type: none"> • Understaffing of ECDE Centres • no laboratory equipment • Inadequate drugs • No fencing at mikuyuni dispensary 	<ul style="list-style-type: none"> • Construction of a modern lab at mikuyuni dispensary and • Construction of maternity wings and incinerator mikuyuni, Kasemeini and Kalulini dispensaries • Supply of pharmaceutical drugs – all ward dispensaries • Purchase of ambulance for Kalulini health centre • upgrading of mbuinzau to health center 	<ul style="list-style-type: none"> • Supply of pharmaceutical drugs at all ward dispensaries • Construction of maternity wings and incinerator mikuyuni, mbuinzau, kalungu, Kasemeini and Kalulini health centre • Purchase of ambulance for Kalulini health centre • Construction of a modern lab at mikuyuni dispensary and • upgrading of mbuinzau to health center

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Early Childhood Development Education(ECDE)		
<ul style="list-style-type: none"> • Understaffing of ECDE Centres • Underpayment of casuals • Congested ECDE classrooms 	<ul style="list-style-type: none"> • Early childhood infrastructural development for mbuinza ece (construction of toilet), Makelenzu and Kwakyai (construction of ECDE classrooms), mitundu, kevanda • Introduction of feeding program at the Ward ECDE centers • Staffing of ECDE Centres • Increase the allocation for bursaries 	<ul style="list-style-type: none"> • Staffing of ECDE Centres • Introduction of feeding program at the Ward ECDE centers • Early childhood infrastructural development for mbuinza ece (construction of toilet), Makelenzu and Kwakyai (construction of ECDE classrooms), mitundu, kevanda • Increase the allocation for bursaries for kikumbulyu south residents.
Youth and Sports		
<ul style="list-style-type: none"> • Insufficient bursary funds • khat chewing for youths due to idleness • lack of enough funds for youth to sustain themselves • lack of counseling for youths • Lack of skills for youths 	<ul style="list-style-type: none"> • construction and equipping a talent center. • Creation of employment through implementation of Community driven development programme • Strengthening youth empowerment programmes – Ujuzi teke teke, ligi mashinani. • Sports and talent development 	<ul style="list-style-type: none"> • construction and equipping a talent center. • Strengthening youth empowerment programmes – Ujuzi teke teke, ligi mashinani • Implementation of community driven development programme • Sports and talent development
County Technical Training Institutes (CTTI)		
<ul style="list-style-type: none"> • inadequate technical courses at kanundu CTTI • No fence at kanundu CTTI • No electricity • High cost for secondary school education 	<ul style="list-style-type: none"> • power connection, fencing and introduction of marketable courses at kanundu CTTI 	<ul style="list-style-type: none"> • power connection, fencing and introduction of marketable courses at kanundu CTTI
Culture and Tourism		
<ul style="list-style-type: none"> • Operationalization of Mukamba cultural center • Lack of a bus park at kibwezi town 	<ul style="list-style-type: none"> • Operationalize mukamba cultural center and establish recreational facilities 	<ul style="list-style-type: none"> • Operationalize mukamba cultural center and establish recreational facilities
Infrastructure and Enablers		
<ul style="list-style-type: none"> • Poor road transport networks • Lack of electricity • Inadequate transformers • Road encroachment leading to blocked • underfunding of road projects • Land grabbing • Overloaded transformers • Inadequate and un functional flood lights • Inadequate street lighting • Minimal public participations • Lack of ward administration offices 	<ul style="list-style-type: none"> • Grading and murraming of roads • Electricity power connectivity • Survey and road mapping • Road opening • Strengthening of public participation • Enhance project management and sustainability • Establishment and capacity building of development committee • Installation of flood lights • Adoption of green energy • Establishment of town committee • Construction ward administration block/offices 	<ul style="list-style-type: none"> • Fastrack electricity power connection with Kenya Power Limited in kalungu, katulani, markets, kasemeini, mitundu, kivani, kyanzili, Kikoo, matua, kyakyai, Matinga, kalulini markets. • Road opening, grading of roads and construction of road structures at siembeni-ilingoni, kawala-mitundu, kalungu-kibwezi, nzukini-kibwezi roads, Construction of G.F.F box Calvert-emergency • Purchase of land for construction of ward administration offices at kibwezi • Installation of floodlights and streetlights at Kamangala, Kibwezi township, Kangesu, Kibwezi town and Kikoo weighbridge. • Purchase of land for establishment of Community

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
		Resource center at kibwezi <ul style="list-style-type: none"> • Survey and upgrading to bitumen standards of beria to Kyanginywa road. • Strengthening citizen engagement in development and governance • Establishment and capacity building of development committees
Key Cross-Ward/Sub County Project/Intervention		
a. Establishment of crushing industry for volcanic rocks in Kibwezi area. b. Construction of mega Earth dam along Yuu river c. Increase the allocation for bursary for students in secondary schools. d. Cabro works in Kibwezi town (kwa Kyula street, Hope Hardware-ACK street, Mjini streets 1&2) and upgrade of Kibwezi-Mikuyuni Sec. School road to bitumen standards e. Operationalization & upgrading of Muukamba Cultural Centre f. Establishment of Kibwezi Municipality		

2. KIBWEZI EAST

2.1 MASONGALENI

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade, Lands)		
<ul style="list-style-type: none"> • Lack of markets • Inadequate extension officers • Inadequate capital • Declining soil fertility • Low agricultural production and productivity. • human wildlife conflict • High costs of pesticides • Drought 	<ul style="list-style-type: none"> • More extension officers to be employed to assist farmers • Mechanization of agriculture • Provision of input to farmers • change of agricultural practices and be supported in beekeeping and poultry. • civic education to residents on modern farming practices • provision of electric fence up to the last point. • provide subsidies to farming inputs in time • Provide grants to small business traders • Provision of drought resistance breeds for both agriculture and livestock • Proper utilization of available natural resources • Provision of pest and diseases preventive measures and control • Pasture and fodder establishment • Provision of trading shades in the markets • Proper market planning for Ulilinzi and Ngomano market and others • Purchase of backhoe for ward. • Establishment of farm pond and farmers to be supported with dam liners 	<ul style="list-style-type: none"> • Irrigation along river Athi and Kithokosyo springs water. • Extension of electric fence up to kiaoni • Establish aggregation centers • Eradicate Huma wildlife conflicts. • Establish an open air market in Kativani.
Water Access and Sanitation		

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
<ul style="list-style-type: none"> • Inadequate clean drinking water for household use. • Human wildlife conflict • salinity of borehole water • poor maintenance of existing water sources • Deforestation. • Lack of dumping site 	<ul style="list-style-type: none"> • Extension of Kivungoni - Kyumani water project • Rehabilitate existing water sources • minimize water rationing to consumers. • extension of kimawasco water project • Solar installation to some water sources. • proper maintenance of existing water sources • construction of dumping sites to reduce pollution in markets • introduction of water treatment methods to drinking water sources • provision of dam liners to households near road. (road for water) • fencing of water points • Educating the community about the importance of trees and encourage tree planting to avoid deforestation • Construction of public toilets in markets and more market cleaners • Household water harvesting 	<ul style="list-style-type: none"> • Athi water to be distributed from kwa Muema kioko (kwa ndima) to be pumped to kalimakoi and then distributed to entire masongaleni ward • Extension of Kivungoni - Kyumani water project from Masaku ndogo, Ngomano, salama and Mwaani • Extension and distribution of existing water sources • Scooping of the existing earth dams • Construction of a mega earth dam along Athi river. • Enhance integrated waste management in markets and towns.
Social Sector(Health, Education, Social Protection)		
<ul style="list-style-type: none"> • Limited education access. • Inadequate health services. • Understaffing in health facilities • Inadequate community health volunteers • Limited support to the vulnerable 	<ul style="list-style-type: none"> • ECDE teacher’s salary to be reviewed. • Equiping of Masimbani health centre • Construction of ECDE classes • Provision of medicine and availability of staff • Equipping of Kyumani CTTI and construction of dormitory • Employment of more health practitioners. • Free medical services • increment of bursary allocation. • Employment of PLWD health practitioners. • provide a reliable and affordable emergency assets 	<ul style="list-style-type: none"> • Equipping and upgrading of Masimbani, Kithyululu and Ngwata health Centres • Equiping of Kyumani CTTI • Equipping and Fencing of the CTTI • Construction of more ECDE centers. • Building of staff quarters and equipping the health facilities
Infrastructure and Enablers		
<ul style="list-style-type: none"> • Limited road access. • Lack of Electricity to the households and also for the Administration offices. • Lack of information access • Inaccessibility to administration services and a social hall • Low resident’s empowerment 	<ul style="list-style-type: none"> • Open and murraming of all feeder roads and proper road maintenance • Electrify Ngomano Primary School • Road structures i.e drifts and culverts to all roads. • Improve network coverage e.g safaricom network • construction of a social hall at kavatini and Makutanomarket • electricity extension to every school and markets. • Construction of ward offices 	<ul style="list-style-type: none"> • Opening of all feeder roads and proper maintenance • Empowerment of security street lights in all markets. • Maintenance of Machinery – ndauni-kyumani road • Enhance projects ownership and management to control vandalism.
Key Cross-Ward/Sub County Project/Intervention		
<p>a. Athi water from kwa Muema Kioko (kwa Ndima) to be pumped to kalimakoi which is at high level and be distributed to entire ward.</p> <p>b. Extension of electric fence up to kiaoni</p> <p>c. Upgrading of Masimbani, Kithyululu and Ngwata health center</p>		

2.2 MTITO ANDEI

Key Issues/Challenges	Proposed Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade, Lands)		
<ul style="list-style-type: none"> • Low agricultural and livestock production and productivity • Post-harvest losses • Poor land tenure • Lack of ready markets for agricultural/livestock products • Destruction of crops by wildlife 	<ul style="list-style-type: none"> • Construction of an abattoir • Construction of a grain aggregation center • Provision of certified seeds to farmers • Livestock vaccination campaigns • Driving of rooming elephants back to park • Provision of title deeds • Providing water for irrigation • Payment of taxes in installments • Setting up of an industrial park for cottage industries at hillside 	<ul style="list-style-type: none"> • Tapping of Athi river water for irrigation • Construction and equipping of an abattoir • Construction of Mtito Andei Stock yard. • Promotion of cottage industries. • Address instances human wildlife conflicts.
Water and Sanitation		
<ul style="list-style-type: none"> • Inadequate potable water • Poor sanitation • Adverse effects of climate change • Human wildlife conflict 	<ul style="list-style-type: none"> • Water harvesting through dams and river sumps • Extension of existing fresh water sources • Construction of market toilets • Purification and distribution of salt water sources • Training on climate change 	<ul style="list-style-type: none"> • Construction of sand dams and sumps across Kambu river • Construction of a mega dam across Mtito Andei river • Upgrading of the electric fence to curb all wild animals • Develop integrated waste management practices.
Social Sector(Health, Education)		
<ul style="list-style-type: none"> • Inadequate education services • Inadequate healthcare service • Inadequate social protection 	<ul style="list-style-type: none"> • Construction of ECDE classes and feeder ECDEs • Equipping and upgrading of Ngwata CTTI • Equipping of health facilities • Outreach registration services for PWDs and the aged • Youth empowerment programmes • Train CDE teachers on CBC • Automation of makueni care • Support to education(bursaries) • Employ more teachers 	<ul style="list-style-type: none"> • Construction and equipping of standard ECDE classes • upgrading and equipping of health facilities • Upgrading and equipping of Ngwata CTTI • Youth empowerment programmes
Infrastructure and Enablers		
<ul style="list-style-type: none"> • Poor road network • Inadequate civic education • Inadequate energy and lighting 	<ul style="list-style-type: none"> • opening, grading and routine road maintenance • Civic education campaigns • Installation of flood lights in markets • Operationalization of village councils • Establishment of ICT centres • Operationalization of CIC at Kambu 	<ul style="list-style-type: none"> • Opening, grading and routine maintenance of roads • Construction and equipping of ICT centre at Darajani • Installation of flood lights in markets
Key Cross-Ward/Sub County Project/Intervention		
a. Tapping of Athi river water for irrigation b. Construction of Abbatoir		

2.3 IVINGONI/NZAMBANI WARD

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/economic empowerment (Agriculture, Trade, Lands)		
<ul style="list-style-type: none"> • Low agricultural and livestock production and productivity • Land grabbing • Unreliable market access • Human wildlife conflicts • Lack of pasture 	<ul style="list-style-type: none"> • Revive and construction of cattle dips. • Supply of favorable certified seed in time to different zones in Nthongoni sub ward example upper Nthongoni to be supplied with Beans and Maize which can do better while lower Nthongoni to be supplied with green grams and sorghum • Provision of Animal vaccination and drugs. • Provision of public land for construction of an abattoir in the ward. • Provide Market linkage to farmers. • Enhance and facilitation of the community extension volunteer in the village level. • Registration of farmers to cooperatives. • Provision of drought resistance breeds for both agriculture and livestock. • Proper utilization of natural resources (volcanic stones) • Construction of livestock yard. • Construction of trading shades. • Provision of a land surveyor and title deeds. • Creation of a municipality • Trained sub ward liaison officer. • Pasture and fodder establishment and Practice pasture farming. • Soil PH level testing for proper farming and knowledge to farmers on suitable crop farming in their area. • Training farmers on modern methods of farming and storage. • Construction of farm pods and provision of dam liners for every household (for irrigation purposes). • County government to provide pest and diseases preventive measures and control. • Supply of pigeon peas, cow peas and fiber crops (cotton) certified seed to farmers. 	<ul style="list-style-type: none"> • Construction of a Mega Crusher • Survey and titling
Water Access		
<ul style="list-style-type: none"> • Inadequate water supply • Poor management of water sources. • Deforestation • Lack of dumping site • Insecurity • Poor sanitation (Lack of market cleaners) 	<ul style="list-style-type: none"> • Construction of dumping site in all market centers. • Ward environmental officer. • Further extension and distribution of existing water sources at house hold level. • Enhancement of existing water source. • Solar installation (provide solar with high power voltage) to water sources. • Construction of one water treatment plant. • Supply of water tanks to households for water harvesting. • Construction of farm ponds to harvest water. 	<ul style="list-style-type: none"> • Construct Mega earth dam (Kwa mboo, mukonza, Mutiku, and Mang'elele) • Protection of all natural resources in the ward. • Enhance disaster preparedness in relation to drowning in dams and rivers. • Enhance natural resource protection and preservation.

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
	<ul style="list-style-type: none"> • Management of all water projects by the County government. • Educating/sensitizing groups more about forest conservation and tree planting. • Community sensitization on water act and water policy. • Provision of more street lights for our markets centers. • Employment of market cleaners (Consider PLWDs) • Construction of public toilets to our markets • Construction of animal trough and water storage point around earth dams to reduce silting and also for conservation purposes respectively. • Construction of dams across Mukonza River. • Construction and desilting of earth dams. • County government to provide some measures to prevent fire at chyulu hills forest. • Creation of cultural centers. • Protection of physical and natural resources. I.e. Rock catchment area (Ivia ya ngwai) • Backhoe truck at sub ward level. • Consolidation of Muzima and Umanyi springs water to one major storage tank. 	
Social Sector (Health, Education, Social Protection)		
<ul style="list-style-type: none"> • Inadequate health care services. • Limited education access. • Youth unemployment • Increase in gender based violence. • Poor playing grounds. • Low capacity of community health volunteers • Drug and substance abuse • Power instability in our health centers. 	<ul style="list-style-type: none"> • Equipping of health centers. • Addition of more health practitioners and staffs. • Accelerating wash programs. • Contraceptive uptake • Provision of public cemetery. • Training more community health volunteers. • Improve the Makueni health care UHC card. • Include PWDs personnel’s practitioners. • Construction of more infrastructures and staff quarters. • Construction of more ECDE centers. • Supply of learning materials for ECDE Centers. • Addition of more funds on bursary allocation per cluster level. • Expansion and improvement of the existing CTTI’s with marketable trades. • Employment of more instructors in the CTTI’s. • Establishment of Feeding programs to ECDE centers • Operationalization of Makutano Talent center and other playing grounds. • Introduction of Makueni league. • County registration of teams. • Creation of formal and informal jobs. 	<ul style="list-style-type: none"> • Upgrading Nthongoni hospital to a level four status.

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
	<ul style="list-style-type: none"> • Strengthen the Ujuzi teke teke program. • Sensitization and capacity building on GBV. • Creation of a rehabilitation center. • Establish Jua Kali Stalls and working stations for our trained youths. • Power backup at health centers. • Training and facilitation of community health volunteers at village level. • Capacity building on how to invest on tetheka fund program. • Provision of License to the boda boda sector. • Construction of Library and cultural training center. • Provision of monthly stipend to our Community health volunteers. 	
Infrastructure and Enablers		
<ul style="list-style-type: none"> • Low citizen empowerment • Limited road access • Limited information access. • Lack of social hall • Lack of permanent ward and sub ward offices. • Lack of electricity connection. • Lack of assembly offices. 	<ul style="list-style-type: none"> • Create more awareness (more civic education) by increase in budget allocation on civic education. • Murraming of roads and opening of feeder roads. • Construction of Road structures; culverts and drifts. • Electricity supply to the household level • Equipping of Nthongoni ICT center. • Fencing and public toilet to the Nthongoni ICT center. • Leverage ICT in all departments. • Management of social hall. • Construction of ward administrator's office at Makutuno. • Construction of Nzambani and Nthongoni social hall with Village administrator office. • Enforcement officer at ward level. • Construction of Community Resource Center. • Construction of ward assembly offices. 	<ul style="list-style-type: none"> • Road maintenance (Murraming and earth works to all roads). • Construction of ward administrator's office at Makutano.
Key Cross-Ward/Sub County Project/Intervention		
<ol style="list-style-type: none"> Operationalization and upgrading the Makutano Talent center. Construction of cultural center. Construction of Aggregation center. Construction of an Abattoir. 		

2.4 THANGE WARD

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade, Lands)		
<ul style="list-style-type: none"> • Low agricultural and livestock production and productivity • Lack of markets for agricultural produce • Lack of land ownership 	<ul style="list-style-type: none"> • Capacity building of farmers • Provide accessible credit to farmers • Fencing and proper equipping of the existing stores i.e. Usalama store • Provision of hybrid goats 	<ul style="list-style-type: none"> • Construction of abattoir • Construction of a stone crusher in Kikunduku Market • Survey and titling

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
	<ul style="list-style-type: none"> • More extension officers • Provision of markets for agricultural produce • Provision of chicks, pasture seeds and crop seeds • Artificial Insemination Services • Enhance access to farm inputs, value addition and Marketing. • Adoption of Smart Farming. • Promotion of Business along Mombasa Road. • Promotion of irrigation activities in the ward • Promotion of Honey Farming. • Construction of stock yard at Machinery Market • Massive issuing of title deeds to the citizens 	
Water Access		
<ul style="list-style-type: none"> • Inadequate potable water • Poor sanitation • Deforestation 	<ul style="list-style-type: none"> • Installation of water purification machines to purify borehole water • Recruitment of market cleaners in each market • Water harvesting at household and institutional level • Distribution of water from the existing sources • Tapping unexploited Natural resources. • Protect, restore and reverse land degradation. • Embracing protection of Forests and traditional shrines. • Embrace 10% Forest cover in every Household. • Promotion of waste collection point at Machinery 	<ul style="list-style-type: none"> • Construction of dams along Thange river and Mbulutini springs and distribution of water • Increase number of market cleaners in the markets • Expansion and distribution of Isunguluni dam
Social Sector (Health, Education, Social Protection)		
<ul style="list-style-type: none"> • Limited access to quality education • Inadequate healthcare services • Poor playing grounds • Youth unemployment 	<ul style="list-style-type: none"> • Healthcare services to be provided at affordable prices e.g. Ambulance rates • Construction of Doctor’s quarter at every health center • Recruitment of healthcare officers • Equipping of Health facilities with drugs, equipment and personnel. • Enhancement of Makueni UHC program. • Strengthening the CHU strategy. • Construction of ECDE classroom at Muusini primary school • Employment of more ECDE teachers • Staffing of Thange CIC • Youth empowerment • Equipping of CTTIs and explore more competitive courses. • Nurturing talents, skill development and innovations. • Establishment of creative centers for promotion of skills and Culture preservation. • Support to the physically challenged eg. Wheelchairs 	<ul style="list-style-type: none"> • Enhancement of Makueni Care program • Development and rehabilitation of machinery play ground • Equipping of Kiumoni CTTI and diversification of competitive courses • Establishment of cultural commission for promotion of talents and culture preservation
Infrastructure and Enablers		

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
<ul style="list-style-type: none"> • Poor road network • Lack of electricity • Lack of Village administrators office 	<ul style="list-style-type: none"> • Improvement of feeder roads within the cluster • Security lights at market places • More allocation to CDDs to aid in road maintenance • Enhance more Civic and Development programs. • Establishment of another Sub-ward (Village Unit) ie 3 VAs in each Ward. • Promotion of Capacity building programs for Staff, PMCs, PSCs and DCs. • Strengthen and motivation of the Peoples Government. 	<ul style="list-style-type: none"> • Grading and Murraming of Machinery-Nzavoni-Ndivuni-Penati-Usalama-Muusini-Maikuu-Ituumo-Kasasule-Nzouni-Kikunduku-Kyaani-Utithi-Kalulu-Ngomano road • Installation of culverts and drifts in major roads to improve connectivity. • Construction of community resource Centre at Machinery • Construction of village administrator's office • Upgrading of Kilungu- Nzavoni-Thange-Ituumo-Kwa kavutha-Metava-Bosnia • Opening of roads, including Manyanga-Metava-Chyulu Park-Kajiado road. • Construction of Masonga town-Nzavoni market bridge.
Key Cross-Ward/Sub County Project/Intervention		
<ul style="list-style-type: none"> a. Construction of Mega dam along Mbulutini springs b. Construction of community resource centre at machinery c. Construction of cultural centre 		

3. MBOONI

3.1 KAKO/WAIA WARD

Key Issues/Challenges	Proposed Interventions	Proposed Priority Project
Community Livelihood/Economic Empowerment (Agriculture, Trade, Lands)		
<ul style="list-style-type: none"> • Over reliance on rainfall. • High cost farm inputs ie fertilizers and agro-chemicals. • Undefined soil status. • Lack of title deeds by farmers. • Pest and diseases attacks on both livestock and crops. • Use of poor farming skills/methods and lack of mechanizations. • Inadequate extension services. • Poor market linkages of farm produce. • Low market prices of farm inputs eg 	<ul style="list-style-type: none"> • Promotion of irrigation. • Improved distribution of waters from the existing water sources. • Promotion of afforestation on public land and private. • Subsidization of farm inputs ie agro-chemicals, fertilizers. • Contract farming/construction of collection centres (aggregation centers). • Improved and deployment of more extension services. • Soil sampling and testing for better agricultural practises. 	<ul style="list-style-type: none"> • Establishment of Kako waia collection centers (cold room) • Provision of pasture seeds to farmers. • All major shopping centers (Kavingo, Kako, ngovu, Ngoluni, Mwaani, Watuka, Uviluni, Kyaluma, Mituvu, Mithumo, Kathamba and Mukuku) market days, survey and planning. • Sourcing farm manure from other areas eg Kajiado. • Equipping and installing electricity to kako Waia warehouse. • Construction of farm ponds to farmers within the ward • Distribution of Tree seedlings within the ward • Timely supply of Pesticides and planting materials (beans, maize and ndengu seeds) to all farmers. • Increased extension services and officers to cluster levels for farmer trainings and demonstrations.

Key Issues/Challenges	Proposed Interventions	Proposed Priority Project
<p>horticultural produce.</p> <ul style="list-style-type: none"> • Poor livestock breeds leading to low production. • Prolonged drought hence lack of pasture for livestock. • Soil erosion and gullies. • Unstructured issuing of business licences. • Lack of market days, unregulated prices and unplanned markets. 	<ul style="list-style-type: none"> • Survey and issuance of title deeds to farmers. • Uniform business licensing. • Survey and market planning. • Provision of pasture seeds. • Improvement of livestock breeds and subsidized Artificial Insemination services. 	<ul style="list-style-type: none"> • Construction of public toilets and markets sheds at Uviluni and watuka markets • Training and capacity building on finance bill and price control. • Establishing a livestock yard either at Kako or Kavingo. • Soil testing tree planting and reforestation of Thangu and Waia Hills • Promotion of fish farming in kako. • Supply of improved and local chick breeds annually. • Revival of Nduluku cattle dip. • Economic support to the vulnerable groups (PWDs, elderly and orphans) • Irrigation along kyang'ondu, kyaii, mukio rivers and along miao earth dam • Provision of Fruit fly traps. • Promotion of Bee keeping and improved goat and sheep(dorper) breeds in muthumo cluster. • Construction of Mukuku market shed
Water		
<ul style="list-style-type: none"> • Poor distribution of water from existing water sources. • Long distance to water points. • High cost of fueling machines to pump water hence high cost of maintenance. • Small catchments/reservoirs at existing water sources. • Community conflicts and vandalism on ownership of the water projects. • Lack of water purification. • Community encroachment on water sources and lack of • Dam siltation and encroachment. 	<ul style="list-style-type: none"> • Improved distribution of water from the available water sources. • Expansion of existing water sources. • Piped water distribution to households. • Use of sustainable water distribution methods ie use of solar panels. • Purification/testing of water for consumption. • Desilting and fencing of the earth dams. 	<ul style="list-style-type: none"> • Distribution of Kavuti sand dam and Kwa Nguni sand dam to Mba market and Kathamba market. • Distribution of Makaii bole hole to Kathamba primary and secondary - Mavitini primary - Sakai primary and Kwa Mutumba market. • Distribution of Kathamba borehole • Desilting and expansion of Waia earth dam and distribution to Kasanova, Kwa mutava, kyamangatu and kitandi villages. • Installation of standby power (solar panels) at Waia earth dam, Kyaluma, watuka and makaiia boreholes. • Desilting, fencing and treatment of kya muisu, matumo, mukuku, kako earth dam, miao earth dam, Kyaume, Mikuyuni, Nyanyaa A, Nyanyaa B, kwa esther, mituvu, muungano and munyuni water projects. • Distribution of Kya Muisu, Matumo, Mukuku, Kiseve sand dams, Miao earth dams and desilting of Nyanyaa A&B, Kwa Kyaume, Esther, Mituvu, Muungano, Munyuni water project, Mikuyuni, Kako and Mukuku. • Distribution of Kya Muisu sand dam to Ngakaa market and Ngakaa primary, Isusye market to Isungwani. • Distribution of Matumo water project ro Ilela village. • Distribution of munyuni earth dam to king'alini, Misungwani, Kwa kimweli and Kya mavui.

Key Issues/Challenges	Proposed Interventions	Proposed Priority Project
		<ul style="list-style-type: none"> • Distribution of Kwa mutombi water projects to Kandulyu market. • Rehabilitation of Construction of Kako water project and Nthangu water projects and piping to households. • Proposed Construction of kwa mulenge, kwa kalio Ndungi, kwa mutua (mithumo), Kingolen, Kwa ndunda (kyaluma), kwa matenge(usalala) and Kwa muasya earth dam • Drilling and distribution of Wambiti secondary, mbimbini primary, kwa kiema, kaumbuni, king'alini and kwa mulonzi (nduluku) borehole. • Proposed Construction of kwa koti(thwake) sand dam and sand dam along Mukio and Kyaai river • Proposed kwa nzuki, katothya, kwa ngomo, kwa kioko maswili, kwa mutua and masaani sand dam (kyeng'au) • Proposed rock catchment at Ngununi (kyamavui) and Kiimani kwa mbaa Muketo rock catchment. • Distribution of Kyaume water project to Kyaume Village. • Desilting survey and fencing of watuka earth dam. • Expansion and rehabilitation of kaiti water sump and Mukio sand dam. • Enhancement of kwa Malai earthdam • Construction of large sump at mbimbini river at kwa mutia. • Desilting of Kwa Ndia and Kwa Ng'anthoo earthdams and distribution • Drilling of water borehole in Kinena village • Construction of a dam at the Confluence of thwake river and Kaiti river (water sump to be constructed). • Nzangule ya Matangi programme. • Construction of water sump at Mukio river (Kwa Musyoka). • Installation of standby power (solar panel) at Kwa Mutombi sand dam. • Construct Kyaai sand dam and distribute water to Sovia. • Proposed construction of Kwa mwonga sand dams • Distribution of Kwa Kyengo spring in King'athuni to other areas • Tree planting at Kithendu forest
Social Sector(Health, Education, Social Protection)		
<ul style="list-style-type: none"> • Long distances to health facilities. • Inadequate equipment in medical facilities. • Short opening hours in the health facilities. 	<ul style="list-style-type: none"> • Equipping and upgrading of the existing health facilities. • Construct of more dispensaries. • Increased medical personnel. • Timely supply of drugs. 	<ul style="list-style-type: none"> • 2M budget allocation of bursaries every financial year. • Installation of power supply back up in Kisau subcounty hospital • Proposed Kathamba and nthangathini dispensary. • Proposed construction of a modern health center in Uviluni. • Upgrading and equipping waia dispensary to health center.

Key Issues/Challenges	Proposed Interventions	Proposed Priority Project
<ul style="list-style-type: none"> • Inadequate medical personnel. • Poor infrastructure at health facilities. • Insufficient medicine supply. • Low incomes and high poverty rates. • Poor ECDE classes/structures. • Inadequate ECDE teachers. • Lack of bursaries. • Lack of popularity of the CTTI's. • Inadequate equipment for various courses in the CTTI's. • Inadequate teachers in CTTI's. 	<ul style="list-style-type: none"> • Construction/Renovation of ECDE classes and toilets. • Train and employ ECDE teachers. • Adequate budget allocation for bursaries • Equipping and upgrading of technical training institutes. 	<ul style="list-style-type: none"> • Survey and issuance of a title deed at Kitandi CTTI. • Upgrading, fencing and staff house at Kisoi munyao health facility. • Construction of staff quarters at mituvu and uviluni dispensaries. • Proposed construction of ECDE classes in Mavitini, sakai, kathamba, malatani, wambiti, kyaluma, mbimbini, uviluni, kako, kyang'onde, kingaathuni, Itulu, kaseveni, mithumo, ngakaa, kikuswi, mituvu, maviani, nthaatwa, nduluku, nthunthi, miao, kandulyu and kitandi. • Fencing and construction of waiting bay at Kyaluma dispensary • St Patrics Kako CTTI construction of dormitories. • Nduluku CTTI construction of dining hall, construction & equipping of two workshops and a provision of a driving vehicle. • Provision of sanitary towels to girl child's and youth trainings / counselling. • Opening and equipping Watuka mobile clinic. • Proposed construction of wambiti TVET. • Construction of Waia mortuary • Construction and upgrading of Uviluni health centre facility (need a laboratory, administration block and maternity block. • Equipping of Kaseveni maternity and laboratory, equipping of maternity and laboratory at Kyaluma health facility, equipping of maternity and laboratory at Waia dispensary and equipping of maternity and laboratory at Kisoi Munyao Health Centre. • Upgrading (septic tank, soak pit, placenta pit and water tank) fencing and staff house at Kisoi Munyao health facility, construction of staff quarter at Kaseveni health facility and completion of staff quarter at Waia health centre. • Construction of a conference hall and a waiting bay at Kyaluma dispensary
<p>Infrastructure and Enablers</p>		
<ul style="list-style-type: none"> • Damaged road infrastructure. • Poor road water drainage systems. • Uncentralized Ward HOD officers. • Lack of proper lighting at market/shopping centers. • Insecurities at the market centers. • Lack proper electricity distribution within the ward ie last mile. • Road encroachment and conflicts. 	<ul style="list-style-type: none"> • Opening of feeder roads. • Construction of ward offices. • Installation of drifts and culverts on the existing roads. • Improved and regular road maintenance through Murraming and grading of roads. • Installation of additional floodlights. • Distribution of electricity (last mile). 	<ul style="list-style-type: none"> • Installation of Floodlights to the following markets Watuka, malatani, kavingo, muio, ngovu, kandulyu, mituvu, mithumo, kwa kavemba, mukuku, ngoluni, kathamb, kyangonde, nthaatwa and uviluni. • Construction of ward administrative offices in Wambiti social hall. • Last Mile electricity connection. • Survey of all public land and earth dams and issuance of title deeds. • Construction of public toilets in Ngoluni, Muiu, Kwa kavemba and kathamba markets. • Construction of a Ward CIC

Key Issues/Challenges	Proposed Interventions	Proposed Priority Project
		<ul style="list-style-type: none"> • Installation of drifts, culverts, drainage works, grading, murraming, gabion installation and road runoff harvesting of the following roads; Watuka-Mituvu-Nthaaatwa-Kathamba-Kwa Mitumba-Road, Kyaume-Mbimbini-Uviluni Road, Kako Market-Mba-Mwaani Road, Kyangondu-KavingoMarket Road, Kavingo Market-Kyaluma Market Road, Uviluni Market-Watuka Market, Ngovu-Nthangathini-Mwaani Road, Kitandini CTTI-Nthunguni-Nthangathini Road, Malatani-Miseleleni-Kwa Kianga Road, Kwa Kianga junction-Mbumbuni Market Road, Savani-Kitandi-Watuka Road, Survey-Kasanova-Kikusywi Road, Sofia-Kithendu-Usalala-Mbumbuni Market Road, Munyuni Market-CCI Mukuku-Mukuku Primary School (DRIFT), Watuka-Kako-Kavingo-(Kiukuni) Road, Kwa Mitambo-Uviluni - kwa kineene- kwa Kaviti Kaiti Road, Uviluni-Kwa Kiswili Road, Kyaluma-Kitongu-Kwa Ndungi Road, Ikundu-Kwa Ndungi Road, Mituvu-Kandulyu-Savani-Kako-Ngovu Road, Nduluku-Mukuku-Kikuswi-Kyaluma Junction Road, Uviluni-Kwa kiswili-Kwa nzau road, Kwa mawia-kaiti road, Kako-Kwa mutombi road, Kyaume-Kwa kitulu-thwake road, Kwa mukoko-kwa mutisya-kaiti road, Kwa mutava-ngakaa-miiliani road. • Installation of floodlights in markets Sovia, Mwaani, Mba, Kako, Kavingo B and Mitumba market • Installation of drifts, culverts, drainage works, grading, murraming, gabions installation and road runoff harvesting on Sakai-Mwanyani-Kiamani road, Kyangundo - Kitandi - Malatani - Isusye - Thwake road, and also amend the following words “Nthunguni” to read Nthuthini road, “Miseleleni” to read Maseleleni road and “Kikusywi” to read Kikuswi. Proposal to include the following roads: Mwaani-Kavuvoni-Mbumbuni road and also Mwaani - Kathambani - Kwa Chief Ndiku road. • Opening of Sovia - Sakai AIC - Junction kwa Nguku, Kwa katheo - Kiuukuni roads (nguumo road) • Extension of electricity (last mile) at Kwa Kilungu

3.2 KISAU/KITETA WARD

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Interventions
Community Livelihood/Economic Empowerment (Agriculture, Trade, Lands)		
<ul style="list-style-type: none"> • Insufficient farm inputs and uncertified seeds. • Diseases and pests. • Inadequate extension services. • Challenges in acquiring title deeds 	<ul style="list-style-type: none"> • Issuance of certified seeds and subsidized farm inputs. • Adequate extension officers. • Subsidized title deeds. • Construction of dumpsites and Livestock 	<ul style="list-style-type: none"> • Provision/supply of certified seeds and subsidized farm inputs. • Addition of extension officers ie; 2 in crops dept, 2 in Livestock dept, 2 in veterinary dept. • Department of issuing title deeds to be devolved at the subcounty level.

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Interventions
<p>I.e long procedures in land succession and the department is not devolved.</p> <ul style="list-style-type: none"> • Lack of dumpsites and Livestock yards in the main markets. • Lose of farm produce. • Lack of market/town planning. • Exploitation by middle men/lack of a ready market. • Lack of capital. • Gulleys/Soil degradation. • Livestock infrastructures. • Licences. • Lack of motivation of officers. • Lack of public toilets In some mkts. 	<p>yards.</p> <ul style="list-style-type: none"> • Provision of a central storage facility. • Markets/town planning. • Formation of producer cooperatives. • Provide affordable credit to farmers. • Subsidized licenses. • Soil conservation. • Construction/revival of farm structures. • Motivation of officers. • Construction of public toilets. 	<ul style="list-style-type: none"> • Construction of dumpsites at Tawa mkt and Mbumbuni mkt. • Livestock yard to be constructed at Kalingile. • Installation of cold rooms at Tawa, Kalingile and Mbumbuni mkts. • Planning of all the town mkts. • Formation of producer cooperatives. • Funding of farmers with loans and also county revenue response. • Land survey and issuance of title deeds. • Rehabilitation of a gully near AIC Kiambwa church at Kanyenyoni. • Revival of cattle dips I.e; Kasyelia cattle dip, Sinai cattle dip (near Tawa police station). • Facilitation of officers. • Construction of Kwa Kulomba mkt public toilets.
Water Access		
<ul style="list-style-type: none"> • Minimal distribution of water in the existing water projects. • Drying up of water sources due to human activity and siltation. • Interference of water sources. • Insufficient water sources. 	<ul style="list-style-type: none"> • Extension of lines in the existing water projects. • Protection of water sources. • Disiltation of the existing earth dams. • Establishment of new water sources. 	<ul style="list-style-type: none"> • Distribution of Kinze water project to; Mbumbuni _Kimandi_Ngoni, Kalimani _Kivani_Mbiiiani, Kyambusya mkt_Kyambusya ecde, No.8 market, Kitandini primary school _Kitandini mkt, Mbumbuni-Lungu, Kathini village, Mutooni village, Kyunyu village, Kathome and Water points at; Kwa Daniel Muthoka, Kwa Muoki Ngumbi, Charles Moka, Sammy Maingi/Kimangi and renovation of Ngaa reservoir tank. • Distribution of Mukundi water project to; Mwana, Ngoni-Nduuni cluster, Kavutini-Martin Mutula-Ithale village-Mulasya, Mulasya-Kiseki, Mwendu primary school, Mwendu dispensary and Water points at; Mwendu and Kiseki mkts. • Distribution of Kimandi borehole I.e redesigning of the main pipeline. • Distribution of water from Thwake river to; Kwa Matinga, Kwa Minzyoka mkt, Kakuswi mkt and Kwa Kulomba mkt. • Distribution of water from Kalangini earth dam to Kilisa. • Distribution of Tawa Mixed borehole to; Musunguu primary school, Sinai village (Kwa Kawasya), Tawa mkt and Tawa police at dip site • Distribution of Kyala earth dam to; Kyala village-Kavingi, Sinai village, Kasyelia village and Water points at; Mutinda Munyao, Musengya Mutunga, Kyala primary school and Treatment of Kyala earth dam water. • Distribution of Ngoni earth dam to; Ngoni mkt, Kitondo AIC church, Iiuni AIC, Kiamani, Kika AIC and Water point at Kiingani. • Distribution of Ndumbi borehole to; Kyome primary school and

<ul style="list-style-type: none"> a. Upgrading of Mbooni sub-county hospital-piping of Kiliku water project to the health facility, more x-ray staff and optician. b. Uvi water project-can serve Mbooni, Kiteta/Kisau and Kithungo/Kitundu wards c. Sports academy in Mbooni ward d. I.C.T development programme-training of ICT across the county e. Community driven development programme f. Affordable A.I programme g. Rehabilitation and distribution of Yemutundu water project 		

3.5 KALAWA WARD

Key Issues/challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade, Lands)		
Agriculture		
<ul style="list-style-type: none"> • Drought recurrences, unreliable rainfall and climate change • Inadequate extension services and few extension officers • Crop and livestock pests and diseases. • Lack of awareness on what seeds to plant, pesticides to use • High cost of agriculture and livestock inputs. • Lack of capital for poultry farmers • High reliance on rainfall for farming. • Lack of Artificial Insemination and poor livestock breeds • Late distribution of certified seeds to farmers • Lack of agriculture mechanization services such as farm tractors by the county in the ward • Inadequate skills by farmer on good agricultural practices • Lack of a ready market for the available agricultural products • Low agricultural production • Human-wildlife conflicts 	<ul style="list-style-type: none"> • Promotion of micro-irrigation through construction of earthdams, sand dams, boreholes and farm ponds (Dam liners and Shade nets) • Recruitment and facilitation of extension officers to provide extension services • Capacity building and sensitization of farmers on new farming practices • Promotion of Contract farming • Timely provision of subsidized agriculture and livestock inputs through collaboration with NGOs • Provision of ready market for the produce by promoting contract farming in the ward and by linking farmers with the EU market for mangoes and other horticultural produce • Sensitize and promote Cooperative formation to boost market price of produce and cut on brokers • Seed bulking programme • Development of irrigation schemes 	<ul style="list-style-type: none"> • Subsidized farm inputs programme • Agriculture extension programme including recruitment of more extension officers and more facilitation of the officers to offer extension services • Conducting farmer learning field days. • Setting up solar powered micro-irrigation schemes along Thwake and Athi River and targeting Thwake Multipurpose dam • Creating awareness and promotion of Artificial Insemination, Climate Smart Agriculture(CSA) farming and formation of cooperatives • Establishment and reviving of existing aggregation centres in Kathulumbi and Kwa Kiliu for organized farmers’ groups and cooperatives • Timely provision of agricultural and livestock inputs. • Purchase of a backhoe to support farmers in excavation of farm ponds. <ul style="list-style-type: none"> • Sensitization programme for the community on effects of farming along

Key Issues/challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
	<ul style="list-style-type: none"> along rivers and dams in the ward • Support farmers to establish seed bulking centres • Sensitize farmers on crop and livestock insurance for increased uptake of the insurance products • Rehabilitation of aggregation centres and cold rooms in the ward • Pasture development programme in the ward • Establishing farmer animal feed haybans to farmer groups, CBOs and Saccos. 	<ul style="list-style-type: none"> the river banks • Construction of market sheds in large and medium markets in Kalawa Ward, including in Kathulumbi, Mutembuku, Ngolomoto, Mboveni, Muukuni, Kasooni, Kinze and Musingini
Trade		
<ul style="list-style-type: none"> • Insecurity in the markets • Inadequate market infrastructure in market centres in the ward. • High trade licenses and other levies by the county government • Unfair competition by traders in the market • Poor market planning • Poor sanitation facilities • Lack of capital and other incentives to traders • Leadership issues since market committees are not fully operational • Dilapidated livestock yards • Lack of public toilets in some of the markets in the ward • Lack of a solid and liquid disposal facility in the markets in the ward leading to pollution of the environment 	<ul style="list-style-type: none"> • Set up an affordable credit kitty for the traders • Installation of solar spotlights • Provide capital through affordable credits with capped interest • Construction of market shades • Provide ready markets for goods • Construction of public toilets in market centers. • Construction of a standardized and government run slaughter house in Kalawa ward 	<ul style="list-style-type: none"> • Establishment of an Integrated Waste Management System in Kalawa market. • Setting up of spotlights in Kimeeni, Ndauni and Musingini • Construction of market sheds in kathulumbi, Mutembuku, Ngolomoto, Miangeni, Mbavani, Muukuni, Kasooni, Kinze, Syokilati, Kathongo, Musingini and Ndauni. • Constitutionalizing and reviving of market committees. • Construction of modern sanitation infrastructure (including Latrines) in Ngolomoto, Mukelenzu, Muukuni and Kinze Markets.
Lands		
<ul style="list-style-type: none"> • Poor market planning • Markets not surveyed and Unregistered plots • Expensive title deeds • Poor land tenure system. • Land disputes • Public land encroachment • Title deeds issuance rates are high • Bureaucracy in title deed processing • Unsurveyed government lands • Succession issues 	<ul style="list-style-type: none"> • Town planning of Kalawa, Kathongo, Kinze, Kimeeni, Miangeni, Mutembuku, Kathulumbi and Syokilati markets • Subsidize land title deeds, surveying rates and create cheaper and swifter process on land issues (cut on bureaucracy process) • Reestablishment of a national land board in Kalawa • Training and capacity building on succession laws. 	<ul style="list-style-type: none"> • Survey and mapping of public land programme in the ward • Support title deed acquisition • Training and capacity building on succession laws • Town planning of Kalawa, Kathongo, Kinze, Kimeeni, Miangeni, Katangini, Mutembuku, Kathulumbi and Syokilati markets <ul style="list-style-type: none"> • Planning of Kathulumbi, Miangeni, Mutembuku, Kalawa, Katangini, Kinze, Kimeeni, Syokilati and Kathongo

Key Issues/challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
	<ul style="list-style-type: none"> • Support title deed acquisition • Subsidize title deeds and issuance rates • Survey and titling of public lands 	<p>markets.</p> <ul style="list-style-type: none"> • Need for market planning, public toilet and bodaboda shed at syotuvuli market. • Constructing of modern latrines in Ngolomoto, Mukelenzu, Muukuni and Kinze • Drainage system in Kathulumbi market. •
Water Access and Environment		
Water		
<ul style="list-style-type: none"> • Silted dams • Earlier drying up of dams due to extended drought • Long distance to water sources • Vandalism and mismanagement of water projects by sustainability committees since they lack transparency in their governance • Public encroachment to existing water sources • Few water sources • Poor protection of catchment areas • Polluted water • Lack of public latrines around water sources • Lack of capital on farm ponds/ dam linings 	<ul style="list-style-type: none"> • Regulation of water tariffs. • Construction of check dams at the intake of earth dams • Transparency in governance of water projects • Desilting and Extension of existing water sources. • Construction of new sand dams, drilling of boreholes and excavation of earthdams and farm ponds. • Homestead distribution of AKWASH water project for domestic use and irrigation. • Creating awareness on project ownership and sustainability • Provision of alternative water sources • Protect catchment areas • land survey on water sources e.g. dams • Drilling of boreholes and distribution. 	<ul style="list-style-type: none"> • Formation of water providers in the ward to regulate water projects in the ward for improved management • Surveying, redesigning, desilting, rehabilitation, protection, setting up draw off systems, water treatment systems, water treatments systems and distribution of existing earthdams (Kyamakuthi earth dam in Kimeeni sub-location leading) • Water harvesting programs (Construction of sand dams) • Drilling boreholes in suitable locations in the 17 sub-locations. • Districution of all existing water sources in the 17 sub-locations in the Ward. • Enforcement of the environmental laws as provided by NEMA for the conservation of the riparian land • Provision of tree seedlings for planting at institution and household level • Enhancing soil and water conservation extension services. • Sensitization programme on climate change effects to build resilience, mitigation and adapt to the climate changes. • Empowering/capacity building PMCs to manage and sustain water sources. • Surveyed and demarcation of public water sources under private hands especially Muusini Earth Dam.

Key Issues/challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Health		
<ul style="list-style-type: none"> • Inadequate medical supply, equipment, Inadequate disease examination equipment in the health facilities. • Lack of enough medical staff in the health facilities • Lack of sensitization on community strategy • Poor and dilapidated infrastructure in health facilities • High medication cost • Few and Incomplete health facilities in the ward (Kaketi and Mutea dispensaries) • Inadequate water supply to Health facilities • Fencing and development of gates to secure health facilities. 	<ul style="list-style-type: none"> • Provide enough and continuous flow of medicine and treatment equipment. • Addition of several medical staff in Health facilities. • Enhanced medical services. • Timely payment of casuals • Fencing, construction of gates and Construction of staff quarters in Health facilities. • Laboratory construction in health facility • Empower community strategy • Provide tanks for water in facilities 	<ul style="list-style-type: none"> • Upgrading, equipping and fencing of Kalawa sub county hospital (including construction and equipping of an X-ray block) • Renovation, construction of new blocks and staff quarters in all health facilities in the Ward. • Implementation of community health strategy programme in the ward. • Universal health coverage programme-NHIF and UHC card (ensure that there are enough medical drugs in the health facilities) • Completion of Kaketi Health Centre.
Social Sector (Health, Education, Social Protection)		
Education.		
<ul style="list-style-type: none"> • ECDEs and support to education) • Understaffing in ECDE and CTTIs • Inadequate learning equipment (kiddy tables, chairs, desk and recreational facilities in ECDE centres • Insecurity among school going children • Low intake in CTTIs and lack of modern courses in the CTTIs • Inadequate bursary fund • Malnutrition among the ECDE pupils • Long distances to access ECDE and CTTI centres • Low levels of electricity connection in public learning institutions. • Poor conditions of play grounds in primary schools; Kavumbu, Mutanda and Muambani. • Lack of fencing of learning institutions • Lack of fencing of learning institutions in the ward • Lack of ECDE Class rooms in the following institutions: Kwa Malenge, Kathongo, Kyanguyu, Kasooni, Kinze and Kaketi ECDE Centres. 	<ul style="list-style-type: none"> • Construction, equipping of ECDE classrooms and staffing more ECDE teachers. • Diversification of courses/trades in CTTIs • Increase bursary funds. • Construction of hostels, Equipping and staffing of CTTIs. • Introduce feeding program in ECDEs and CTTIs. 	<ul style="list-style-type: none"> • ECDE Infrastructure development programme (Mbukoni, Ngamu, Kwa Malenge, Ngiluni, Kakuli, Kathamba Ngii, Kinyau, Thwake, Ndauni, Mbavani, Nganwa, Mukuku, Kathongo, Mutea, Ndivuni, Malaani, Ititu, Mililuni, Mutanda, Kyanguyu, Kasooni, Kinze, Mau, Syongungi, Mutembuku, Kathulumbi and Kaketi ECDE Centres) • Implementation of ECDE feeding programs • Introduction of addition modern and 21st century courses in CTTIs • County bursary programme • CTTI Subsidy Programme (CTTI Grant) • Electricity connection to all public learning institutions in collaboration with the National Government. • Levelling of playgrounds across the ward.
Infrastructure and Enablers		

Key Issues/challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
<ul style="list-style-type: none"> • Poor feeder roads connectivity and road networks • Dilapidated public utilities and resources due to lack of continuous management public resources. • Unbalanced distribution of road networks across the ward due to political influence. • Lack of drifts/culverts in existing feeder roads • Unsustainable power supply, e.g., solar power operated boreholes suffer when its cloudy • Lack of enough security lights in the markets. • Weak coordination between county government and national government officers • Communication breakdown from top hierarchy to citizens • Inadequate access to power in, households' markets and public utilities. 	<ul style="list-style-type: none"> • Opening of new and continuous maintenance of existing roads. • Opening up of more feeder roads. • Equality and unpolitically based distribution of resources • Promote partnerships with the National government in road maintainance and power connectivity. • Enhancing rural electrification to households, markets and public utilities. 	<ul style="list-style-type: none"> • Heavy grading (Include culverts, drifts and other water drainage systems) of main road networks in the ward identified during the cluster and sub location PP forums • Construction of Athi bridge to connect Kitui and Makueni county. • Opening of feeder roads in the ward. • Routine maintenance of roads in the ward. • Upgrading roads infrastructure to all weather standards. • Enhance access to power coonectivity in households, Markets and public utilities. • Installation of floodlights in markets. • Installation of a drift at Kinze road. • Electricity connection in all markets across the ward that have no electricity. • Installation of floodlights in all markets across the ward • Murrarming of all main roads and feeder roads across the ward

Key Cross-Ward/Sub County Project/Intervention

a. Athi Kalawa Water, Sanitation and Hygiene (AKWASH) project distribution across the ward.
b. Construction of Kalawa ward administration block for all heads of department
c. Construction of Athi bridge to link Makueni and Kitui county
d. Distribution of Thwake multipurpose dam water project to Kalawa, Wote, Kisau/Kiteta, Kako/Waia, Kathonzweni and Mavindini wards
e. Fodder development programme and construction of hay storage facilities in the ward.

3.6 TULIMANI WARD

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade, Lands)		
<ul style="list-style-type: none"> • Inadequate farm inputs eg fertilizers, certified seeds, pesticides • Low agricultural productivity • Poor storage of water facilities • Inadequate staff for agriculture 1.e AI, Extension offocers • Poor market planning • Poor drainages during rainy seasons lead to flooding in the market centres • Market days concern on weekends i.e 	<ul style="list-style-type: none"> • Adequate supply of inputs in time which can be one month prior to planting season • Renovation of the existing cereal cooperative and completion of the storage facility • Employment of more extension staff • Feasibility study on the type of agricultural production • Supply of subsidized seeds to farmers • Training to be done on some of the community farmers to be able to handle minor 	<ul style="list-style-type: none"> • Renovation of Tututha Cereal Board Cooperative and completion of the Kalawani cold storage project for storage of seeds • Increase employment of the Extension workers • Artificial insemination to be done on quality cattle breeds with subsidized prices • Quality drugs to fight off pests and diseases • Construction of public toilets at: Mavindu, Iiani, Itetani, Yandue, Uuta, Muthwani, Kalembeni and Tututha • Improve waste management at Kalawani market

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Saturday, Sunday <ul style="list-style-type: none"> • Lack of proper way to manage solid waste • Insecurity thus need for floodlights • Lack of public toilet in some market centres • Lack of title deeds • Public land encroachment 	issues on agriculture eg army worm invasion on crops <ul style="list-style-type: none"> • Value Addition to market produce and create market linkages • Construction of public toilets • Enhance waste managemensent • Succession management • Facilitate processing and placement of title deeds at nearby offices for collection 	<ul style="list-style-type: none"> • Installation of floodlights (Attached on infrastructure) • Assemble title deeds at the administrative offices eg chief, ward administrator • Construction of a stock Yard in Kalawani market • Construction of honey and fruit processing plant • Develop tourism attraction sites
Water Access		
<ul style="list-style-type: none"> • Water pollution • Insufficient water • Siltation of the water sources • Unprotected water sources • Vandalism of water pipes 	<ul style="list-style-type: none"> • Treatment works • Desiltation of dams • Fencing of water sources • Enhance sustainability commitees • Enhance water harvesting mechanisms 	<ul style="list-style-type: none"> • Rehabilitation and treatment works at Mulima and Ikokani water project • Desiltation of Kwa Matolo and Kyambulu earthdam • Supply of tanks for water storage at household level • Drilling of more boreholes • Full distribution water from all water catchments & sources within the ward • Construction of sand dams in all rivers
Social Sectors (Health, Education, Social Protection)		
<ul style="list-style-type: none"> • Inadequate medical supply of drugs • Inadequate health workers • No staff quarters, fencing, maternity wing and laboratories • CHV's stipend • Sewerage system not connected septic tank • Lack of ECDE classes in some schools • Inadequate staffing • CTTIs not equipped • Poor enrollment in the CTTIs • Conflicts of some CTTIs in their current location 	<ul style="list-style-type: none"> • Provision of adequate medical supplies • Employment of more health workers • Upgrading from dispensary to health centre of some facilities • Equipping and fencing of the dispensaries • Construction of maternity wing, laboratory and staff quarters as well • Construction of ECDE classes • Employment of more ECDE teachers • Construction, equipping and human resource of the CTTIs • Bursary allocation to the CTTI students 	<ul style="list-style-type: none"> • Adequate supply of drugs to all dispensaries • Employment of more health workers to all dispensaries • Upgrading of Iiani dispensary and Mavindu dispensary • Equipping and completion of the Mavindu maternity wing • Phase lifting of Tulimani dispensary • Construction of maternity wing, staff quarters and fencing at Yandue, Itetani and Mavindu • CHV's to be paid their stipend • Construction of ECDE centres at: Wambuli, Kwaithi, Ithemboni and Kitithini • Employment of more staff in both ECDE centres: Mulooni, Uuta and Malaa • Bursery allocation to the CTTI students • Equipping of Tulimani CTTI and construction of Wambuli CTTI at Iiani • Recruitment of more staff at Tulimani and Wambuli CTTI • Construction of a sports complex stadium within the ward • Introduce more sporting disciplines and increased funding to sporting programmes & activities • Construction & development of a talent Centre in the Ward.
Infrastructure and Enablers		

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
<ul style="list-style-type: none"> • Narrow pathways • Poor drainage of roads • Poor grading • Roads encroachment • Impassable roads on rainy seasons • No nearby administrative offices in some places • Lack of electricity 	<ul style="list-style-type: none"> • Opening, grading and murraming of roads • Installation of floodlights • Construction of administrative offices at nearby places easily accessible to everyone 	<ul style="list-style-type: none"> • Road works on the following roads: Wanzauni Market-Mwalui River-Country Lodge Road, Kithuluni-Itetani Market-Kikumbo Junction Road, Katunda Market-Kyamithenge-Ngunini Road, Iiani Market-Katunda Market Road, Kisyani-Syumbuni-Utumoni Market Road, Tututha Market-Kwa Ithi Road, Kwa Ithitu-Ndolo Market-Kikumbo Road, Kwa Nzueni-Uvilani-Nthaani Road, Kwa Solo-Uuta-Muthwani Malaa Road Kwa Ikavi-Kyumbuni-Utumoni Market Road, Nthungoni-Mavindu-Kalawani-Kakenge-Imale Road, Wanzauni-Kayumba-Uvaani Dispensary-Kwa Boss, Uvaani Junction- Uvaani Primary/Secondary School- Kwa Tina Road, Uvaani Secondary School-Ngwani River-Booster-Imale School Road, Musoa Junction-Kanoto-Malaa-Kanyenyoni-Ndiangu Vengea, Musoa Junction-Kyanguma-Kiembeni-Kwa Muli-Mukangu Road and Vengea-Kakima-Kwa Boss-ABC Thwake road <ul style="list-style-type: none"> • Complete Construction of all drifts in all roads within the ward • Increase electricity coverage & subsidize the installation cost
Key Cross-Ward/Sub County Project/Intervention		
<ul style="list-style-type: none"> a. Rehabilitation and treatment of Mulima and Ikokani water project b. Distribution of water from Ngwani river to the surrounding locations c. Upgrading of Iiani dispensary to a Health Centre d. Employment of more Extension officers in the department of agriculture 		

4. MAKUENI

4.1 WOTE/NZIU WARD

Key Issues/Challenges	Proposed Interventions	Key Ward Flagship intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade)		
<ul style="list-style-type: none"> • Pest and diseases • Low productivity in both crops and livestock • Lack of market for agricultural produce • Limited extension information to farmers • Poor quality pesticides 	<ul style="list-style-type: none"> • Supply of subsidized organic manure to farmers • Inspection and regulation of pesticides in the market • Increased Extension services to farmers. • Offering Artificial insemination services to farmers • Promotion of dairy farming 	<ul style="list-style-type: none"> • Provision of subsidized organic manure to farmers-cost sharing by government • Provision of Artificial insemination services to farmers • Propose government to promote Agricultural Mechanisation Services i.e, buy more buckles to offer subsidized AMS services. • Promote village based advisors (VBAs), E-xtension by county government • Continuation of the Ujuzi Teke Teke Programme

Key Issues/Challenges	Proposed Interventions	Key Ward Flagship intervention
<ul style="list-style-type: none"> • High Agricultural production cost • lack of sufficient veterinary services • unreliable rainfall • lack of a livestock market • lack of access to affordable credit facilities for business initial capital • Rampant Soil erosion. 	<ul style="list-style-type: none"> • Formation of producer groups for marketing agricultural products • Provision of citrus/mango fruit seedlings to farmers • Set up of fruit collection centers in every cluster • Construction of water pans in households to promote irrigation agriculture • Allocation of more time in malikiti market to sell agriculture produce • farmer training and capacity building to ensure farmers enjoy the real benefits of being in CBOs or cooperatives to market their farm produce profitably without the brokers/middle men exploitation • ensuring availability of the right or suitable, certified seeds, subsidized farm inputs to farmers and in timely manner. • Avail affordable and low interest credit facilities for the local citizens to start small scale businesses • Promotion of irrigation agriculture 	<ul style="list-style-type: none"> • Introduction of fruit drier project- HQ, Private investors • farmer training and capacity building • provision of subsidized farm inputs-grass inputs through dairy cooperative, training on grass harvesting Soil ph. Testing- soil lab in the ward
Water Access		
<ul style="list-style-type: none"> • Limited water supply • Stalled water projects • Longer distance to water sources • Availability of untreated contaminated water 	<ul style="list-style-type: none"> • To avoid vandalism and destruction, survey to be done before pipe placement. • Solar installation to be prioritized for the community water schemes and transferring the mandate of their operationalization and maintenance to a viable water service provider. • Ensuring fully phased water projects designs by the engineers despite the funding available. • Capacity building to locals on environmental conservation and natural resource management for sustainability and climate change action. • pegging of the riparian zone along Kaiti river and protection of the river from unmonitored and uncontrolled sand harvesting. • Kyamusoi borehole to be given to Promotion of Water harvest 	<ul style="list-style-type: none"> • Operationalization of stalled kwa kamende borehole by solarization and raising tanks to higher levels to enable distribution • Construction of a sand dam and sump which is solar powered from Kaiti and an elevated water tank at Bosnia to supply the previously mentioned areas. • Installation of electricity power to Kathuma bore hole • Operationalization of Kyamusoi borehole and hand it over to WOWASCO • Further distribution of water from kiti kyumu borehole- malivani, upper side of kitikyumu nziu • Construct kwa lili dam • Gully rehabilitation for a gully at between Merry emmaculate and Bernard Maitha • Rehabilitation of nziu bore hole • create spill ways in kwa musila earthdam, fencing, gabions to stop eroding spill way, fencing nguvuna earth dam • sourcing an independent water supply scheme to serve particularly these areas; Bosnia, Muambani, Kyamusoi, lower

Key Issues/Challenges	Proposed Interventions	Key Ward Flagship intervention
		<p>Mwaani, Kwa Nganda area, Kwa Kavoi Mbuvi area, Kwa Ndula area, Kwa Kakima area, Kwa Anna Mutivi area.</p> <ul style="list-style-type: none"> • Distilling of yamuthinzi bore hole • Distribute water form kitikyumu borehole to kwa kamuya – kivandindini-unoa- nyunzu. • Rehabilitation of ikomba water project • enhance the existing Kavingo, malivani and Makolongo borehole for water distribution. • Distilling of Jericho earth dam
Social Sectors (Health, Education, Social Protection)		
Health Services		
<ul style="list-style-type: none"> • Inadequate medical supply and staffing in existing health facilities. • Inaccessibility of the GK prison dispensary due to fear of insecurity • Lack of dispensary in Nthangu cluster • Poor hygiene and dumping of waste • Inaccessibility of mortuary services • lack of a maternity wing in dispensaries • high cost at the private health facilities on referral for specialized service like MRI • uncontrolled human waste disposal • Lack of fencing in some dispensaries • Power shortage challenges 	<ul style="list-style-type: none"> • Increasing medical supply in existing health facilities. • Decongesting the existing level 4 hospital by construction of proposed hospital in kivandini • Construction of a public mortuary • Construction of fully equipped maternity wings • Upgrading and renovation of health facilities • Increase number of nurses • Build more houses for staffs • ensure all the specialized and sophisticated medical services like MRI, CT scan and X rays like MRI, CT scan and X rays are available at the public health facilities. • Continuation of the Universal Health Care program • Installation of fence and electricity power 	<ul style="list-style-type: none"> • Construction of a dispensary in nthangu cluster. • Upgrading Bosnia by; construction of a fully equipped maternity wing, an extra nurse and any other necessary staffing, enough drugs that are branded (GoK) all-round the year. • Upgrading of Nziu health center, sourcing a Power backup eg generator for nziu health center and upgrading of nziu maternity wing • Decongesting the existing level 4 hospital by construction of proposed hospital in kivandini • continuation of the Universal Health Care program • Construction of staff quarters in kitikyumu dispensary, Fencing of Kitikyumu dispensary • Fencing and electrification of kathuma dispensary • Staffing the existing dispensaries to adequate capacity
Education		
<ul style="list-style-type: none"> • Inadequate ECDE centers in some clusters. • Inadequate staffing in ECDE centres • Unequipped ECDE centers • high cost of education – CBC for parents • Inadequate bursaries and scholarships for those in school • Inadequate infrastructure in Nziu TTI i.e, dormitory, workshop 	<ul style="list-style-type: none"> • Equipping and modernization of Existing ECDEs • government to fund the CBC programme • increase the bursary and scholarship allocation budgets • government to fast track the completion of sporting facilities • introduce feeding programme for both public primary and secondary schools. • Distribution of water in ECDE centers 	<ul style="list-style-type: none"> • Construction of 1 class at kiatine ECDE and Unoa ECDE • Construction and equipping of ECDEs in Muambani, Kitikyumu, Malooi and Kitheini. • Construction of modern work shop and equipment in Nziu TTI and a male dormitory in Nziu TTI • Construction of modern ECDE center at kivandini primary • Electrification of Nziu, Kitheini, Kavila ECDEs • Fencing of Kavila, kitheini, Kyenze highway ECDEs • Equipping and modernization of Existing ECDEs • bursary and scholarship allocation budgets • introduce feeding programme for both public primary and

Key Issues/Challenges	Proposed Interventions	Key Ward Flagship intervention
		secondary schools.
Social Amenities		
<ul style="list-style-type: none"> Limited infrastructure in malikiti market 	<ul style="list-style-type: none"> Fencing of nziu social hall construction of toilets Installation of electricity 	<ul style="list-style-type: none"> Fencing of nziu social hall, construction of modern toilets, Installation of electricity and Distribution and supply of fresh water to nziu social hall/malikiti market
Infrastructure and Enablers		
<ul style="list-style-type: none"> Inaccessible roads Lack of appropriate road structures on major roads Lack of street lighting in our local markets and shopping centers 	<ul style="list-style-type: none"> Need of opening, grading and installation of culverts Major road network enhancement, opening and upgrading Improvement and constant maintenance of feeder roads Provision of street lighting, flood lights at shopping centers and rural electrification Allocation of funds for suitable and sustainable energy options at household levels Survey of all roads and construction of all necessary road and drainage structures. 	<ul style="list-style-type: none"> Upgrade existing roads including Nthangu catholic - kyenge-kyuasini – muteti kyenge, Mwaani girls to Mwaani Boys, Kwa kitingi – kwa kyama, St rose – Makolongo, Kwa Sisters to Kwa Mutiso, Ndivuni- AICmutheli, kwa kilindu-yamuthinzi, kwa mulili-kwa ngundo, slaughter-kyambui, masimbili-mulolongo, AIC-kwa nzangi, kithima catholic –kwa ndili road, Kwa kivasu kwinga – gabion kwa kivatu – kyule ngolya, Kwa ngulue- kwa katiku- Muambani primary school, AIC kiembeni-kyangali-kwa kisyula, AIC kitikyumu-kwa masesi, kwa kusa musa-benson ndambuki road, Prison – kwa ngolovoi – kingoku road – kwa nguluwe, Kwa ngundo downstream – kwa david munyao-wote/makindu road, Kwa masibili-kwa wamunzyo road and Kwa mukosi –kisemeini - kathuma
Key Cross-Ward/Sub County Project/Intervention		
a. Construction of a modern up to capacity Mortuary b. Construction of a Decentralized Treatment Facility (DTF) c. Collaboration with the National Government to complete wote stadium and construct feeder playing fields within the Municipality.		

4.2 KATHONZWENI WARD

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade)		
<ul style="list-style-type: none"> Re-occurring drought Unreliable rainfall Insufficient extension services. Pesticides shortage low pricing of farm produce Ineffective pest control mechanisms. 	<ul style="list-style-type: none"> irrigation agriculture Afforestation Establishment of land survey/mapping and sub-division employment of livestock health workers regular vaccination 	<ul style="list-style-type: none"> Construction of abattoir at Kathonzweni town Irrigation scheme at Kiangini and Kwakavisi(kikuu) Construction of cold rooms at Thavu Sublocation. Operationalize existing aggregation centers at Kwa kavisi, Ikaasu and Mutini. Farm ponds construction at Thavu

<ul style="list-style-type: none"> • Middle men involved in Livestock trading hence affecting the pricing. • Late seed distribution & being given the wrong choice of seeds. 	<ul style="list-style-type: none"> • Adequate personnel for AI services, chicken rearing. (Extension Officers) • Provision of ready markets to eliminate brokers. • Provision of subsidized fertilisers. • Prior information to be sought by agricultural officers on what seeds to distribute and timely. 	<ul style="list-style-type: none"> • Provision of subsidized farm inputs. • Strengthening of extension services. • Provision of ready markets to eliminate middle men. • Land survey/mapping and titling. • Operationalize Kathonzweni Dairy Plant • Training and support to farmer groups. • Construct market sheds at Kiagini, Kwa Kavisi, Thavu and Kiteei market • Purchase of a backhoe for excavation of farm ponds
<p>Water</p>		
<ul style="list-style-type: none"> • Long distance to access water sources. • Scarce distribution of water sources. • Siltation's in the earth dams. • Poor piping materials leading to breakdowns. (No air valves). • Poor project management • Insufficient water for use and irrigation. • Drying of boreholes. • No fences at earth dams leading to water contamination by cattle. • Recurrent machine breakdown. 	<ul style="list-style-type: none"> • Distribution of water from the available water sources. • Helping people in harvesting rainwater by provision of tanks. • Fencing and construction of dams. • Election of trustworthy and able PMC members. • Existing sand dams to be desilt-ed. • Alternative sources of power e.g solar & electricity. 	<ul style="list-style-type: none"> • Desilting of the following dams: - Matinga 1 earth dam, Kwa Kilai, Kwa Nyole, Kwa Kalai, Ngwata dam, Matinga/Kasambani, Kwa Kilui, Kiteei, Makutano, Tuvilani, Kwa Kilunga, Vinya wa Munathi, Kasia mungo earthdam, Kwa kununga, Kathamboni, Kwa Ngundo, Kwa sila, Kyambusya and syethe dams. • Desilting of Kwakavisi and Kikuu. • Construction of Kwa Kitema, Kyusyani, Kwa Katunga, Matuuteni, Mathemba, • Distribution of water in Kiteei Mutini water project, vitale borehole and Kwa kavisi Kikuu water project. • Construction of check dam at Matinga 1 and Kwa Kilole earth dam. • Equipping of Matinga earth dam and Kwa Kilole dam. (proper piping & fencing) • Water governance and management. • Water harvesting –funds for tanks. • Capacity building to PMC's • Desilting of Yoani, Ituka (Kwa Ngewa) and Syatu Earth dams • Distribution of existing water sources including Kwa Ngondu, Kwa Kilui Water Project and Ikaasu Borehole • Construction of Seven small dams or earth dams • Rehabilitation of Itumbule and Kwa Matinga (pumping system) Boreholes
<p>Social Sector (Health, Education)</p>		
<ul style="list-style-type: none"> • Health • Insufficient supply of drugs • Understaffing • Unfunctional maternity wards. • Inadequate human resource in the health facilities. • Lack of laboratory services. • Lack of electricity and water supply in 	<ul style="list-style-type: none"> • Health • Sufficient supply of drugs • Electrification of health centers. • Staffing for more human resource in the health facility • Upgrading and equipping of health facilities. 	<ul style="list-style-type: none"> • Upgrading of Kwa Kavisi, Ngomano, Itumbule, Kathonzweni, Kiangini, Mbuvo HC and Kathamboni dispensaries. • Equipping and providing sufficient drugs at all health centers. (drugs to cure snake bites) • Construction, Staffing and equipping of Kwa Kavisi, Kivuioni, Kaasya, Mwisa, Mutini ECDE centres. • Upgrading of existing CTTI (Kathonzweni) Construction of a PWD center in the Ward.

<p>our health facilities.</p> <ul style="list-style-type: none"> • Lack of compound fence in some health centers. • Lack of emergency attendance services e.g ambulance. And mortuary in health centers. • Education • Poor ECDE structures that are not spacious. • Low quality chairs. • Understaffing of ECDE teachers. • Bursaries budget is too low 	<ul style="list-style-type: none"> • Installation of standby generator. • Provision of vaccines. • Provision of medicine to cure snake bites. • Education • Construction of ECDE centres. • Provision of feeding program for ECDE learners. • Construction of CTTI centers. • Provision of enough kiddy chairs. • Employing more County ECDE teachers. 	<ul style="list-style-type: none"> • Construction of bodaboda sheds at Kavumbu, Ikaasu, Thavu, Kiangini, Ngomano and Mutini
<p>Infrastructure and Enablers</p>		
<ul style="list-style-type: none"> • Poor connection of feeder roads • Vast distance to access ICT training. • Impassable roads. • Insecurities due to encroachment • High cost of produce transportation. 	<ul style="list-style-type: none"> • Opening of feeder roads • Grading of roads. • Construction of ICT center • Surveying of roads. • Technical officers to work closely with contractors and advise them • Construction of ward offices containing all departmental offices in one block. • Construction of social halls 	<ul style="list-style-type: none"> • Grading of Syonzalu- Ikaasu, Kwa Mathei-Kwa Ndumbu, Kwa Kavisi –Mwilu, Kwa Kimilu Kathonzweni –Mwisa –Kwa Kavisi, Vitale –kwa ngewa-Ikaasu, Kwa muendo Maluti-Kwa Ngumu –syethe –munathi kitise, Kiteei-Iiani –Munathi, Kiteei –kalani-mulu kisilu mwanzia, mbuvo-mbuvo nzau- kyuasi, mbuvo-ikaasu, kwa Kavisi-ngomano, Kyunyu-Kiangini, Yemulwa kwa kinzi –Mathemba A. • Opening of Kathamboni –Kathonzweni-yembondo, Kwa kutu-kwa ndunda –syatu-malii-londokwe, uini-kathamboni-kavumbu, uini-kiema-kitivo –yemulwa road. • Construction of culverts and drainage alongside redeemed –Kwa simon –kwa mutote. • Construction of talent centre at Kwa Kinzi. • Construction of Kwa kavisi and Itumbule CIC centre. • Planning and titling of Mbuvo, Kwa Kavisi, Kateiko, Thavu and Kiangini Markets. • Construction of toilets in all markets without public toilets • Construction of a cabros and culverts production plant in the Ward. • Installation of cabros in major markets in the Ward • Opening of roads. • Grading, murramping, installation of culverts and drifts and opening up of new roads.
<p>Key Cross-Ward/Sub County Project/Intervention</p>		
<p>a. Construction of Tannery and abattoir at Kathonzweni town. b. Upgrading of Kathonzweni Health center.</p>		

4.3 MUVAU/KIKUMINI WARD

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade)		
Agriculture		
<ul style="list-style-type: none"> • Low use of certified seeds • High pests and disease infestations • Inadequate extension services • Low prices of farm produce, especially mangoes, and citrus, (poor marketing). • Poor animal breeds • Prolonged drought/erratic rains • Soil sampling and testing services. • Poor storage facilities and fake hermetic bags. • Inadequate animal feeds. • Low rate of vaccinations. 	<ul style="list-style-type: none"> • Establish an agricultural subsidy plan to improve access to various inputs • Strengthen the surveillance of pest and disease systems through establishment of plant and livestock clinics where farmers can present diseased samples for diagnosis and prescription. • Recruit, train and equip 4 CEVs (Community Extension Volunteers) for each value sector • Strengthen producer organizations and cooperatives so that they can benefit from economies of scale • Support genetic improvement through Artificial Insemination programme. • Subsidized soil sampling and testing. • Promotion of regenerative agriculture 	<ul style="list-style-type: none"> • Subsidized farm inputs across the ward. • Enhanced extension services. • Establishment of aggregation/value addition centre at cluster levels. • Promote vaccinations. • Establish soil testing facility at ward level.
Trade		
<ul style="list-style-type: none"> • Poor market planning • Market insecurities due to poor or no lighting. • Lack of market toilets • Inadequate Bodaboda sheds. 	<ul style="list-style-type: none"> • Market planning • Installation of market floodlights. • Encourage citizens to attend finance bill public participations (civic education) • Construction and maintenance of sanitation facilities in public facilities • Construction of Bodaboda sheds. 	<ul style="list-style-type: none"> • Market surveys and planning across the ward. • Installation of market flood lights at Itaa, , Kitonyoni, Mumbuni, Mulaani, Ngusu, Iviani, Neema, Kasarani, Kaseve, senda, Kangondi, Kithiani, Kithoni , Ngutwa, Mutulani, Mumbuni, East ngosin, Kwa Mutune, Central, Makutano, West Ngosini, and Kaseveni. • Repair of Floodlights at; Kikumini, Kwa Kathoka, Kilisa and Kitonyoni. • Costruction of public toilets at Itaa, Kitonyoni, Mulaani, Kwa Ngusu, Iviani, Neema, Kasarani, Kaseve, senda, Kangondi, Kithiani, Kithoni, Ngutwa, Mumbuni, East ngosini, Kwa Mutune, Central market, Makutano, and Kaseveni • Construction of Bodaboda sheds at West Ngosini, Kikumini, East Ngosini, Kwa Mutune, Central Market, Makutano, Kaseveni, Itaa. • Construction of market sheds at Kwa Kathoka, Mumbini, Kikumini, and Kitonyoni. • Proposed market days in Kikumini, Kitonyoni, Kwa Kathoka, and Mumbuni.
Water Access		
<ul style="list-style-type: none"> • Water scarcity 	<ul style="list-style-type: none"> • De-silting of earth dams. 	<ul style="list-style-type: none"> • De-silting of Kambi Earth Dam

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
<ul style="list-style-type: none"> • Poor management • High costs of maintenance • Water contamination • Vandalism of water 	<ul style="list-style-type: none"> • Alternative source of water such as boreholes' • Hydrogeological surveys • Rehabilitation of broken boreholes. • Construction of farm ponds • Training of sustainability committees • Installation of solar panels in water projects. • Fencing of water sources. • Water treatment plant. • Legal action taken against vandalism. 	<ul style="list-style-type: none"> • Distribution of Kathuma Borehole. • Ndukuma water distribution to Itaa, and Kilisa. • De-silting of Ngalaliki earth dam. • Proposed Ngosini earth dam • De-silting of Muia earth dam. • Repair and expansion of kwa Mutava earth dam • Kilisa water project • De-silting Muthithu earth dam. • Proposed borehole at Kwa Ngumbi. • De-silting of Kwa Kiteke earth dam. • Proposed Mutulani Mumina borehole. Fencing of our water sources is necessary.
Social Sector (Health, Education)		
Health		
<ul style="list-style-type: none"> • Inadequate drugs • Sub-standard and inadequate infrastructure • Under-staffing • Insufficient clean water. • Lack of ward based ambulance services. • Gender Based Violence 	<ul style="list-style-type: none"> • Supply of adequate drugs • Staffing of dispensaries with enough personnel. • Upgrading of dispensaries • Establish framework for CHVs facilitations. • Fencing of the dispensaries. 	<ul style="list-style-type: none"> • Timely provision of adequate drugs • Enhanced personnel • Upgrading of Kambi, Kitonyoni, Kikumini, Mutulani, and Kilisa dispensaries to health centres. • Fencing of Mandoi and West Ngosini dispensaries.
Education		
CTTIs		
<ul style="list-style-type: none"> • Low enrollment • Inadequate infrastructure • Poor electricity connectivity • Under-staffing 	<ul style="list-style-type: none"> • Proportionate staffing • Upgrading of the CTTIs • Introduction of short courses • Increase power connectivity 	<ul style="list-style-type: none"> • Construction of boarding facilities, staffing, introduction of short courses in Kyemole CTTI • Electricity connection, Construction of toilets, Equipping, Staffing and Ground levelling at Itaa CTTI • Equipping and Staffing of Kangondi CTTI • Upgrade Makueni CTTI to offer certificate and diploma course.
ECDEs		
<ul style="list-style-type: none"> • Inadequate classes. 	<ul style="list-style-type: none"> • Construction of ECDE classes 	<ul style="list-style-type: none"> • Construction of modern ECDE classes at; Kambi Mawe, Kithoni, Kyamusoi, Sia, Itaa, Ngutwa, Kilisa, Makutano, Kasarani, and Kitonyoni primary schools,
Infrastructure and Enablers		
<ul style="list-style-type: none"> • Impassable Roads • Roads encroachment • Lack of drift across the rivers • Deep galleys across the roads • Lack of proper grading and 	<ul style="list-style-type: none"> • Constructions of Culverts, drifts and cut-off drains. • Grading and Filling of potholes. • Surveying and beaconing of roads • Installation of gabions/culverts and drifts. • Promote green energy and use of charcoal briquettes. 	<ul style="list-style-type: none"> • Road improvements across the ward through survey and beaconing of roads, grading, installation of culverts, construction of drifts. • Survey, beaconing and fencing of all public utility plots • Kwa chesoni- Nzioka- Kithoni- Kaiani- Mutulani- Manoonoi-

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
drainage system • Low last mile power connectivity. • Pollution	• Enhance Power Connectivity through promotion of Rural Electrification. • Tree planting initiatives.	Kathuma- AIC Matooi- Ngutwa market (Mumbuni Cluster Block) • Ngosini to kwa kali road- Kwa Kilonzo- Kwa kinyumu – Harambee dam – Kikumini market (gulley filling at harambee dam point) (West Ngosini Cluster Block) • Kili – Kavuliloni- (bridge/drift at Mwilu river)- Kwa solo – Kwa mutava – Kwa kaviku road (Itaa Cluster Block) • Fund youth empowerment activities. E.g. Kwa Ikaa playground fencing, levelling and constructions of shades, promote ‘Ajira Kwa Vijana’, Ligi mashinani, and ujuzi teke teke initiatives.
Key Cross-Ward/Sub County Project/Intervention		
a. Provision of timely subsidized farms inputs for all value chain sectors. b. Distribution of water from Ndukuma Dam. c. Acquisition of a ward buckle for digging for ponds.		

4.4 MBITINI WARD

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade)		
• Recurrent drought • Pests and diseases • High prices of farm inputs • Lack of ready market for agricultural produce • Inadequate extension officers and services • Lack of enough capital • Overreliance on rain fed agriculture • Lack of enough storage facilities • High pricing of farm inputs • Untimely distribution of seeds • Soil erosion • Floods • Pests and diseases • Encroachment • Market access • Inadequate extension officers • Inadequate storage facilities	• Promote irrigation agriculture • Subsidize farm inputs • AI services • Provision of sufficient extension services • Farm loans like Tetheka fund • Soil sampling and testing programs • Water harvesting • Capacity building of farmers • Provision of ready market thus doing away with brokers. • Regulation of bars and casinos • Tree planting • Timely supply of certified seeds • Review license rates • Construct fertilizer supply centers at every subward	• Soil testing and sampling facility at the ward level • Irrigation along Mbitini rivers and earth dams • Subsidize farm inputs like Fertilizer, seeds, etc. • Soil and water conservation in the whole ward • Construction of gabions and sand dams • Construction of a storage Centre for farm produce (one for the whole ward) • Reviving of Kithumani Coffee Factory <ul style="list-style-type: none"> • Distribution of wheat seed • Promotion of Avocado Value Chain • Establish new markets at Kalumbi and Mwambwani
Water Access		
• Inadequate water sources • Inadequate water supply	• Distributing water from the existing water sources • Construction of earth dams and sand dams	• Expand and fence Kithembeoni earth dam. Distribute the water to Muambwani primary and sec schools, Kithembeoni primary

<ul style="list-style-type: none"> • Drying up of water sources • Recurrent siltation of earth dams • Salty water sources especially in Mutyambua sub ward. • Water points not fenced • Stalled projects 	<ul style="list-style-type: none"> • Dig boreholes and shallow wells • Encouraging household water harvesting • Subsidies on water storage tanks • Collect roadside running water • Fencing the water points 	<p>school, Mungyani primary and sec schools and lastly Masokani CCTI</p> <ul style="list-style-type: none"> • Drilling boreholes at: Mungyani sec school, Mungyani market, Mwanyani market, Yanda, Kivutini, Kwakivati and Kithumani market • Distribute Kaliluni water to Masokani CCTI. • Drill borehole at Mutyambua level IV hospital • Geological survey for a suitable borehole at Masue cluster, Kwambita, Kathuma primary school and Ilengeni. • Desilting and distribution of Manooni earth dam • Reddiging and fencing of Muambwani earth dam • Distribute water from Kyumbe borehole, Mbulutini borehole. • Drill boreholes • Distribution of Lumani spring at Mwambwani.
<p>Social Sector (Health, Education)</p>		
<ul style="list-style-type: none"> • Inadequate drugs in health facilities especially the dispensaries • Inadequate personnel • Inadequate facilities in ECDEs, CCTIs and dispensaries • Poor management of the institutions • Few operating hours for the health facilities • No maternity wing and lab services and lab services in most of our health facilities • Shortage of finances 	<ul style="list-style-type: none"> • Employ enough staff/ Personnel • Fully equip CCTIs • Construction of ECDE centers • Supply enough drugs to our health facilities • Operationalize our health facilities for 24 hours in a day. • Increase available bursary kitty 	<ul style="list-style-type: none"> • Operationalize Kakutha maternity wing by staffing • Construct a laboratory at Kaliini dispensary • Construct a maternity wing at Kavuthu health Centre and operationalize it 24/7 • Actualize Mutyambua to full level IV status and provide services 24hr services • Upgrade Mbenuu health facility, Mbulutini dispensary, Kyumbe dispensary, Mbulutini dispensary and provide a backup generator in each • Upgrade mungyani dispensary and construct a lab and a maternity wing. • Employ a second ECDE teacher in every ECDE Centre • Construct disability friendly ECDE structures and other government structures • Increase ward and county bursary kits • Upgrade Masokani and kithumani CCTIs and provide: <ul style="list-style-type: none"> • boarding services • Computer lab services • Increase trades offered • Additional classrooms • Additional staff/instructor • Construct a rehabilitation Centre at Masue • Support mutyambua library by renovating it and replacing the odd books • School feeding program for ECDEs • Construction of a CCTI at Mutyambua sub ward

		<ul style="list-style-type: none"> • Construction of a Mortuary • Construction of Incinerators at Mbenuu health centre
Infrastructure and Enablers		
<ul style="list-style-type: none"> • Impassable roads especially during rainy seasons • Substandard levels of playgrounds • Lack of sanitation structures in some of our markets • Unopened roads to the interior • Gullies forming at roads • Poor electricity connection 	<ul style="list-style-type: none"> • Opening up of feeder roads • Construction and levelling of playgrounds • Construction of drifts/bridges • Last mile electricity • Continuous maintenance of major roads 	<ul style="list-style-type: none"> • Drainage and protection work (Murraming, drifts, culverts etc.) of Mungyani – Barazani road • Construction of a drift at Kweng’ala, Kwakitei and Mbulutini • Construction of a bridge at muooni (Kavuthu) • Kwa-Mbita – Kavuthu – Mutyambua – Barazani – Mungyani – Muambwani – Kithumani – Yuuni – Mbenuu – Kwamutula road • Construction and levelling of playgrounds at Kavuthu primary, Nuumoni playgroud, Mungyani primary(levelling), Manooni playground, Kithatha primary, Matooni primary, Yumbani primary, Kalini and mutyambua playgrounds • Installation of flood lights at every market center
Key Cross-Ward/Sub County Project/Intervention		
<p>a. Subsidized water tanks</p> <p>b. Provision of subsidized farm inputs</p> <p>c. Increase bursary kitty at both ward and county levels</p>		

4.5 KITISE/KITHUKI WARD

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade)		
Agriculture		
<ul style="list-style-type: none"> • pests and diseases • short and unreliable rains • poverty (lack of enough capital to buy farm inputs) • inadequate water for irrigation • few extensions officer • No enough skills on modern farming • animal vaccination not regularly done 	<ul style="list-style-type: none"> • promoting irrigation around available water sources. • Vaccination on animals to be done regularly • more extension officers • trainings on farming practices. • provision of subsidized farm inputs to the farmers • Value addition to the farm produces. 	<ul style="list-style-type: none"> • Athi -Matheani -Kithuki -Kisaudogo irrigation scheme (rehabilitation and distribution) • Completion and equipping of Kitise poultry house. • Londokwe earth dam (expansion, distribution to Kanzokea and Munathi, storage tanks at Kitise and kithuki and pumping machines) • Thwake dam irrigation canals to be implemented • More extension officers in the area • Provision of subsidized certified seeds, provision of chicks, AI services. • Cold rooms to be built at Kikome and Kanzokea • Regular farmers training programs • Animal vaccination programs to be carried out regularly especially for rabies • Aggregation centers to be built at Kitise, Kanzokea, Yinthungu, Katangini.

		<ul style="list-style-type: none"> • Sensitization programs on bee keeping and equipping the farmers. • Tetheka funds to be made available to farmers at low rates.
Trade		
<ul style="list-style-type: none"> • High rates of rental premises • Lack of market/fluctuation of market prices. • Poor road infrastructure making it difficult to transport farm produce • No public toilets in some markets • Lack of/poor condition of market sheds and stock yard • No designated dumping sites 	<ul style="list-style-type: none"> • Renovation /construction of market sheds • Designation of dumping sites • Construction of public toilets • Provision of market for farm produce • Improvement of road infrastructure • Kanzokea and Yinthungu markets to be given market days. 	<ul style="list-style-type: none"> • Market sheds to be built at Kitise, Kithuki, Matheani and Kanzokea., • Upgrading of stock yard at Kitise market (fencing and loading bay to be done) • Public toilets to be build at the market centers • More market cleaners to be employed
Water Acces		
<ul style="list-style-type: none"> • Water contamination • Inadequate water supply • Vandalism • Poor management of water projects • Lack of sanitation facilities in some water points • High cost of fuel leading to increase in water prices 	<ul style="list-style-type: none"> • Solar /electrification of water pumping equipment • Water treatment to be done • Water distribution from the available sources • Distilling of existing dams • Frequent trainings to the project management and sustainability committees • 	<ul style="list-style-type: none"> • Athi -Yinthungu-Kimundi-Kanzokea water project (proposed new project) • Munathi borehole to be dome • Distribution of Kitise water project to Munathi cluster block • Regular distilling of all earth dams in the ward programs • Distribution of existing borehole water at kwanyaa • Constriction of check dams and sand dams around londokwe earth dam • Excavation of farm ponds programs by providing a ward tractor at fair prices. • Water treatment materials to be provided
Social Sector (Health, Education)		
Health

5.4 KEE WARD

Key Issues/Challenges	Proposed Interventions	Proposed Project /Programme
Community Livelihood /Economic Empowerment(Agriculture, Trade)		
Agriculture		
<ul style="list-style-type: none"> • Inadequate Water supply • High cost of Farm inputs • Lack of Storage Facility • Lack of ready Market for Agricultural produce • Recurrent drought • Lack of awareness on post-harvest management of agricultural produce 	<ul style="list-style-type: none"> • Promotion of irrigation • Provision of subsidized, certified farm inputs • Government to source ready market • Promotion of poultry farming. • More extensive Agricultural extension services 	<ul style="list-style-type: none"> • Provision of subsidized certified seeds and fertilizers (farm inputs) • Employment of more Agricultural extension officers • Tree planting to mitigate issues of climate change • Provision of subsidized water harvesting technologies and farm ponds and dam liners. • Increment of extension officers in the ward

<ul style="list-style-type: none"> • Limited Agricultural extension services • Poor livestock breeds • Lack of adequate capital • Pests and diseases • Challenges to access government subsidized fertilizer • Unreliable rainfall • Poor market prices for agricultural produce 	<ul style="list-style-type: none"> • Mitigating negative climate change effects • Physical planning of trading centres • Construction of farm ponds • A market day in the locality to provide market for products. • Advocacy on irrigation farming and water harvesting • Establishment of certified Agroforestry nurseries • Encourage formation of marketing groups (SACCOs and Cooperative societies • Trainings on business management skills <p>Proper lighting of trading centres (installing solar lights and floodlights)</p>	<ul style="list-style-type: none"> • Provision of poultry farming infrastructure i.e. incubators • Soil sampling be done to establish the current soil nutrient need • Purchase of land for the construction of a stockyard in the ward.
Trade		
<ul style="list-style-type: none"> • Lack of Capital • High license rates for businesses • Lack of physical plan for trading centres • Lack of proper lighting in trading centres • Lack of public toilet • Lack of a dumpsite • Lack of market sheds • Non-functional security lights 	<ul style="list-style-type: none"> • Review of licensing rates • Provision of affordable credit 	<ul style="list-style-type: none"> • Construction of Market sheds at kola and kavandini trading centres • Physical planning of Kee and kavandini trading centres • Physical planning of Mutulani market • Installation of streetlights and floodlights at Ikalyoni trading centre • Installation of streetlights in Kivani trading centre • Construction of market toilet in Kivani market • Physical planning of Nguluni market • Construction of market shed, bodaboda shed and a public toilet in • Physical planning of Mwea old market, Matangi old market and kilolo market. • Address the encroachment of market land by traders
Water Access and Sanitation		
<ul style="list-style-type: none"> • Drying up of water sources • Recurrent Siltation of existing earth dams • Limited water supply • Unoperational water sources • Long distances to water sources • Vandalism of water projects • Poor implementation and management of 	<ul style="list-style-type: none"> • Provision of alternative water sources • Construction of check dams • Desilting earth dams • Distribution of available water sources • Promotion of green energy for distribution in water sources • Fencing of water projects to prevent 	<ul style="list-style-type: none"> • Desilting and distribution of Mbooni, Kayumba and Kikingo Earth dams. • Construction of kyambasa earth dam • Drilling and distribution of borehole at kwa-Nzila • Desiltation and expansion of kivaku earth dam • Solarization of kyandumbi borehole • Distribution of borehole Kitandi borehole

water projects	<p>vandalism</p> <ul style="list-style-type: none"> • Surveying of all water projects for acquisition of title deeds • Training of PMCs and PSCs. 	<ul style="list-style-type: none"> • Distribution of kilombo earth dam • Rehabilitation of mwea earth dam • Desilting of Nthonzweni Earth dam • Extension of Water pipeline from Mwitiko mega sand dam to kithuni area • Mini water treatment of Kiia Nzou Water project, Kivai Water project and kimwatho sand dam • Survey to get sustainable location for a borehole • Research on reasons for drying up of Kasunguni borehole • Construction of a mega dam at Kiia Nzou along Kaiti River. • Construction of a mega dam at kamanzi mbole river • Construction of farm ponds in Nguluni sub location • Distribution of kivai water to kimwatho • Distribution of kiia nzou water project to katumi hill for irrigation to all farmers. • Construction and distribution of kiia Nzou Mega dam to kimwatho, Nthonzweni, Kithukuli and Kithuni villages • Construction and distribution of kilombo earth dam to Kasunguni area • Construction of sand dams along kala River for irrigation purposes • Recruitment of market cleaners in all major markets in the ward • Purification and distribution of Ngiluni water to Kikameni. • Desilting of all existing earth dams. • Operationalization of Nduluni borehole. • Distribution of water from all the existing boreholes. • Survey to get a sustainable water location for Kasunguni borehole.
Social Sector (Health, Education)		
Health Services		
<ul style="list-style-type: none"> • Limited staffing in health centres • Inadequate drugs in health facilities • Lack of enhanced primary healthcare • Lack of laboratory in health facilities • inadequate training of CHVs • Health facilities not PWD friendly • Lack of ambulance in case of emergency • Inadequate land for expansion of health facilities • Low coverage of medical cover 	<ul style="list-style-type: none"> • Employment of adequate staff in health centres • Upgrading of health facilities • Adequate supply of drugs to health facilities • Enhanced primary healthcare • Construction of PWD friendly health facilities • Capacity building of CHVs • Acquisition of land for expansion • Adequate financing of health 	<ul style="list-style-type: none"> • Expansion of Kee health centre • Levelling and landscaping of Mutulani dispensary compound • Construction of staff quarters, laboratory and equipping at Kivani health centre • Construction of proposed Kitandi dispensary. • Upgrading of mangala dispensary • Equipping of Ngiluni dispensary with fully equipped laboratory services • Construction and equipping of laboratory at Kithuni dispensary • Electrification of Kasunguni dispensary

infrastructures		
Education		
<ul style="list-style-type: none"> • Limited ECDEs and CTTIs Infrastructure. • Shortage of marketable courses as per existing job market in CTTIs. • Lack of awareness on Value of CTTIs • Low enrolment in CTTIs • Limited staffing in CTTIs and ECDEs 	<ul style="list-style-type: none"> • Sensitization and training on value of CTTIs. • Equipping of adequate modern infrastructure to ECDEs and CTTIs • Adequate staffing in ECDEs and CTTIs. 	<ul style="list-style-type: none"> • Construction of a modern ECDE class at kyamwalye primary school • Construction of a fully equipped ECDE at Mutulani primary school. • Construction of a fully equipped ECDE class at Ikalyoni ECDE • Equipping of Mwea, Kee and Kyanduya CTTIs with adequate, modern equipment • Construction of a fully equipped ECDE at Kivai primary • Construction of a fully equipped ECDE at Kitandi primary • Construction of modern ECDE class at Nguluni primary school • Construction of boarding facility and more trades at Mwea CTTI • Construction of modern ECDE class at Kasunguni primary school • Levelling and fencing of Masaani primary school play ground
Infrastructure and Enablers		
Roads, Transport and Energy		
<ul style="list-style-type: none"> • Poor road networks • Lack of road surveys • Poor road drainage system along feeder roads • Unreliable power supply • Poor lighting in trading centres • High cost of electricity installation and maintenance • Low electricity connectivity 	<ul style="list-style-type: none"> • Routine Maintenance • of feeder roads • Road surveys to be carried out • Construction of proper drainage systems • Construction of road drainage systems along feeder roads • Installation of floodlights and solar lights in trading centres • Increment of transformers • Lobby for reliable power supply • Agro forestry and adoption of energy saving technologies 	<ul style="list-style-type: none"> • Construction of Kaiti vuthini bridge • Maintenance and murraming of Kivani –munyuni-kivaku road • Murraming of Ikalyoni-yongoni –kithukuli feeder road • Upgrading of Kivani-ikolovo-kivaku-ikalyoni-nunguni road • Upgrading of Kaiti-kwa Nyamasyo-kilia-Kee road • Upgrading of Kaiti –Nguluni feeder road through murraming • Murraming of Nguluni-Munyuni-Muusini road • Construction of drifts at Kwa kithuka-mutevu-Kikameni-Kwa kiilu road • Opening up of Nguluni-Matumbini-Kitandi feeder road • Construction of Kaiti Nguluni bridge • Opening of view point to Ngiluni feeder road • Opening of kwa Ndunda to kathanzi feeder road • Murraming of kilolo to magari road • Opening and murraming of kwa seve to beach and maviameu to kathanzi feeder roads • Opening up of kwa Julius loli-SDA Kimwatho-Kwa kasimu – Kee road • Heavy grading of Nthonzweni-Vuthini road • Spot murraming along Mbuini-Nthonzweni-Kithuni road • Construction of Kaiti –Vuthini bridge • Construction of slabs /drifts along Mbuini-Nthonzweni-Kithukuli-Kithuni road

		<ul style="list-style-type: none"> • Tarmacking of Kavandini to Kasunguni ICT road • Opening up of Kwa katwiwa, Kwa nyamasya, Kwa Kilonzo to Kwa Mwau watio feeder road. • Construction of drift at kwa ngisa/kwa Ngui Malinda • Rehabilitation of kwa kimani wa kou gulley • Maintenance and murraming of kavandini-kikingo-Mutulani-kwa ngesa road • Rural electrification • Streetlights and floodlights be installed in all major market centres in the ward.
Youth and sports		
<p>High rates of unemployment</p> <ul style="list-style-type: none"> • Drug abuse • Unlevelled sporting grounds • Lack of youth empowerment 	<ul style="list-style-type: none"> • Construction of Rehab centres • Creation of more job opportunities • Training on various Enterprises (Youth empowerment) • Levelling of sporting grounds • Law enforcement on drug abuse • Training of youths on AGPO 	<ul style="list-style-type: none"> • Registration of PWDs and provision of assistive devices • Construction of Rehabilitation centre • Youth empowerment through provision of equipment's e.g. stone cutting equipments, ballast crushing machines e.t.c

6. KILOME

6.1 MUKAA WARD

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade, Lands)		
Agriculture		
<ul style="list-style-type: none"> • Expensive farm Prolonged drought • Expensive farm inputs (seeds, fertilizer, pesticides) • Lack of horticultural support. • Pest and diseases • Expensive AI services 	<ul style="list-style-type: none"> • Promotion of irrigation. • Provision of drought resistance and traditional high value crops. • Issue of subsidized farm inputs to farmers • Promotion of horticultural farming • Farming insurance • Provision of extensive poultry farming programs. • Provision of subsidized AI services 	<ul style="list-style-type: none"> • Excavation and construction of at least one mega dam; kwevose earth dam for irrigation and fish stocking. • Construction of a mega dam along Usi unene and distribution of water to a high point for irrigation. • Construction of farm ponds at household level with provision of HDPE pond liners. • Support in ccooperatives development. • Provision of drought resistance and traditional high value seeds. • Provision of subsidized farm inputs (Seeds, fertilizers and pesticides) • Horticultural support programme and marketing for coffee farming, avocado farming and mango farming. • Facilitate insurance programs to farmers. • Poultry keeping program; issuance of chicks, extension services and pesticides. • Training of serious farmers to provide extension services • Provision of subsidized AI services • Construction livestock yard at upete.

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
		<ul style="list-style-type: none"> • Provision of subsidized dam liners. • Promote soil testing and farmer training.
Trade		
<ul style="list-style-type: none"> • Inadequate capital to start businesses • Poor infrastructure within market centres. 	<ul style="list-style-type: none"> • Provision of credit facilities to business people, farmers and interested groups. • Improved market infrastructure (market sheds and access roads) • Encourage controlled sand mining. • Establishment of atleast on open air market at the ward 	<ul style="list-style-type: none"> • Provision of credit facilities to business people, farmers and interested groups. • Construction of Maiani market shed • Completion of Uvete market shed. • Promote ballast mining and (issuing of mining mechanism -crusher).
Lands		
<ul style="list-style-type: none"> • Problem of accessing title deeds • Long processes in land succession. • Encroachment of public utilities 	<ul style="list-style-type: none"> • Facilitate survey and issuance of title deeds. • Physical planning of markets. • Carry out survey before commencements of any community project and designating boundaries, issuing of proper documentation 	<ul style="list-style-type: none"> • The government to assist households with disputed title deeds. • Establishment of land succession program. • Physical planning at Kiongwani, Kamuthini, Maiani, Enzai, Kilome, Mutiluni and Uvete markets. • Survey program in area with projects and proper documentation acquired.eg encroachment at Kyangolo sand dam.
Water Access		
<ul style="list-style-type: none"> • Inadequate water for drinking and domestic use. • Long distances to access potable water • Increased water contamination especially in earth dams 	<ul style="list-style-type: none"> • Expansion, purification (treatment plan), construction of water storage facilities and distribution of high capacity water projects. • Purification of boreholes with salty water. • Fencing of water projects. • Expansion of all earth dams and sand dams in Mukaa ward 	<ul style="list-style-type: none"> • Rehabilitation and de-silting of Kwevose earth dam, Kwa Ngo'ku earth dam, Kwa Muvai earth dam, Yumbuni sand dam, Kwa Ngao earth dam, Nganya earth damand Kyangolo sand dam. • Rehabilitation, de-silting, establishment of treatment plant and distribution of Kasyukoni earth dam to Kitaingo east, Kitaingo central and Kyandue clusters. • Distribution of water from Kamuthini borehole, kwa kakue borehole and Ianduini borehole, Uthini borehole, kitaingo borehole, Nzaini borehole. • Distribution of Mikusyo earthdam to kitonguni sec, Kitonguni Primary and kwa Kathendu Primary. • Hybrid solar installation for Mutiluni borehole, Kamuthini borehole and kwa kasilia (Kwa muulu) water projects. • Rain water harvesting technologies at house hold level. • Construction of kimuli and Kathasyu earth dams. • Rehabilitation of Mutiluni borehole, Masekini borehole, Mwanyani borehole and Kyandue borehole. • De-silting of sand dams at Kaketa river, installation of a treatment component and distribution. • Purification of Kamuthini borehole and Ianduini borehole and Masekini boreholes. • Purification of Kwa itune BH.

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
		<ul style="list-style-type: none"> • Fencing at Kwa Muvai Earth dam and other earth dams. • Excavate Kwa Musakwa and Kimia Earthdams • Drill boreholes at; Kamwelani, Mikaa, 11 Trees, Kitonguni, Maiani, Kwa mbomu, Ndaatai, Matumbini, Kwa Kou, Kitinene, Kimiloni, Kwa Kingele and Kwa Mwikya. • Desilt Makasya and Mavia Maiu dams • Construct sand dams at; Kwa Katete, Kwa Musakwa, Tunguni, Mbindu, Kaketa, Kwa Kala, Ingioni, Kwa Kyende, Mukunga, Kaembeni, Kwa Malelu, Kwa Kola and Kwa Longo.
Environment		
<ul style="list-style-type: none"> • Deforestation. • Increased soil erosion • Development of gullies. 	<ul style="list-style-type: none"> • Advocate for measures to control soil erosion through Sustainable Land Management program(SLM) 	<ul style="list-style-type: none"> • Rehabilitation of Ngongo valley. • Rehabilitation of Ikatai river through gabion construction and sand dams • Tree planting for individual households, in schools, markets, offices and at designated areas e.g. Kenze forest, Kiongwani hill and along arable land.
Sanitation		
<ul style="list-style-type: none"> • Lack of proper sanitation in markets (public Toilets). 	<ul style="list-style-type: none"> • Construction of a public toilet. 	<ul style="list-style-type: none"> • Construction of a public toilets at Kiongwani market and Maiani Market, Mutiluni market, kilome market, Kyangala market and Sakini market.
Social Sector (Health, Education, Social Protection)		
Health		
<ul style="list-style-type: none"> • Inadequate staff, medical equipment and infrastructure in most health facilities. • Increased chronic diseases. 	<ul style="list-style-type: none"> • Equipping and staffing at all health facilities in the ward. • Upgrading of health facilities through establishment of supportive structures/facilities • Avail disease, sensitization, screening, treatment and nutrition programs. 	<ul style="list-style-type: none"> • Equipping and staffing at Kamuthini dispensary, Enzai Dispensary, Mutiluni dispensary, Mbukuni dispensary and Uvete health center. • Training of more CHVs and introduction of a better payment scheme. • Provide ambulances at Upete Health center. • Building of staff quarters at Mbukuni and Mwalano dispensaries. • Upgrading of Uvete health centre to level 3. • Upgrading of Mutiluni and Enzai dispensaries into health centres. • Availing UHC registration to the nearest health facilities. • Availing of drugs for diabetic, arthritis, asthmatic and pressure patients to health facilities. • Mobile clinics programs for screening diseases like cancer. • Construction of Kwa Kenze Dispensary • Electrification of Mbukuni dispensary • Purchase an ambulance at Mutiluni Dispensary
Education		
<ul style="list-style-type: none"> • Inadequate ECDE staff. • Inadequate ECDE centres. • Lack of school feeding programs at the ECDE centres. • Inadequate learning and teaching 	<ul style="list-style-type: none"> • Construction of classroom. • Introduction of feeding program. • Employment of 2 ECDE teachers per school and equipping. • Upgrading of the available CTTIs in 	<ul style="list-style-type: none"> • Construction of ECDE classrooms at Kamuthini, Matiani, Mwanyambevo, Makanda, Kwa kamwengeo, Kiaeni, Kwa malelu and Mutiluni and Kwambotoe primary schools. • Construction of ECDE centres at kitaingo, kikongooni, kwa kiketi kwa kyambu, mbukuniand kyakitoo ecdes.

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
materials for the ECDEs <ul style="list-style-type: none"> • Low student enrollment at the CTTIs. • Inadequate courses offered at CTTIs. 	the ward. <ul style="list-style-type: none"> • Equipping, staffing and construction of necessary infrastructure within CTTIs. • 	<ul style="list-style-type: none"> • ECDE Feeding programme. • Staffing and equipping program for all ECDE centres. • Introduction of extra courses at Enzai CTTI and Kitaingo CTTI. • Increased bursary allocation for the needy students. • Construction of dormitories, workshops and toilets at Enzai and Kitaingo CTTIs. • Equipping and staffing at Enzai and Kitaingo CTTIs.
Social protection (Elderly, PWDs, OVCs and Youth)		
Elderly		
<ul style="list-style-type: none"> • Not able to adequately cater for their basic needs • Costly health care services 	<ul style="list-style-type: none"> • Elderly support programs • Facilitate registration of the elderly for cash transfer. • Establishment of homes for the elderly 	<ul style="list-style-type: none"> • Feasibility study for the establishment of rescue center/homes for the elderly • Special feeding programme for elderly. • Provision of Medical cover program for the elderly • Facilitate massive recruitment of the aged people to cash transfer programme.
• Orphan and Vulnerable Children (OVC)		
<ul style="list-style-type: none"> • Cannot afford proper health service due to cost • Cannot afford adequate basic needs • Mistreatment of the OVCs by immediate guardians 	<ul style="list-style-type: none"> • Orphaned and Vulnerable Children support program • Construction of a rescue centre for the orphans in the county 	<ul style="list-style-type: none"> • Sensitization programs on Rights of OVC. • Provision of special kit to support education for the OVCs • Construction of a rescue centre for the OVCs in the county
<ul style="list-style-type: none"> • PWDs support • Neglected by family members and the society • Have inadequate resources to purchase for assistive devices and cater for other basic needs 	<ul style="list-style-type: none"> • PWD empowerment programmes • Mapping of the PWDs • Provision of assistive devices 	<ul style="list-style-type: none"> • Medical cover for the PWDs • Provision of assistive devices • PWD fund to support PWD groups • Creation of a special program to have atleast one school per ward to cater for mentally impaired, deaf and dump students. • Establishment of disability friendly institutons eg CTTI for pwd to learn and get skills
Youth		
<ul style="list-style-type: none"> • Drug abuse among the youths • Unemployment • Unskilled youth 	<ul style="list-style-type: none"> • Youth empowerment programmes 	<ul style="list-style-type: none"> • Establishment of a youth fund for youth empowerment and talent development • Youth internship, attachment and apprenticeship in the county government • Establishment of a youth information centre at the sub county headquarters. • Levelling of Matiani, Uvete and Kamuthini playgrounds, • Fencing of Enzai playground, construction of a toilet, cementing of basketball court and changing rooms. • Programs on drug and substance abuse for the youth. • Creation of job opportunities through establishment of industries that can employ skilled and unskilled youths. • Youth empowerment through periodic engagement in income generating activities “Ajira kwa vijana” and issuance of tools of trade through Ujuzi teke

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
		teke programme. <ul style="list-style-type: none"> County Government liaison to Konza city for creation of employment Education and mentorship programs on effects of drug and substance abuse, early pregnancies and mental health
Infrastructure and Enablers		
<ul style="list-style-type: none"> Roads Encroachment to the road reserves Impassable roads Poor maintenance of existing roads. 	<ul style="list-style-type: none"> Surveying of all access roads to curb encroachment. Opening of more access roads. Proper routine maintenance of existing roads. Standardization of all roads as per the map. 	<ul style="list-style-type: none"> Need for murraming, culverts construction, proper drainage system for Kwa Muvai-Mwaani roads, Kiongwani – Kamuthini road. Opening of; Makanda- kwa matingi-ivingioni- kwa mbau road, Kwa clay-kwa mbuva- rose museo- malelu road and Kavilika –Dr mutio- Kwa walia – main road. Upgrading of Kauti- Kilome road (nthingu mwansangombe) and Kawata mbukuni road. Construction of a drift at kwa Ng’oku, Kwa Muvai, Tiva, Kwa Mwatuka, Kanini-kwa ngumu road, Mwanyani- kwa Sammy road and of kwambotoe and kaseke drift. Maintenance of Uvete to mukaa road, kiongwani-Maiiani road, Upete-kikongooni-Mwalano road and Mwanyani-Kyandue-mukaa road. Construction of Kanini Kaseo to Kwa Ngumu road. Devolution		
<ul style="list-style-type: none"> Inadequate office space for sub county and ward staff. 	<ul style="list-style-type: none"> Construction and equipping Sub county, ward and sub ward offices. 	<ul style="list-style-type: none"> Construction and equipping of sub county and ward offices.
Energy		
<ul style="list-style-type: none"> Inadequate electricity connectivity. challenge of high cost of electricity connection 	<ul style="list-style-type: none"> Rural electrification program. 	<ul style="list-style-type: none"> County government to facilitate electrification these villages; Mwasangombe, kitindii, malaba, kyunyu, Kavuti, kavila, katitu, Wenyeani, Makanda, Kanini kaseo, Ndaata, Vundu, Kaita, Iiani, Mbotoe, thakasyu, Kathiiani, Uomboni, Kitonguni, Kilombo, lutherland, Mwenyeani, Kombuni, Mbiuki, Kenze, Kiunduani and Musamyoni..
Key Cross-Ward/Sub County Project/Intervention		

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
a. Tarmacking of Kasikeu- Upete- Kilome to Road. b. Extension of tarmacking of Salama – Nunguni – Kikoko road from precious blood Kilungu- Kavatanzou – Kyuasini- Ukia junction. c. Construction of a sand dam, treatment and distribution of the water for Kaketa river to Mukaa and Kilungu. d. Establishment of a fertilizer warehouse/depot in Kilome sub county.		

6.2 KASIKEU WARD

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention/
Community Livelihood/Economic Empowerment (Agriculture, Trade, Lands)		
Agriculture		
<ul style="list-style-type: none"> Expensive farm inputs such as pesticides, fertilizers, seeds and manure Recurrent drought and overreliance on rain fed agriculture. Inadequate/Unreliable rainfall. Lack of ready market for agricultural produce. Pest and disease Inadequate knowledge in farming. Late disbursement of seeds by county government. Wildlife threats. Expensive AI services 	<ul style="list-style-type: none"> Promotion of irrigation. Enhance access to loans for the farmers. Intensified extension services Soil sampling and testing services Early distribution of certified seeds to avoid late planting. Establishment of modern storage facilities to avoid post-harvest losses. Provision of drought resistant crops. Provision of subsidized farm inputs Deployment of professionals to help farmers on artificial- insemination to improve on cattle breeds for better yield. Compensation plan for the crops destroyed by wildlife 	<ul style="list-style-type: none"> Operationalization of Kwothithu milling plant. Construction of mega dam at Kawese along Kima River for irrigation Distribution of Mikuyu 2 water project for irrigation Extension of Muangini Water Project for irrigation Installation of solar power and distribution of Kyakivandi water project for irrigation Provision of timely and adequate farm inputs (seeds, pesticides, fertilizer and manure) Construction of a sump tank, solar power installation at Kwa lingata and distribute water for irrigation Intensified extension services Construction, equipping and operationalization of a cold room at Kasikeu. Enhancement and distribution of Witikaa water projects for irrigation Provision of subsidized Artificial Insemination services Enhanced access of credit facilities to farmers. Construction of cattle crush at Masokani
Trade		
<ul style="list-style-type: none"> Lack of ready market for the agricultural produce. Unconducive trading environment High license fee of business permits. Non-operational market shed. Exploitive prices for farm produce e.g. Mangoes Inadequate capital to start business 	<ul style="list-style-type: none"> Enhanced conducive trading environment for the local traders through construction of market sheds, public toilets and livestock yards Facilitate structured and organized marketing of farm produce Enhance value addition and product diversification. Enhanced access to credit facilities for the traders Enhanced market linkages Enhance customer protection 	<ul style="list-style-type: none"> Completion of Sultan Hamud open air market, cabro paving of the open field and fencing. Expansion and enhancement of Kasikeu market shed with solar power installation and a water tank. Construction of mini market sheds at Mumela, Mbiini, Mbyani, Kitivo, kima, kiongwani stage, Kayata, Kitheini and Ngokomi markets Construction of market toilets at Mbiini, kima market Construction of Jua kali stores at Sultan Hamud Tools of trade for the youth “Ujuzi teke teke” Issuance of business loans to individuals and the organized business groups Construction of livestock yard at Kima market.
Lands		

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention/
<ul style="list-style-type: none"> • Lack of title deeds. • Costly land succession processes. • Long process to access title deeds. • Encroachment of public utilities • Planning of markets not done to all markets • Grabbing of public land • Increased land cartels and double land ownership documents 	<ul style="list-style-type: none"> • Facilitate land registration and issuance of title deeds. • Facilitate land and property valuation services & administration. • Sensitize communities on land succession process • Facilitate proper planning of the markets • Proper land document verification. 	<ul style="list-style-type: none"> • Finalization of the planning of Sultan Hamud open air market. • Implementation of Kasikeu market plan • Survey and beaconing of the encroached feeder roads in Kasikeu wards • Facilitate survey and titling of agricultural land • Survey and beaconing of public land and areas with county projects.
Water Access		
<ul style="list-style-type: none"> • Insufficient water for drinking and domestic use • Recurrent siltation of earth dams. • Long distances to access potable water • Unregulated market prices of water. • Vandalism of water projects. 	<ul style="list-style-type: none"> • Construction of mega dams with treatment and distribution components • Distribution of water from the existing high capacity water projects • Establish water purification systems to ensure access to clean and safe water. • Fencing of earth dams to avoid water contamination • Provision of affordable water. • Proper legislation to control vandalism. • Installation of high capacity water storage facilities. • Reviving of non-functional water projects 	<ul style="list-style-type: none"> • Construction of a sump tank, sand dam near kayata borehole, a storage tank at Kiiro hill and distribution to Isika. • Kithina borehole solar power installation and distribution to Mitamboni, Kiiro village, Kithina village, Kithina primary, Ngooni village, Nduluni borehole and Mwanyani village. • Distribution of Lumu borehole to Kasioni and Kiou top with installation of a booster pump • Distribution of Kitumbini borehole to Ivala village and electric power connection. • Rehabilitation of Sultan Hamud borehole and distribution to sultan sub county hospital, sultan secondary school, sultan primary school and solar power installation. • Distribution of Kawese borehole to Kandolo village, Kalimbini village, Kalima village and Ngokomi village. • Expansion and fencing of chief Kiamba earth dam • Construction of a massive tank at Sultan Hamud town for storing water from Nolturesh. • Distribution of Kaluku water project • Distribution of Kwa Muindi borehole to Masokani dispensary, secondary, Masokani market and to Masokani, Ndutoni, Mwanyani and Kilindiloni villages. • Distribution of Kivauwe springs to Kitulu, Muthwani, Muangini primary, Muangini secondary and Muangini market. • Construction of a sand dam at Kwa Kilavi along Ngokomi river • Construction of a sand dam at Kwa Ngole river • Construction of gabion and desilting of Kwa Mathuku earth dam. • Distribution of Kitumbini water project to Ivala village and electricity back

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention/
		<ul style="list-style-type: none"> up. • Extension of Kitheini borehole water project • Construction of Mola earth dam • Boreholes at Nguuni, kwa Ndolo and Mumela. • Distribution of Muatineni borehole. • Desilting of Mboloti earth dam
Environment		
<ul style="list-style-type: none"> • Deforestation. • Increased soil erosion • Development of gullies. • Lack of proper dumping site and drainage system leading to contamination of rivers. 	<ul style="list-style-type: none"> • Ensure sustainability measures in water resource management and environmental protection. • Sustainably manage forests, combat desertification, halt and reverse land degradation. • Initiation of greening programs by providing tree seedlings. • Proper sensitization on soil conservation to citizens. • County government to establish dumping sites and drainage system. • Ensure controlled sand harvesting • Gabion and sand dam construction along rivers. 	<ul style="list-style-type: none"> • Sand dam construction at Kwa Ngelesi in Kima river • Planting of trees at Kalembwani Hill. • Construction of sanddams and gabions along Kima river and Kwa Mathuku river. • Initiate greening programs and tree nursery establishment. Seedlings can include fruit trees which have economic value and croton which have an upcoming industry at kwa Kathoka for processing oil. • Afforestation to be done in all riparian land. • Provision of tree seedling for household levels and institutions
Sanitation		
<ul style="list-style-type: none"> • Incomplete sewerage system in Sultan Hamud town • Lack of a dumping sites. • Lack of drainage systems in major markets 	<ul style="list-style-type: none"> • Establishment of proper drainage and sewerage units. • Establishment of proper dumping sites. 	<ul style="list-style-type: none"> • Establishment of a dumping site and drainage system for Kasikeu market. • Rehabilitation of Sewerage unit at Sultan hamud town. • Establishment of dumping sites in all trading centres in the ward
Social Sector (Health, Education, Social Protection)		
Health		
<ul style="list-style-type: none"> • Shortage of drug supply in health facilities • Inadequate health staffs. • Inadequate health infrastructure • Inadequate health care services • Grabbing of land in health facilities. • Increased chronic diseases which are not treatable within the sub county. 	<ul style="list-style-type: none"> • Upgrading of the existing health facilities through equipping, construction of supportive facilities and staffing to provide better services. • Frequent supply of drugs to health facilities • Water supply to health facilities. • Electric power connection to health facilities. • Occasional chronic disease screening. 	<ul style="list-style-type: none"> • Upgrading of Sultan Hamud hospital; renovation of the outpatient block, establishment of emergency block, renovation of the roof/ replacement of the asbestos, construction and equipping of a maternity wing and equipping of the mortuary. • Renovation, equipping and fencing of Kwale dispensary. • Completion of staff quarters at Mbiini dispensary i.e. septic tank. Connection to electricity, gutters and staff toilets, fencing, maternity and laboratory construction. • Recruitment of adequate health staff at Sultan Hamud hospital. • Equipping mortuary unit at Sultan Hamud hospital.

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention/
	<ul style="list-style-type: none"> Establishment of mobile clinics programs. 	<ul style="list-style-type: none"> Construction of new maternity, male and children wards at Sultan hamud hospital. Equipping and staffing at Lumu dispensary. Equipping of Kasikeu dispensary and renovation of the maternity. Fencing, equipping and construction of a laboratory and a staffhouse at Masokani dispensary Fencing, equipping and construction of a laboratory at Nduluni dispensary Fencing, equipping of the laboratory, staff house construction, ceiling and tiling of Ngalana dispensary. Supply of drugs for chronic diseases such as diabetes, pressure, poisoning, antirabies Construction of a maternity wing, staff quarters and fencing at Lumu dispensary
Education		
<ul style="list-style-type: none"> Inadequate ECDE staff. Inadequate ECDE centres. Lack of school feeding programs at the ECDE centres. Inadequate learning and teaching materials for the ECDEs Low student enrollment at the CTTIs. Lack of some courses at the CTTIs. 	<ul style="list-style-type: none"> Construction and equipping of ECDE centers. Recruitment of enough ECDE and CTTI personnel. Establishment of feeding programs at the ECDE centers. Provision of adequate and quality teaching and learning materials for the ECDEs. Equipping and construction of more workshops and hostels in the existing CTTIs. Introduction of more courses in the CTTIs. Provision of bursary funds to CTTI students. 	<ul style="list-style-type: none"> Construction of a model ECDE centre at Sultan Hamud primary Construction of ECDE classes at Kwa-mbeu, Mbiini, Kwale, Kwa-katia, Kitumbini, Kawese, Mumela, Masokani, Kithina, Kitivo, Nduluni, Kwa Kalelo and Mutweambo primary Primary schools. Construction pit latrines at Mbyani ECDE Upgrading of the Kitumbini CTTI through equipping and construction of dormitories. Bursary allocations for the needy CTTI students.
Social protection (Elderly, PWDs, OVCs and Youth)		
Elderly

		<ul style="list-style-type: none"> • Grading murraming, drainage works of Kawese-Kalimbini-Lumu-Enguli-Kaskeu market road. • Grading murraming, drainage works SGR-Kawese river-Katinila-Lumu stage. • Grading murraming, drainage works of Mutweambo – kalimbini road. • Completion of drainage system at Sultan Hamud. • Opening of AIC Kanaani to Kawese, gabions at Kaluku region due to gulleys. • Maintenance of Muatineni – Kyunguni – Mangoka – Kyatu – Mweeku – muani; Mbyani – Masokani – Kathii; and Masokani ukeani kitivo roads
ICT		
<ul style="list-style-type: none"> • Inadequate access to ICT services 	<ul style="list-style-type: none"> • Enhance increased access of ICT services • Employment of more ICT trainers 	<ul style="list-style-type: none"> • Establishment of a Computer training centre at Sultan Hamud
Infrastructure		
<ul style="list-style-type: none"> • Inadequate office space for sub county and ward staff. 	<ul style="list-style-type: none"> • Construction and equipping Subward, Ward and Sub county offices 	<ul style="list-style-type: none"> • Construction and equipping of sub county and ward offices.
Energy		
<ul style="list-style-type: none"> • Electricity connectivity not fully done. • challenge of high cost of electricity connection 	<ul style="list-style-type: none"> • Provision of flood lights in all cluster markets. • Partner with the National Government to ensure easy access to affordable electric connection. 	<ul style="list-style-type: none"> • Installation of floodlights at Ngokomi market, Muani market, Kayata market, Kiongwani stage, sultan hospital, series of street floodlights at sultan hamud town. • Highmast floodlight at Mbiini market.
Key Cross-Ward/Sub County Project/Intervention		
a. Upgrading of Sultan Hamud sub county hospital b. Upgrading of Kasikeu- Kayata- Upete- Kilome road to bitumen		

6.3 KIIMA KIU KALANZONI WARD

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
Community Livelihood/Economic Empowerment (Agriculture, Trade, Lands)		
Agriculture		
<ul style="list-style-type: none"> • Prolonged Drought and inadequate water for irrigation • Inadequate rainfall • Pest and disease • Inadequate capital for farm inputs • Inadequate knowledge in farming • Market of farm produce • Inadequate pasture for the livestock • Outbreak of livestock diseases • Inadequate storage facilities 	<ul style="list-style-type: none"> • Promotion of irrigation • Provision of farm inputs (Fertilizer, pesticides, seed and manure) • Intensified extension services • Provision and linkage to markets for the farm produce • Establishment of livestock yard. • Value addition of agricultural products to increase prices • Restocking of fish in dams • Livestock disease control and surveillance 	<ul style="list-style-type: none"> • Expansion of Katilini earth dam with irrigation components • Construction of Kwakitaka sand dam at Mutumunyani river with sump tank, distribution and irrigation components • Expansion, de-silting and distribution of makulani earth dams for agriculture • Completion and distribution of Kilombo earth dam for irrigation. • Provision of farm inputs (Fertilizer, pesticides, seed and manure) • Intensified extension services • Feasibility study and construction of stockyard at Kaangi, Katilini market and Malili market. • Construction of aggregation centre at Makuti

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
<ul style="list-style-type: none"> • Destruction of crops and death of livestock caused by wild animals 	<ul style="list-style-type: none"> • Pasture development • Provision of drought tolerant crops. 	<ul style="list-style-type: none"> • Provision of subsidized AI Services • Feasibility study and construction of Sand dams for irrigation – along Ikolya river, Kasunguni river, Wekuyu river, Kasunguni river, Kawese river. • Fish restocking in dams. • Provision of farm mechanization services. • Renovation of dormant cattle dips; Mathunzuni, Kamaku, Kaluli, Kwa Kyenze, Mulela, Ndolo cattle dips • Provision of pasture seed • Farm ponds construction at household levels • Wildlife management to prevents destruction of crop and killing of livestock • Reviving of Mavivye stores cooperative • Soil sampling and testing • Reviving of Mavivye stores cooperative. • Construct cattle dips at Kwa Kaiti, Kwa Kyenze and Muthunzuni
Trade		
<ul style="list-style-type: none"> • Many and expensive licences. • Inadequate market services – cleaning, garbage collection, toilet services, and water. • Inadequate market infrastructures 	<ul style="list-style-type: none"> • Amalgamation of licenses and modelling rates per location • Provision of market services – cleaning, garbage collection, toilet services, and water. • Construction of market sheds and stalls in major markets 	<ul style="list-style-type: none"> • Construction of an open air market with stalls at Malili market • Construction of public toilets at kalanzoni, Ngiini and mbondoni, Katilini, Kiu, and Kaluli markets. • Provision of business loans to individuals and groups in business. • Provision and linkage to market for farm inputs and other products • Provision of tools of trade to the youth
Land		
<ul style="list-style-type: none"> • Encroachment and grabbing of public land • Delay in succession and issuance of title deed • Land succession process very costly • Most of the markets have not been planned. 	<ul style="list-style-type: none"> • Surveying and beaconing of public land • Surveying and beaconing of all feeder roads • Provision of title deeds and succession services • Planning of all major markets 	<ul style="list-style-type: none"> • Surveying and beaconing of public land and in areas with all county project • Surveying and beaconing of all feeder roads • Provision of title deeds and succession services • Market planning; space, amenities & services, and operation days for Masaa, Ngaamba, Mawani, Marwa, Nzeveni, & Kima stage markets • Completion of the planning of Malili market, reclaiming of grabbed land and titling • Physical planning at Mavivye, Ngiini and Kiimakiu markets. • Realignment of political and administration boundaries for Kalanzoni sub location. • Reclaiming of grabbed Tangu public land • Survey of grabbed public school land: malili township
Water Access		

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
<ul style="list-style-type: none"> • Long distance to water sources • Inadequate safe water for drinking and domestic use • Silted earth dams. • Governance issues in water projects. 	<ul style="list-style-type: none"> • Distribution of water from the existing water sources • Expansion and de-silting and treatment of the existing earth dams • Establishment of new water projects • Construction of mega dams with distribution and treatment plants • Construction medium sized earth dams • Sensitization on water conservation to address the risk of water contamination • Solarisation of diesel powered boreholes. • Enhancing water governance laws and policies. • Exhaustive distribution of boreholes with high yield. • Conducting periodic quality assurance of water. • Rehabilitation of non-functional water projects 	<ul style="list-style-type: none"> • Further distribution of Ulu 3 borehole, construction of a high capacity storage tank mlima kiu hill /Kwa Kiumi and distribute water to Malili, Salama and Mavivye. • Feasibility study, expansion, construction of check dams, massive storage tank, treatment plant and distribution of Katilini earth dam. • Exhaustive distribution of Kaseve borehole, construction of a tank at Obadiah high point, distribute water by gravity to Malua, Itumbule • Distribution of water from Kwa Mailu and Kwa Kilungu boreholes. • Desilting of Nduluni, Kwa miui, Katingi, Kwa kakulu, Kwa Kaveki, Kathaayoni, Ikaasu, Kwa loa, kwa Ilela, Marwa, Masungu, Makueni, Makulani, Kwa Ndeke, Matinga earth dams • Excavation of an inlet and expansion of Silanga mbuu earth dam • Deepening of Kamasai bore hole. • Rehabilitation of Itumbule, Ikambuani, Marwa, and Kwa Nzivu boreholes. kwa kisungi, kabeni, ngota boreholes. • Distillation of existing earthdams programme like Uvevoni, Kwa Ngota, Kwa Mwikya, kwa Muluku, Kasalama, kwa mwenze, kwa muthenya, kwa matolo, kwa ng'aa, Ndemi, Mti moja earthdams. kwa atumia, Kyunguni, kwa simba, masaani, masue, makulani, kwa mwatu Musengoni earthdams • Desilting, gabions to the streams and repair of cut offs for the following Earth Dams; Kwa Loa, D4, Kwa Makaa, Kwa Katatu, Kwa Nditu, Kwe iswii, Kwa Kou, Kwa syuiswi, Kwa kiketi, Kwa Mukoko, Kwa Munyu, Kwa Kisule, Kwa Kavali, Kwa Mutiso. • Test pumping and equipping of capped boreholes namely kwa kola, kwa kavesa, usemeini, kya kivaa, kwa atumia and kwa kinyamasyo done under the colonial government. • sand dams for construction namely masaani, kwa mutunguma, kwa nthiwa, kwa kavesa and kwa mbulu. • Electrification of Mbondoni borehole • Distribution of Kasalama borehole water to malili cluster, Kwa Kea primary & malili township primary school. • Distribute high yield boreholes for irrigation; Kaseve, Kwa Mailu boreholes • Drilling of new boreholes in the ward: Survey, drilling, test pumping and equipping of the following Itumbule, Kwa loa, Kwa wala boreholes • Construction of Kya kima earth dam which is on a 20-acre piece

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
		<ul style="list-style-type: none"> of land • Rising of embankment of Uvevoni earth dam. • Construct earthen dams in- Katilini, Mulela, Kwa Miti, Makuuni, Musikiti, Number 7, Kwa Katilo, Kwa Ndeleva, Kwa Kalendu, Kwa Ngulo, Kwa Kamii, Kikongooni, Kwa Imaa, Kya Muumba, Kwa Pembe, Kwa Makumu, Kwa Ngulu, Kwa Kakenga, Moramini, Nzukini, Kikonduni, Kithata, Kwa Nduva, Kwa Ndeke, Mbulu and Kwa mungui • Drill boreholes at Kwa nduva, ndemi, ABC Kyakivaa, Borehole No. 7. • Desilting of all dried up dams.
Environment		
<ul style="list-style-type: none"> • Cultivation along the river banks and near earth dam slopes • Deforestation 	<ul style="list-style-type: none"> • Enforcement of the environmental laws as provided by NEMA • Provision of seedlings for afforestation. • Gazetting of riparian lands. • Enhancing soil and water conservation extension services. • Climate change awareness 	<ul style="list-style-type: none"> • Sensitization programme for the community on effects of farming along the river banks • Enforcement of the environmental laws as provided by NEMA for the conservation of the riparian land • Provision of tree seedling for planting at institutions and household level • Enhancing soil and water conservation extension services. • Sensitization programme on climate change effects to build resilience, mitigate and adapt to the climate changes.
Social Sector (Health, Education, Social Protection)		
Health Services		
<ul style="list-style-type: none"> • Laboratory services not provided in most of the facilities • Inadequate supply of drugs in the health facilities • Inadequate staff/ lack of residence nurse in health facilities • High cost of health services 	<ul style="list-style-type: none"> • Provision of laboratory services • Adequate supply of drugs • Construction of staff houses in health facilities to house the nurses • Upgrading existing health facilities • Fencing all existing health facility to enhance security • Government subsidy on health matters • Recruitment of adequate health staff 	<ul style="list-style-type: none"> • Construction of a laboratory, staff house and equipping of the lab at Kiima kiu dispensary • Upgrading Kavuko Dispensary; Equipping and fencing of Kavuko dispensary. • Provision of a ward ambulance to be stationed at Malili dispensary. • Completion of the fence, construction of a staff houses, water connection, equipping of the laboratory and staffing. • Fencing, staff house construction, septic tank, ceiling and tiling of Kaluli dispensary. • Construction of a staff house at Kalanzoni dispensary, electric power connection, ceiling and tiling. • Equipping of Ngiini dispensary, ceiling repair and fencing. • Upgrading of Malili dispensary; fencing and gate, construction and equipping of a maternity wing, construction of a staff house and water supply. • Solar power installation at Mavivye dispensary, gate installation

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
		<ul style="list-style-type: none"> and equipping of the maternity wing. • Staffing and equipping of the Ulu refurbished container for health services. • Construction of Ulu Dispensary. • Rename Malili Dispensary to Kwa DC dispensary
Education		
<ul style="list-style-type: none"> • Inadequate ECDE infrastructure • Inadequate ECDE staff • lack of school feeding programs • Inadequate play equipment. • Inadequate skills among the youth- • Low enrolment to the CTTIs • Increased secondary and college fees 	<ul style="list-style-type: none"> • ECDE infrastructural development • CTTI infrastructural development and staffing • Recruitment of enough ECDE Personnel. • Establishment of feeding programs. • Provision adequate and quality ECDE T/L resources • Bursary and scholarship programs for the needy students 	<ul style="list-style-type: none"> • Construction of ECDE classrooms at Kwaeka, Kwamiui, Kiima kiu primary, Kathungu and Ilawani primary • Provision of bursaries to the needy students • Fencing of Kiusini ECDE • Construction and equipping Kwawala ECDE Centre. • Construction of Kwa Ndeke ECDE • Construct ECDE classes at Mung'ala primary, Mawani primary, Kavuko and Nzeveni primary. • Construction of extra ECDE class at Kwa Ngumu Primary and Mulumini Primary. • Upgrading of Marwa CTTI; Construction of male and female hostels, workshops, fencing of the CTTI, staffing and introduction of more courses. • Construction of ECDE classes at Kasalama, Ndemiu and Kautandini. • Increased bursary allocation for the needy students • Construction of ECDE at malili primary, mbondoni pri, ikongooni, kalanzoni and kwa atumia (Need to first settle boundary issues as the teachers report to Machakos) • Construction of ECDE class in Kea Primary School • Construction of facilities for children with special needs in Malili town,
Social protection (Elderly, PWDs, OVCs and Youth)		
Elderly		
<ul style="list-style-type: none"> • Neglected • face hunger • lack of proper medication • Inadequate cash transfer 	<ul style="list-style-type: none"> • Facilitate registration of the elderly for cash transfer. • Establishment of homes for the elderly 	<ul style="list-style-type: none"> • Feasibility study for the establishment of rescue center/homes for the elderly • Special feeding programmes for elderly. • Provision of Medical cover program for the elderly • Massive recruitment of the aged people to cash transfer programme.
Orphan and Vulnerable Children (OVC)		
<ul style="list-style-type: none"> • Cannot afford proper health service due to cost • Cannot afford adequate basic 	<ul style="list-style-type: none"> • Orphaned and Vulnerable Children support program • Construction of a rescue centre for the orphans in 	<ul style="list-style-type: none"> • Sensitization programs on Rights of OVC. • Provision of special kit to support education for the OVCs • Construction of a rescue centre in the county

Key Issues/Challenges	Proposed Priority Interventions	Key Ward Flagship Intervention
needs • Mistreatment of the OVCs by immediate guardians	the county	
PWDs Support		
<ul style="list-style-type: none"> • Neglected by family members and the society • Have inadequate resources to purchase for assistive devices and cater for other basic needs 	<ul style="list-style-type: none"> • PWD empowerment programmes 	<ul style="list-style-type: none"> • Construct and operationalize home for the elderly and PWDs. • Medical cover for the PWDs
Youth		
<ul style="list-style-type: none"> • Drug abuse among the youths • Unemployment • Unskilled youth 	<ul style="list-style-type: none"> • Youth empowerment programmes 	<ul style="list-style-type: none"> • Establishment of a youth fund for youth empowerment and talent development • Youth internship, attachment and apprenticeship in the county government • Establishment of a youth information centre at the sub county headquarters. • Setting up of sports academy to nurture talents at Kithata • Creation of job opportunities through establishment of industries that can employ skilled and unskilled youths. • Youth empowerment through periodic engagement in income generating activities “Ajira kwa vijana” and issuance of tools of trade through Ujuzi teke teke programme.
Infrastructure and Enablers		
Roads		
<ul style="list-style-type: none"> • Encroachment on roads • Impassable roads • Poor maintenance of existing roads 	<ul style="list-style-type: none"> • Surveying and beaconing of all feeder roads maintenance • Routine road improvement and maintenance • Opening up of more access roads. 	<ul style="list-style-type: none"> • Grading, Murraming and drainage works of Kwa Kingee-Kavuko- Kwa Muvai- Kima road- Marwa Junction- Masaa-Ngaamba centre- Kithia- Kiu- Ndalani- Kaluli- Kamaku—Ulu 3-Ndemiu- Malili- Kalanzoni- Kivandini- Yaitha road • Grading, construction of drainage structures and murraming of Kwa kavithi-Katingi-Mwanyani- Maiani road • Grading, construction of drainage structures and murraming Eng. Muli- Kwa kaveki- Mulumini road • Grading of Off Mombasa Road-Doctor Mutio – mama road • Construction of Mung’ala-Ngaamba access road to Kiu road. • Construction of the following drifts: <ul style="list-style-type: none"> • Kwa Kilungu, Kasunguni, Marwa soko, Kwa Yoma, Kwa Munyithya, Kaangi, Kyunguni, Kwa Mbondo, Itumbule dispensary drifts. • Grading, murraming and drainage works for Nyumba Ndune-Wea-Kalul, Kautandini-Ulu Road, Ack-Mambiti-Kithaata-
