1.6 FY 2024/25 Supplementary Budget (2) Estimates Revenue and Expenditure Performance Upto 31st March 2025

a) Departmental Allocations

The Department of Health Services received the largest budget allocation of Kshs 4,247,538,006, accounting for 34.6 per cent of the total County Revenues. The Department of ICT, Education and Internship had the second-highest allocation of Kshs 1,118,838,148, representing 9.9 per cent of the total budget. In contrast, the County Attorney had the smallest allocation of KShs 47,740,335. These allocations align with the County priorities outlined in the CIDP III. The significant allocation to Health Services is mainly due to factors such as a large workforce, a recurrent budget for running health facilities, procurement of medical commodities (including drugs), recognition of Health AIA, as well as funding from donors for various health programs and infrastructure improvements.

7.0 DEPARTMENT OF HEALTH SERVICES

7.1 Department's Vision & Mission

Vision

A healthy and productive county with high quality of life.

Mission

To build a progressive, responsive and sustainable healthcare system through provision of Evidence-based quality services to Makueni residents.

7.2 Performance Overview and Background for Programme(s) Funding;

During the FY 2024/25, the sector has embarked on automation of health services for enhanced accountability and transparency in health products and technologies. This was done through the acquisition of digital health commodities management systems which is being piloted in 13 health facilities. The sector is also establishing end-to-end automation of health services through the County Integrated Health Management Information System (CIHMIS). The system is made for tracking health products, revenue and patient management. On infrastructure development, the sector constructed 3 new health facilities and upgraded and equipped health facilities to offer comprehensive healthcare services. In curative services, the average length of stay reduced from 5.4 days to 4.5 days while the death rate also reduced from 11% to 9.6%. This was attributed to enhanced mortality audits and improved referral systems. Laboratory services improved with 50% of health facilities having sample referral networks and 65% of laboratories enrolled in external quality assurance schemes. The drug fill rate during the period under review was an average 65%.

During the period, the department conducted eight trainings and ninety-two MSMEs participated on basic business management skills such as book keeping, marketing strategies, business finance and value addition of products. Additionally, the department managed to verify 2538 equipment and collected a revenue of KShs. 333,960 during the exercise.

In FY 2024/25, Immunization coverage improved to 100 percent, and the proportion of laboratories with sample referral networks rose to 65 percent, driven by increased follow-ups, health education, procurement of additional cold chain equipment, and the establishment of new immunization sites. Maternal health also saw progress, with 69 percent of pregnant women attending at least four antenatal care (ANC) visits, 96 percent of ANC mothers receiving Iron and Folic Acid Supplementation (IFAS), and 82 percent of children aged 6 to 59 months receiving vitamin A supplements, contributing to improved community nutrition. The sector also drafted a Nutrition and Food Security Policy, which, once approved, is expected to enhance county nutrition efforts and attract funding from development partners. In preventive and promotive healthcare, the department conducted 16 medical outreach campaigns and an eye cataract surgery camp that treated over 200 patients. Additionally, two medical and surgical camps were held, benefiting over 6,000 patients, with more than 100 receiving corrective surgeries

Expenditure Trends

In FY 2023/24, the sector recorded an expenditure of KShs. 3,158,479,120 against a budget of KShs. 3,804,087,746 representing an absorption rate of 83 percent which was a drop of 9 percent compared to FY 2022/23.

10.0 DEPARTMENT OF AGRICULTURE, LIVESTOCK, FISHERIES AND COOPERATIVE DEVELOPMENT

10.1 Department's Vision and Mission

Vision

A food secure, healthy and wealthy county for sustainable socio-economic development

Mission

To improve the livelihoods of the Makueni citizens through sustainable management of crop and livestock resources and prudent management of co-operatives.

Sector goal

To attain food and nutrition security, and increased household income and strengthen the cooperative movement

10.2 Performance Overview and Background for Programme(s) Funding

Agriculture is one of the driver of economic growth accounting for 22.4 percent of the country's Gross Domestic Product (GDP) (Economic Survey 2022). Agriculture is the driver of the county's economy with 78 percent of the households involved in agriculture and agriculture related activities. The sector contributes 29.5 percent of the total Gross County Product (GCP) based on the KNBS Gross County Product Report 2021. The sector priorities and interventions were geared towards achieving the county's long-term goal of increasing households' income and establishing a food-secure county.

Table 11: Agriculture Department Expenditure Trends, 2021/22-2023/24

| | FY 2021/22 | FY 2022/23 | FY 2023/24 |
|-----------------|------------|------------|---------------|
| Budget | 1,015.7 | 1046.3 | 1,001,427,385 |
| Expenditure | 551.8 | 963.9 | 636,068,386 |
| Absorption rate | 54% | 92% | 64% |

The total expenditure for the FY 2023/24 was KShs. 635,872,446 which translated to an absorption rate of 63 percent against a budget of KShs. 1,001,427,385. This was attributed to efficiency and timely implementation of programmes and projects. Nonetheless, conditional additional Allocation amounting to Ksh. 247,390,356 (Ksh. 162,562,856 for Conditional Grant for Provision of Fertilizer Subsidy Programme, 63,341,980 for De-Risking and Value Enhancement (DRIVE) project, Ksh. 21,485,520 for Livestock Value Chain Support Project) was not disbursed to the county government since the activities were coordinated by the National Government. The budget absorption for recurrent and development for the period under review was 86 and 54 percent respectively.

Department of Agriculture Major Achievements FY 2023/24

In the financial year 2023/24, the County Department of Agriculture various programs aimed at enhancing agricultural productivity, food security, and livelihoods across the county. The department's efforts were structured across various programmes and sub-programmes, each tailored to address specific challenges and opportunities in the agricultural sector. These included:

a) The sector of Agriculture's expenditure trend shows fluctuating budget absorption rates over the past three financial years. After a low absorption rate of 54 percent in

FY 2021/22, there was a significant improvement to 93 percent in FY 2022/23, indicating efficiency in budget execution. The absorption rate dropped to 63 percent in FY 2023/24. The decline is attributed to the non-disbursement of a conditional additional allocation totalling KShs. 247,390,356. This included KShs. 162,562,856 for the Fertilizer Subsidy Programme, KShs. 63,341,980 for the De-Risking and Value Enhancement (DRIVE) project and KShs. 21,485,520 for the Livestock Value Chain Support Project. These funds were not released to the county government thus directly affecting the department's overall absorption rate.

- **b)** During the FY 2023/24, the government accelerated efforts in enhancing food and nutrition security through the sustainable management of crop and livestock resources and the prudent management of cooperatives. The sector had significant achievements within the programmes and projects implemented.
- c) Crop Development & Productivity: Efforts to increase production and productivity was enhanced through distribution of 48,478 metric tonnes of certified seeds to 24,239 beneficiaries. The initiative led to the production of 2,193.6 Metric Tons (MT) of cereal grains. The total value of this produce at farm gate prices was KShs 171,443,000, significantly increasing household incomes. To enhance fruit production and reduce cost of production, the government provided fruit seedlings to farmers.
- **d)** Livestock Resources Management and Development: Over the period under review, government-initiated programmes to promote dairy development, meat value chain development, and fisheries enhancement. Milk production increased by 5 percent and beef production by 20 percent as compared in FY2022/23 with an increased number of farmers engaging in dairy and livestock production. Fisheries enhancement effort led to increased fish production from 8 Tons in FY 2022/23 to 8.6 Tons in FY 2023/24.
- **e)** Co-operatives Development: To strengthen cooperative governance and compliance, the government conducted nine cooperative audits signalling a commitment to ensuring transparency and accountability. Over 2,000 coffee farmers accessed the Coffee Cherry Advance Revolving Fund, which improved their liquidity and allowed them to enhance their coffee production and household income.
- f) Fertilizer Satellite Depots: Makueni County is served by only three NCPB depots which are located in Wote, Emali and Kibwezi towns. Due to the vastness of the county, it is costly for the farmers in need of subsidized fertilizer to access it especially those coming from areas far from the three towns. It is against this backdrop that the Government of Makueni County partnered with the National Government through NCPB to implement the last mile distribution of the subsidized fertilizer to areas that are close to farmers. Towards this partnership, the county initiated and operationalized seven (7) satellite depots as follows: Kitise Satellite in Kitise-Kithuki ward, Kithumani Satellite in Mbitini ward, Kasikeu Satellite in Kasikeu ward, Mukuyuni Satellite in Ukia ward, Nunguni Satellite in Kilungu ward, Kikima Satellite in Mbooni ward and Tawa Satellite in Kisau/Kiteta ward.
- **g**) Since inception and operationalization of these stores, the uptake of fertilizer in the county has tremendously improved. This can be attributed to the last mile depots closer to the farming communities. Fertilizer uptake in the county outlook for the last two seasons is as herein;

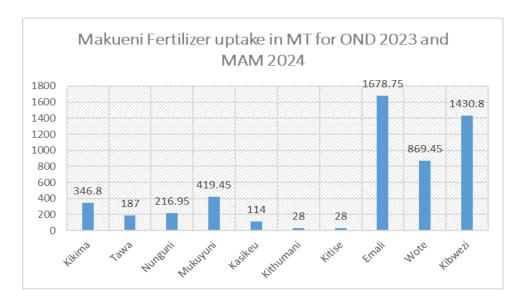

Figure 5: Makueni Fertilizer uptake in MT for OND 2023 and MAM 2024

h) A total of 5,319.2 MT of planting and top dressing subsidized fertilizer was procured by farmers for October, November and December 2023 season and March, April and May 2024. Over 25% of the fertilizer was sold from the 7 satellite depots. Further, under the National Agricultural Value Chain Project, the County registered over187,000 farmers who are now able to receive subsidized fertilizer.

11.0 DEPARTMENT OF WATER, SANITATION AND IRRIGATION

11.1 Department's Vision and Mission

Vision

A leader in providing safe, reliable and affordable water in a clean environment

Mission

To protect, conserve and promote environment and Natural Resources management and increase access to affordable water supply for sustainable County development

11.2 Performance Overview and Background for Programme(s) Funding

Access to safe and reliable water is undeniably a crucial development goal, vital for the attainment of Makueni Vision 2025 and the Sustainable Development Goals (SDGs) number 6. Since the inception of devolution, the county has made substantial investments in water harvesting. As a result, there have been notable achievements, including a reduction in the distance to the closest water source. In some wards, universal access to water is within reach, as citizens can now access water within a radius of 2 kilometers. This marks a significant improvement from an average distance of 8 kilometers in 2013. The distribution of households based on the time taken to fetch drinking water indicates that 65.5 percent access water in less than 30 minutes, while 10 percent rely on public taps or stands. The goal of the sector is to increase access to basic water services from 46 percent to 70 percent by 2027.

Department of Water and Sanitation, FY 2023/24 Performance

In FY 2023/24, The annual expenditure for the Department of Water and Sanitation for FY 2023/24 was Kshs. 449,971,142, against a revised budget of Kshs. 738,489,298. This translated to an overall absorption rate of 73 percent.

During the review period, 23 earth dams and eight sand dams were constructed or rehabilitated. A total of 37 boreholes were drilled and equipped, resulting in increased volumes of water. Additionally, 159 kilometers of water pipeline were constructed with 77 water points and water connected to 35 markets. To ensure effective operations, 29 water projects were installed with solar power.

Department of Water, Sanitation and Irrigation, FY 2024/25

For FY 2024/25, the department realized the following achievements; Constructed 5 earth dams and rehabilitated 6 others with average capacity of 50,000M3, constructed Kituasi water sump with capacity of 100M³, drilled eight (8) boreholes with a total yield of 55M³/hr. and developed 9 boreholes. The department also extended 16 projects though piping water to rural communities and 2 urban centers. Further, a total of 50 Management institutions were trained to enhance water governance.

11.3 Planned Priority Objectives for the FY 2024/25

To capitalize on the benefits of this sector, the government is investing in water infrastructure and promoting water conservation measures and responsible management practices. The availability of water supports the growth and sustainability of these sectors, contributing to the county's economic development.

a) Universal Water Access

In FY 2024/25, the government will focus on sustaining the gains of water harvesting (*kutwiikany'a kiwu*) by implementing a water connection program to public institutions and households. The program referred to as the **last mile water infrastructure** program (*Kunyaiikya kiw'u nduani na misyini*), aims to reduce the distance to the nearest water source from the current 4 kilometers to within 2 kilometers. Additionally, the government will promote and encourage individual household (HH) water connections through the existing registered water service providers.

The Implementation Strategy will involve;

- i. Investment in a centralized water infrastructure project in each sub-ward where possible, or a water project shared by the two sub-wards within the ward.
- ii. Implementing digital metering and payment systems in the water projects to reduce non-revenue water and save time spent fetching water from the nearest water source.
- iii. Develop a business model plan for each water project to enhance project sustainability.
- iv. Promoting individual household water connections through registered water service providers.

- v. Implementing the Water Act and Water Policy to comprehensively regulate rural water schemes by the Makueni Rural and Water Board (MARUWAB).
- vi. Urban and rural water governance programme: The government will strengthen the governance and other administrative capacity of the water service providers to reduce challenges facing water organizations. It will also carry out compliance evaluation of community water schemes/ projects, capacity build 150 community water schemes/projects Sustainability Management Committees on effective water management and sustainability, deepen community participation in management of both water and sanitation projects and review the existing water legislations.

b) Irrigation Development:

The government will intensify irrigated agriculture to reduce reliance on rain fed agriculture through:

- i. Rehabilitate two water project for irrigation purposes
- ii. Training on best water management practices and infrastructure development to ensure farmers have improved access to water resources for irrigation purposes;

Electricity connection to households grew from 6 percent in 2009 to 20.4 percent in 2019, KNBS Census Reports, largely due to the Last Mile Electricity Connectivity efforts. In 2020-2021, this initiative connected approximately 31,016 households at a cost of KES 1.51 billion.

In the period under review, the county installed a 205 KWp grid-tied solar system at Makueni County Referral Hospital. The county connected 586 households through the REREC program, and installing 6 high-mast floodlights, 78 solar streetlights, and 63 grid-powered streetlights. In

partnership with Strathmore University and the World Resources Institute the county developed that will guide energy development and promotion across the county.

The government opened 445.3 km of roads, graded 1,273.4 km, gravelled 102 km, constructed 12 drifts, installed 2,190 meters of culverts, and built 813 gabion boxes.

13.0 DEPARTMENT OF LANDS, URBAN PLANNING & DEVELOPMENT, ENVIRONMENT AND CLIMATE CHANGE

13.1 Department's Vision and Mission

Vision

A leader in equitable and sustainable, use of county land and natural resources

Mission

To ensure sustainable utilization of Makueni County land and natural resources to achieve a high quality of life for every household

13.2 Performance Overview and Background for Programme(s) Funding

In FY 2023/24, the government established and operationalized the Emali-Sultan Hamud municipality, approved its charter, and appointed Municipal Board members. Additionally, the government prepared plans for Makindu and Matiliku, finalized the Wote township perimeter boundary, and surveyed township plots. In partnership with the National Land Commission (NLC), the government facilitated the survey of the Kathekani B adjudication section.

Natural resource management was enhanced through catchment protection, environmental education, and compliance activities. During the period under review, 137,000 trees were planted, 120 environmental inspections were conducted, 189 markets were covered under the market cleaning program, 7 market toilets were constructed, 2 sand harvesting sites were rehabilitated, and gully restoration was completed in the Malibu and Ngwili Ndilo areas. A Participatory Climate Risk Assessment (PCRA) was undertaken in all 30 wards of the County. To build community resilience against the effects of climate change, the County Climate Change Regulations were developed, a strategic plan for the County Climate Fund Board was created, a grievance redress mechanism was established, and an action plan for mitigation and adaptation actions was developed and approved.

Expenditure Trends

The sector received a budget of KShs. 499,678,441 composing of; KShs. 64,072,444 for Wote Municipality, KShs. 54,200,165 for Emali-Sultan Hamud Municipality and KShs. 381,405,832 for Lands, Urban Development, Environment and Climate Change. The sector spent KShs. 266,723,629 translating to an absorption rate of 53 percent, a decline from 86 percent recorded in FY 2022/23 which was occasioned by late disbursement of FLLoCA grant of KShs 142,746,435;

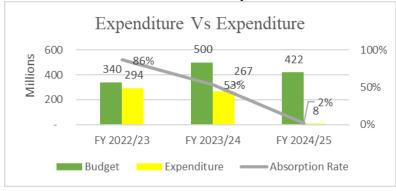

Figure 7: Lands Budget, Expenditure and Absorption Rate

FY 2024/25 Planned Targets

The Lands sector plays a pivotal role in ensuring effective land administration, sustainable land use, and equitable access to land resources. Title deeds are critical aspect of security of land tenure and promotes socio-economic development by providing individuals and communities with legal ownership of land. The proportion of households with land ownership documents in the county stands at 31 percent and this underscores the importance of Government intervention in the provision of title deeds to the population.

During the 2024-25 budget public participation forums, land ownership and succession was highlighted as community challenges and as such, government intervention on this matter is critical. The Government will provide financial assistance to low-income households to facilitate the acquisition of title deeds. A total of 20 households per sub ward totaling to 600 households across the county will benefit from the program. On average, each household will have 8-10 beneficiaries hence the program aims at issuing 10,000 title deeds to residents.

The government will also promote climate change initiatives through green programmes, land scape restoration, environmental conservation, and forest protection in the creation of climate-smart infrastructure in support of FLLoCA programme.
