PREFACE

Under the Fourth Schedule of the CoK 2010, The National Government is mandated with National statistics and data on population, the economy, and society in general. The County Government is charged with County planning and development, including statistics. In line with this mandate, the County Government of Makueni and the Kenya National Bureau of Statistics (KNBS), which is the principal agency of the Government of Kenya's official statistics, have annually collaborated in the production of the County Statistics Abstract.

The annual publication of these statistics is more than just a routine collection and presentation of data. It is credibly derived evidence intended to inform policy, planning and resource allocation as well as evaluate the progress made in our development. Worldwide, there is growing consensus that an accountability framework and evidence-based policy-making are urgently required. The production of official statistics must be prioritized for greater efficiency and effectiveness.

The CSA 2024 is our sixth edition. It provides a single source of information covering various sectors in the county between 2019 and 2023 grouped into five Domains. The producers of this data are government agencies, the data is produced in the process of service delivery. It is my hope that we will continuously utilize this data to inform decisions at the county and departmental level. We have worked with KNBS to ensure the data meets the critical quality attributes of relevance, completeness, reliability, accuracy, and timeliness.

Lastly, I wish to assure all that the County Government of Makueni will always prioritize the use of data to support and advance the county development agenda. It is from the realist statistics that policy development and management will be improved. Statistics speaks to us by turning numbers and data into meaningful insights that guide decision-making in various fields. It is a journey we are willing to take and walk as a government. I request our development partners and stakeholders that we fully embrace the process. We are confident of the much we can achieve if we remain united in this data-driven governance.

GOVERNOR, MAKUENI COUNTY**

FOREWORD

The Kenya National Bureau of Statistics (KNBS), in collaboration with the County Government of Makueni, is proud to present the 2024 Makueni Statistical Abstract (CSA). This is the 6th publication due to a concerted effort to provide reliable, timely, and relevant statistical information for evidence-based planning, policymaking, and decision-making at the county level.

The Makueni CSA continues to be an important show of our continuous efforts to modernize the production of official statistics. It serves as a detailed resource for county-level information that covers a wide range of topics grouped into statistical domains of demography, social, governance, economy, and environment. By providing accurate and reliable data, we hope to support the effective planning and implementation of development initiatives in Makueni County and in the country as whole.

This year, as we celebrated African Statistics Day under the theme “Supporting education by modernizing the production of fit-for-purpose statistics,”. We are reminded of the critical role that education statistics play in informing policies and initiatives that shape our future. The theme aligns with our ongoing efforts to modernize data production and utilization, ensuring that the statistics we generate are relevant, accurate, and capable of supporting educational planning and decision-making. By focusing on education, we aim to empower communities through knowledge and foster sustainable development nationwide.

This publication aligns with KNBS’s continuous efforts to assist county governments in creating strong data ecosystems. The cooperation with the Makueni County Government demonstrates the value of partnerships in strengthening the national statistical system and guaranteeing that data is collected, processed, and disseminated to satisfy the requirements of the statistical standards we subscribe to.

As we launch this statistical abstract, we reaffirm our dedication to providing high-quality statistics for better lives. To improve the lives of the inhabitants of Makueni County, we invite stakeholders and data users to use the contents of this publication to inform policies, programs, and interventions. We also encourage all users to submit comments to assist us in continuously improving the quality and applicability of our statistical products.

We want to extend our gratitude to all those who contributed to the preparation of this document, particularly the County Government of Makueni and the dedicated team at KNBS. Together, let us continue to harness the power of data to drive positive change and sustainable development in our communities.e publications.

A handwritten signature in black ink, appearing to read 'Macdonald G. Obudho', with a stylized flourish at the end.

Macdonald G. Obudho, Phd, MBS, EBS
Director General
Kenya National Bureau of Statistics

ACKNOWLEDGEMENT

The Makueni County Statistical Abstract (CSA) 2024 is the sixth edition, prepared by County Government of Makueni in collaboration with KNBS. It contains data from various sectors grouped into five domains. To ensure data quality, the process went through all recommended stages for the production of official statistics. The data producers from departments and agencies in both National and county governments validated the submitted data. Technical team from the KNBS and County Government of Makueni reviewed the abstract.

Our gratitude to H.E. Mutula Kilonzo Junior, CBS the Governor of Makueni County and H.E Lucy Mulili, the Deputy Governor for providing their support during the entire process in the production of this publication. I also wish to express my gratitude to the County Commissioner, County Executive Committee Members, County Chief Officers, Directors and all staff of the County who participated in the production of this abstract.

Appreciation goes to Kenya National Bureau of Statistics for providing technical support which has culminated in the preparation of this County Statistical Abstract. We are immensely indebted to the technical support we have received in many statistics fronts from the Organization. We pray that this partnership will enhance the statistics landscape in the county.

Special thanks to the CSA technical team led by Boniface Mutua and Benjamin Avusevwa, and comprising of John Bore, Stanlus Matheka, Antony Makau, Schola Kingi, Pius Ng'ang'a, Esther Naipanoi, Cynthia Musangi, Titus Soloi, Hastings Mwangangi, Justus Mutuku, Patricia Kanzi, Lydia Kerubo, Veronica Ndeto and all Departmental Economists. I acknowledge the contribution of the Research Assistants for their tireless efforts in the successful compilation of data and production of this Statistical Abstract. Finally, we reiterate the department's commitment in strengthening linkages with various stakeholders to improve the quality of the future Statistics.

INTRODUCTION

Overview of Makueni County

Makueni county is one of the 47 counties in Kenya. It is situated in the South Eastern part of the country and borders the following counties: Machakos to the North, Kitui to the East, Taita Taveta to the South and Kajiado to the West. The county lies between Latitude 1° 35' and 3° 00' South and Longitude 37°10' and 38°30' East with an area of 8,176.7 Km².

Makueni County is predominantly inhabited by the Akamba community who form approximately 97% of the total number of the inhabitants. There is a percentage of people from other communities especially in the major towns. It has an average population density of 110 persons / KM² with Mbooni Sub –County recording the highest population density of 199 persons / KM² and Kibwezi Sub County recording the lowest at 62 persons/ KM². The county headquarters are situated at Wote town which hosts both the County Government of Makueni head offices and the National Government County Offices. Wote town is located 130 Kms from Nairobi.

The main economic activities in the County are subsistence agriculture, beekeeping, small-scale trade, dairy farming and limited coffee growing, eco-tourism and commercial businesses. Agriculture is the main economic activity contributing 27 percent of the Ksh. 120 billion county economy in 2022. Farmers engage in the cultivation of various crops such as maize, beans, millet, sorghum, fruits (mangoes, oranges, bananas), and vegetables. Livestock rearing, including cattle, goats, and poultry, is also widely practiced. Agro- processing initiatives that add value to agricultural produce create employment opportunities and significantly contribute to the local economy.

Tsavo National Park which lies in the southern part of the County, in Kibwezi is considered as one of the world's biodiversity strongholds. It is home to diverse wildlife species which include the famous big five consisting of lion, black rhino, elephant and leopard. Beyond being a sanctuary for these majestic creatures, the park embraces a wide spectrum of bird species, including the black kite, Crowned crane, lovebirds, and the Sacred Ibis, among others. This diversity positions Tsavo National Park as a significant tourism destination, attracting both local and international visitors eager to witness its unparalleled natural wonders.

2. Domain Two: Macroeconomic Accounts and Statistics

2.1. Macroeconomic Accounts and Statistics

The domain covers the compilation of macroeconomic accounts and macroeconomic statistics. It includes institutional sectors and industries. This category includes the aggregation, consolidation and reconciliation of the different components of economic statistics.

Table 2.1.1: GCP by Activity at Current Prices¹, 2019-2022

KSh Million				
Economic Activities	2019	2020	2021	2022
Agriculture, forestry and fishing	30,228	31,831	34,376	33,401

2.3. Sectoral Statistics

2.3.1. Agriculture, Forestry and Fisheries

The sub domain covers statistics related to agriculture, forestry and fishery. It includes agricultural monetary statistics (agricultural economic accounts), agricultural structures (farm structure), trade in agricultural products, crop and animal production, agricultural commodities agro-industry statistics (including food production and safety), organic farming and organic food, products source and use tables, forest and forest product statistics, trade in forest products and fisheries.

Table 2.3.1.1: Agro-Ecological Zones by Sub-County and Crop Enterprise

Zone	Sub County	Crop Enterprise
LM4-5, LH 2, UM 3	Makueni	Sorghum, green grams, cowpeas, pigeon peas, dolichos, mangoes, citrus, cotton, castor, Avocado, coffee
LH2, UM3, UM4, LM3, LM4, LM5	Mbooni	Potato, coffee, sunflower, maize, cotton, millet, french beans, common beans, yellow passion fruit, cabbages, tomatoes, avocados, citrus, madamamia, cotton, castor
LH2-UM2, UM5-L6, UM3-L6	Kaiti	Avocado, mangoes, tomatoes, cabbages, french beans, common beans, yellow passion fruit, citrus, coffee, macadamia
LH2-UM2	Kilome	Maize, beans, sweet potato, kales, cabbages, avocado, apples, coffee, sorghum, cow peas, Mangos, cassava, citrus, pawpaw, green grams, coffee, macadamia, castor
LM4, LM5, LM6	Kibwezi West	Maize, beans, mango, pigeon peas, vegetables, green grams, cowpeas, citrus, cotton, castor
LM4, LM5, LM6	Kibwezi East	Maize, beans, mangoes, tomatoes, bananas, sorghum, green grams, cow peas, pigeon peas, cassava, dolichos, cotton

2.4. Prices

The sub domain covers any statistical activity dealing with prices, including Purchasing Power Parities and international comparisons of GDP. It covers topics like Consumer Price Indices, inflation, Producer Price Indices, and price indices for specific products and services (e.g., Information and Communication Technology products or rents).

Table 2.4.1: Average Annual Retail Prices for Selected Food Commodities, 2019-2023

						Price (KSh/Kg)	
Commodity	Unit	2019	2020	2021	2022	2023*	
Dry Maize	1 Kg	35	35	45	60	65

3. Domain Three: Environmental Statistics

The breakdown in this domain follows the structure of the Framework for the Development of Environment Statistics approved by the United Nations Statistical Commission in 2013. More detailed breakdown of statistical areas can be found in the FDES.

3.1. Environment

The sub domain covers statistics about the physical, biological and chemical characteristics of the environment. The FDES further breaks it down to three sub components:

- (1) Physical conditions of the atmosphere, hydrographical information, geological and topographic information, and soil characteristics;
- (2) Land cover, ecosystems and biodiversity, protected areas and species; and
- (3) Quality of air, water and soil.

4. Domain Four: Governance Statistics

The breakdown in this domain follows the structure of the Handbook of Governance Statistics approved by the UN Statistical Commission in 2020.

4.1. Participation

This domain covers statistics on the ways in which individuals take part in political and public affairs, including registering to vote, voting or vying as a candidate in elections; being members of legislative, executive and judicial bodies; accessing positions in the public service; being a member of a trade union; and engaging, individually or as members of political parties and other NGOs, in political activities.

Table 4.1.1: Registered Voters by Constituency and Ward in 2013, 2017 and 2022

Wards	Number		
	2013	2017	2022
Mbooni Constituency	60,003	85,876	96,029

5. Domain Five: Cross-Cutting Statistics

This section deals with conceptual or data work based on thematic approaches that require bringing together data across different domains to meet the data needs for policy agendas in development. The domain also covers statistical work that spans two or more of the previous subject-matter domains, or is not elsewhere classified.

5.1. Information Society and Digitalization.

The sub domain covers work on statistics, indicators and frameworks to monitor digital transformation, the use and impact of information and communication technologies (ICT) on society. It looks at these topics in a wider sense than economic aspects, including well-being in a digital society, work on internet use, internet application, information and communications technology trade, computer use, broadband connectivity, e-commerce, etc.
