

**REPUBLIC OF KENYA** 

## MAKUENI COUNTY ASSEMBLY BILLS, 2023

(November 2023.)

Bill for introduction into the County Assembly of Makueni County

(DRAFT – NOVEMBER 2023)

PRINTED AND PUBLISHED BY THE GOVERNMENT PRINTER, NAIROBI

PART I – PRELIMINARY			
Section			
1	Short Title and Commencement		
2	Interpretation		
3	Objects & Purpose		
PART II – (	GUIDING PRINCIPLES		
4	Guiding Principles		
PART III –	ADMINISTRATION AND IMPLEMENTATION		
5	Role of County Executive Committee Member responsible for waste management		
6	Role of County Department responsible for waste management		
7	Role of County Environment Committee		
PART IV –	MEASURES AND ACTIONS		
8	Segregation of waste at source		
9	Handling of hazardous waste		
10	Integrated County Waste Management Plan		
11	County Waste Information System		
12	Waste minimisation		
13	Extended Producer Responsibility		

14	Responsibility of County Government to collect waste
15	Minimum requirements for waste collectors
16	Establishment of waste collection points
17	Waste collection
18	Obligation of owners and occupiers of houses, buildings or premises
19	Obligation of waste generators
20	Obligation of waste service providers
21	Licence to collect and transport waste

## PART VI – MATERIAL RECOVERY AND RECYCLING

22	Establishment of Material Recovery Facilities
23	Requirement for Environmental Impact Assessment
24	Environmental Audits for material recovery facilities
25	Obligation to channel waste through Material Recovery Facilities
26	Access to materials
27	Compliance with Act
28	Licence of recycling and composting plants
29	Environmental Audits for waste recycling and composting plants

## PART VII – WASTE DISPOSAL

30	Prohibition of waste disposal in non-designated places
31	Obligations to deliver waste to designated waste disposal facilities
32	Obligation of County Government on waste disposal facilities
33	Environmental Impact Assessment for waste disposal facilities
34	Environmental Audits for waste disposal facilities

# PART VIII – FINANCIAL PROVISIONS

35	Fees, levies and charges
36	Incentives for waste management
PART IX	- REGULATIONS AND GUIDELINES
37	Power to make Regulations
PART X	- OFFENCES AND PENALTIES
38	Offences where penalty is prescribed
39	General penalty
40	Liability for offences
PART X	– MISCELLANOUS PROVISIONS
41	Public Participation
42	Access to information
43	Conflict of Interest

An ACT of the County Assembly of Makueni County to implement the devolved function of waste management, to ensure the realization of the Constitutional provision on the right to a clean and healthy environment, to make provision for the sustainable management of solid waste in the County and for connected purposes.

**ENACTED** by the County Assembly of \_\_\_\_\_ County as follows—

PART I – PR	ELIMINARY
Short title and	1. This Act may be cited as the Makueni County Sustainable Waste Management
commencement	Act, [2023] and shall come into force on the [ninetieth] day after its publication in
	the Kenya Gazette.
Interpretation	2. In this Act, unless the context otherwise requires—
	"Authority" means the National Environment Management Authority established
	under section 7(1) of the Environmental Management and Coordination Act, (No.
	8 of 1999);
	"County Executive Committee Member" means the County Executive
	Committee member responsible for matters relating to waste management;
	"County Government " means the County Government of Makueni County;
	"Department" means the department responsible waste management;
	"disposal site" means any area of land on which waste disposal facilities are
	physically located or final discharge point without the intention of retrieval but
	does not mean a re-use or re-cycling or composting plant or site;

"**extended producer responsibility**" means an environmental management approach in which a producer's responsibility for a product is extended to the postconsumer stage of a product life cycle;

"hazardous waste" has the meaning assigned to it under the Environmental Management and Co-ordination Act, (No. 8 of 1999);

"materials recovery facility" means a specialised facility that receives, separates and prepares recyclable material for marketing to end user manufacturers;

"non-organic waste" means dry recyclable and non-recyclable materials;

"organic waste" means compostable materials derived from plants and animals;

"payment for environmental services" and "payment for ecosystem services" means payments to farmers or land users to encourage the conservation of natural resources;

"**pollution**" means any direct or indirect alteration of the physical, thermal, chemical, biological, or radio-active properties of any part of the environment by discharging, emitting, or depositing wastes so as to affect any beneficial use adversely, to cause a condition which is hazardous or potentially hazardous to public health, safety or welfare, or to animals, birds, wildlife, fish or aquatic life, or to plants or to cause contravention of any condition, limitation, or restriction which is subject to a licence under the Environmental Management and Coordination Act, (No. 8 of 1999);

"**precautionary principle**" means that where the lack of scientific certainty shall not be used to postpone measures to prevent environmental degradation where there are threats of damage to the environment;

**"polluter pays principle"** means that the cost of cleaning up any element of the environment that has been damaged by pollution, the cost of the beneficial uses of the environment that have been lost as a result of the pollution, and any other costs associated with or incidental to the pollution shall be paid by the polluter;

**"producer"** means an entity that introduces goods, products and packaging into the country using authorised means by manufacturing, importing, converting, filling, refilling, repackaging or rebranding;

**"proximity principle"** means that waste should be managed closest to where it is generated;

**"public participation"** means that the public and all stakeholders are engaged in any decision making process and consideration is given to public and stakeholders input in making that decision;

"**recovery**" means the controlled extraction of a material or retrieval of energy from waste for the production of another product;

"recycle" means the process by which materials are reclaimed from waste for further use as product, raw materials or input in the production process;

"re-use" means the action or practice of using something again whether for its original purpose or to fulfil a different function;

"sustainable waste management" means using material resources efficiently as prioritized by waste hierarchy, circular economy and clean production in order to reduce the amount of waste that is generated, deposited or discarded in the environment including the management of materials that would otherwise have been dumped or wasted in a way that contributes to environmental, social and economic goals of sustainable development;

"treatment" means any method, technique or process for altering the biological, chemical or physical characteristics of wastes to reduce the hazards it presents;

"waste" means— (a) any substance, material or object that is intended or required to be discarded or disposed of by its holder, whether or not it can be reused, recycled or recovered and include municipal waste, domestic waste, waste from agriculture, construction waste, commercial waste, waste from horticulture, aquaculture and forestry, medical waste, chemical waste, hazardous waste, toxic waste, industrial waste, pesticides, e-waste and toxic substances but does not include radioactive waste; (b) a substance, material or object that may be designated as waste by the Cabinet Secretary in accordance with the provisions of the Sustainable Waste Management Act, No. 31 of 2022, Laws of Kenya;

"waste management facility" means a site or premises licensed in accordance with this Act for the purposes of receiving, accumulation, depositing, recovery, recycling, treatment, storage and disposal of waste and includes waste processing areas, transfer stations, reusing areas, materials recovery facilities, recycling plants, food waste treatment facilities, composting plants, waste disposal areas, waste-to-energy facilities and sanitary landfills;

**"waste management activity"** means any administrative or operation activity for the- (a) importation or exportation of waste as prescribed by regulations; (b) segregation of waste including any activity or process that is likely to result in generation of waste; (c) accumulation and storage of waste; (d) collection and handling of waste; (e) reduction, reusing, recycling and recovery of waste; (f) trading in waste; (g) transportation of waste; (h) transfer of waste; (i) treatment of waste; and (j) disposal of waste;

"waste minimisation programme" or "waste reduction programme" means a programme that is intended to promote reduction in generation and disposal of waste;

material recovery operators, recyclers and landfill operators; <b>"zero waste principle"</b> means that products and processes are desig managed to reduce the volume and toxicity of waste and materials, and to a and recover all resources, and to prevent the burning or burying of resource order to treat waste as a resource that can be harnessed for wealth a employment and the reduction of pollution; and achieving sustainable management goals.	
managed to reduce the volume and toxicity of waste and materials, and to a and recover all resources, and to prevent the burning or burying of resource order to treat waste as a resource that can be harnessed for wealth a employment and the reduction of pollution; and achieving sustainable	
managed to reduce the volume and toxicity of waste and materials, and to and recover all resources, and to prevent the burning or burying of reso order to treat waste as a resource that can be harnessed for wealth employment and the reduction of pollution; and achieving sustainable	
and recover all resources, and to prevent the burning or burying of resource order to treat waste as a resource that can be harnessed for wealth of employment and the reduction of pollution; and achieving sustainable	ned and
order to treat waste as a resource that can be harnessed for wealth of employment and the reduction of pollution; and achieving sustainable	conserve
employment and the reduction of pollution; and achieving sustainable	urces, in
	creation,
management goals.	e waste
<i>Object and</i> <b>3.</b> The object and purpose of this Act is to provide for the establishme	nt of an
<i>purpose</i> appropriate legal and institutional framework to promote sustainable sol	id waste
management in County and in particular to—	
(a) establish an appropriate implementation mechanism for the de	evolved
solid waste management function in the County:	
(b) set forth the guiding principles for sustainable solid waste	
management in the County;	
(c) ensure a clean and healthy environment by reducing air, land, t	fresh
water and marine pollution by solid waste;	
(d) catalyse transition towards a circular economy by mainstreami	C
resource efficiency principles in sustainable consumption a	and
production practices;	
(e) ensure efficient delivery of solid waste management services in	n the
County ;	
(f) establish an environmentally sound infrastructure and system for	or
sustainable solid waste management;	
(g) create an enabling environment for employment in the green en	•
in waste management, composting, recycling and recovery	; and
(h) inculcate responsible public behaviour on was	ste and
environment.	

PART II – G	UIDING PRINCIPLES				
Guiding principles	4. In implementing this Act, the Department, its officials, agents, committees				
principies	and/or any other lawful organs or institutions of the County Government shall be				
	guided by the following general guiding principles—				
	(i) the right to a clean and healthy environment;				
	(ii) the precautionary principle;				
	(iii) the polluter pays principle;				
	(iv) payment for ecosystem services or payment for ecological services;				
	(v) zero waste principle;				
	(vi) public participation; and				
	(vii) proximity principle.				
	DMINISTRATION AND IMPLEMENTATION

# (f) preparation and submission of annual reports to the Authority and county assembly on the implementation of the integrated county waste management plan. Role of County 6. The County department responsible for waste management, under the department stewardship of the County Executive Committee Member shall-(a) coordinate, promote and facilitate effective implementation of this Act and any county policies, plans and strategies on sustainable solid waste management; (b) coordinate and collaborate with the national government's relevant lead agencies and other county governments in the implementation of this Act and other policies, plans and strategies on sustainable solid waste management in the county; (c) enforce the provisions of this Act and any other written laws and guidelines related to sustainable solid waste management; (d) promote and facilitate compliance with this Act and any policies, plans and strategies on sustainable solid waste management; (e) in collaboration with relevant stakeholders carry out awareness creation, mobilization and capacity development on sustainable solid waste management; mobilize and facilitate formation of local community or (f) neighbourhood initiatives or programmes for sustainable solid waste management; (g) provide public services including infrastructure for sustainable solid waste management; (h) supervise and coordinate private actors in solid waste management; (i) administer any licenses or permits that may be required under this Act or any regulations made thereunder; (j) in consultation with County Treasury, and with the approval of the County Assembly, provide such incentives as may be necessary to promote sustainable solid waste management initiatives ; and

	(k) carry out any other function that may be assigned by the County
	Executive Committee for the purposes of implementing the
	objects of this Act.
Role of County	7. The County Environment Committee established under section 29 of the
Environment Committee	Environmental Management and Co-ordination Act (No. 8 of 1999), in the
	exercise of its functions for the proper management of the environment within
	the county as relates to solid waste management, shall, in liaison with the County
	Executive Committee member and in consultation with relevant stakeholders, —
	(a) prepare the County Integrated Solid Waste Management Plan;
	(b) review and monitor the implementation of the County Integrated
	Solid Waste Management Plan;
	(c) formulate the necessary education promotion and information
	campaign strategies to promote sustainable waste management
	and encourage private sector initiatives, community participation
	and investments in waste management and resource recovery-
	based livelihood programs for local communities;
	(d) establish criteria, guidelines and formula that are fair, equitable and
	reasonable in establishing various charges and rates for
	sustainable solid waste management;
	(e) develop criteria and guidelines for formalization and inclusion of
	informal waste service providers in the County waste
	management system;
PART IV – M	EASURES AND ACTIONS
Segregation of	8. Every person or entity whose activities generate waste shall segregate such
waste at source	waste at source in the manner prescribed below—
	(i) Hazardous waste shall be separated from non-hazardous waste.
	(1) The and the share of perturbation from non-included waster.

<ul> <li>organic waste.</li> <li>(iii) The segregated waste shall be placed in properly labeled and colour coded receptacles, bins, containers and bags.</li> <li>(iv) The department and/or licenced or contracted waste service providers shall provide colour coded receptacles, bins, containers and bags to all waste generators in the areas served by the department or licenced or contracted waste service providers.</li> <li>(v) The labeling and colour coding for waste receptacles, bins, containers and bags shall conform to the National Colour Coding System established under the Sustainable Waste Management Act (No.31 of 2022, Laws of Kenya)</li> <li>Handling of hazardous waste</li> <li>9. Every person or entity whose activities generate hazardous waste shall handle, manage and/or dispose of such waste in the manner prescribed by the Environmental Management and Co- ordination Act, (No. 8 of 1999, Laws of Kenya), the regulations made thereunder, and any other written law.</li> <li>County Waste Management Plan</li> <li>10. (1) The County Executive Committee Member shall, in liaison with the County Environment Committee and, in consultation with relevant stakeholders, prepare and submit to the County Assembly for approval an integrated county waste management plan once every five years.</li> <li>(2) The Executive Committee Member shall ensure that the approved integrated county waste management plan is included in the county integrated development plan.</li> <li>(3)The integrated county waste management plan shall have—         <ul> <li>(a) clear goals and objectives:</li> </ul> </li> </ul>		(ii) Non-hazardous waste shall be separated into organic and non-
<ul> <li>coded receptacles, bins, containers and bags.</li> <li>(iv) The department and/or licenced or contracted waste service providers shall provide colour coded receptacles, bins, containers and bags to all waste generators in the areas served by the department or licenced or contracted waste service providers.</li> <li>(v) The labeling and colour coding for waste receptacles, bins, containers and bags shall conform to the National Colour Coding System established under the Sustainable Waste Management Act (No.31 of 2022, Laws of Kenya)</li> <li>Handling of hazardous waste</li> <li>9. Every person or entity whose activities generate hazardous waste shall handle, manage and/or dispose of such waste in the manner prescribed by the Environmental Management and Co- ordination Act, (No. 8 of 1999, Laws of Kenya), the regulations made thereunder, and any other written law.</li> <li>County Waste Management Plan</li> <li>10. (1) The County Executive Committee Member shall, in liaison with the County Environment Committee and, in consultation with relevant stakeholders, prepare and submit to the County Assembly for approval an integrated county waste management plan once every five years.</li> <li>(2) The Executive Committee Member shall ensure that the approved integrated county waste management plan is included in the county integrated development plan.</li> <li>(3)The integrated county waste management plan shall have—</li> </ul>		
<ul> <li>(iv) The department and/or licenced or contracted waste service providers shall provide colour coded receptacles, bins, containers and bags to all waste generators in the areas served by the department or licenced or contracted waste service providers.</li> <li>(v) The labeling and colour coding for waste receptacles, bins, containers and bags shall conform to the National Colour Coding System established under the Sustainable Waste Management Act (No.31 of 2022, Laws of Kenya)</li> <li>Handling of hazardous waste</li> <li>9. Every person or entity whose activities generate hazardous waste shall handle, manage and/or dispose of such waste in the manner prescribed by the Environmental Management and Co- ordination Act, (No. 8 of 1999, Laws of Kenya), the regulations made thereunder, and any other written law.</li> <li>County Waste Management Plan once every five years.</li> <li>(2) The Executive Committee Member shall ensure that the approved integrated county waste management plan once every five years.</li> <li>(2) The Executive Committee Member shall ensure that the approved integrated county waste management plan once every five years.</li> <li>(3) The integrated county waste management plan shall have—</li> </ul>		
County Waste       10. (1) The County Executive Committee Member shall, in fiaison with the County Environment Committee Member shall, in fiaison with the County Environment Committee Member shall, in fiaison with the County waste management plan once every five years.         (2) The Executive Committee Member shall ensure that the approved integrated county waste management plan is included in the county integrated development plan.         (3) The integrated county waste management plan shall have—		coded receptacles, bins, containers and bags.
County Waste       10. (1) The County Executive Committee Member shall, in liaison with the County Environment Committee and, in consultation with relevant stakeholders, prepare and submit to the County Assembly for approval an integrated county waste management plan once every five years.         (2) The Executive Committee Member shall ensure that the approved integrated county waste management plan is included in the county integrated development plan.		(iv) The department and/or licenced or contracted waste service providers
County Waste       10. (1) The County Executive Committee Member shall, in liaison with the County Environment Committee and, in consultation with relevant stakeholders, prepare and submit to the County Assembly for approval an integrated county waste management plan once every five years.         (2) The Executive Committee Member shall ensure that the approved integrated county waste management plan is included in the county integrated development plan.		shall provide colour coded receptacles, bins, containers and bags to all
(v) The labeling and colour coding for waste receptacles, bins, containers and bags shall conform to the National Colour Coding System established under the Sustainable Waste Management Act (No.31 of 2022, Laws of Kenya)         Handling of hazardous waste       9. Every person or entity whose activities generate hazardous waste shall handle, manage and/or dispose of such waste in the manner prescribed by the Environmental Management and Co- ordination Act, (No. 8 of 1999, Laws of Kenya), the regulations made thereunder, and any other written law.         County Waste Management Plan       10. (1) The County Executive Committee Member shall, in liaison with the County Environment Committee and, in consultation with relevant stakeholders, prepare and submit to the County Assembly for approval an integrated county waste management plan once every five years.         (2) The Executive Committee Member shall ensure that the approved integrated county waste management plan is included in the county integrated development plan.         (3)The integrated county waste management plan shall have—		waste generators in the areas served by the department or licenced or
and bags shall conform to the National Colour Coding System established under the Sustainable Waste Management Act (No.31 of 2022, Laws of Kenya)         Handling of hazardous waste       9. Every person or entity whose activities generate hazardous waste shall handle, manage and/or dispose of such waste in the manner prescribed by the Environmental Management and Co- ordination Act, (No. 8 of 1999, Laws of Kenya), the regulations made thereunder, and any other written law.         County Waste Management Plan       10. (1) The County Executive Committee Member shall, in liaison with the County Environment Committee and, in consultation with relevant stakeholders, prepare and submit to the County Assembly for approval an integrated county waste management plan once every five years.         (2) The Executive Committee Member shall ensure that the approved integrated county waste management plan is included in the county integrated development plan.         (3) The integrated county waste management plan shall have—		contracted waste service providers.
Handling of hazardous waste       9. Every person or entity whose activities generate hazardous waste shall handle, manage and/or dispose of such waste in the manner prescribed by the Environmental Management and Co- ordination Act, (No. 8 of 1999, Laws of Kenya), the regulations made thereunder, and any other written law.         County Waste Management Plan       10. (1) The County Executive Committee Member shall, in liaison with the County Environment Committee and, in consultation with relevant stakeholders, prepare and submit to the County Assembly for approval an integrated county waste management plan once every five years.         (2) The Executive Committee Member shall ensure that the approved integrated county waste management plan is included in the county integrated development plan.         (3) The integrated county waste management plan shall have—		(v) The labeling and colour coding for waste receptacles, bins, containers
2022, Laws of Kenya)         Handling of hazardous waste         9. Every person or entity whose activities generate hazardous waste shall handle, manage and/or dispose of such waste in the manner prescribed by the Environmental Management and Co- ordination Act, (No. 8 of 1999, Laws of Kenya), the regulations made thereunder, and any other written law.         County Waste Management Plan         10. (1) The County Executive Committee Member shall, in liaison with the County Environment Committee and, in consultation with relevant stakeholders, prepare and submit to the County Assembly for approval an integrated county waste management plan once every five years. (a)	-1		<b>1</b>	4			

	(c) clear strategies and actions on waste management and extended
	producer responsibility;
	(d) an implementation plan with clear results framework; and
	(e) framework for monitoring, evaluation and reporting.
County Waste	<b>11.</b> (1) The Department shall establish a County Waste Management Information
Management Information	System for recording, collecting, management and analysis of solid waste data
System	and information including—
	(a) a register of all licensed waste management activities;
	(b) the status of the generation, collection, reduction, reuse, recycling,
	composting, recovery, transportation, treatment and disposal of
	waste;
	(c) the impact of waste on health and the environment;
	(d) the levels and extent of waste management services provided by
	County Government and other waste service providers in the
	County;
	(d) information on compliance with this Act and the Sustainable Waste
	Management Act (No. 31 of 2022, Laws of Kenya); and
	(e) any other information that is necessary for the purposes of the
	effective administration of this Act.
	(2) The department shall maintain data and information outlined in sub-section
	(1) above and shall share the same with the Authority through the national waste
	information system annually and/or at such other times as may be required by
	the Authority.
Waste	<b>12.</b> Any owner or operator of a manufacturing or processing facility, plant or
minimisation	premises which generates waste shall implement a waste minimization
	programme by adopting cleaner production principles including—
	(i) improvement of production processes through conservation of
	raw materials and energy;

|--|

	(ii) eliminating the use of toxic raw materials;
	(iii) reducing toxic emissions and waste;
	(iv) monitoring the product cycle by—
	(a) identifying and eliminating potential negative impacts of
	the product;
	(b) enabling the recovery and reuse of the product;
	(c) reclamation and recycling; and
	(d) incorporating environmental concerns in the design process and
	disposal of a product.
Extended	13. Any producer who introduces into the County any product or packaging shall
Producer Responsibility	bear and fulfil extended producer responsibility obligations to reduce pollution
	and environmental impacts of the products or packaging and any waste arising
	therefrom in accordance with the provisions of the Sustainable Waste
	Management Act (No. 31 of 2022, Laws of Kenya) and any regulations made
	thereunder.
PART V – WA	STE COLLECTION AND TRANSPORTATION
Responsibility of	14. (1) The Department shall be responsible for the provision of solid waste
County Government to	collection services in County.
collect waste	(2) In undertaking the obligation set out in (1) above, the Department may—
	(a) carry out waste collection services directly through its relevant
	department; or
	(b) contract a private person or entity to provide waste collection
	services on its behalf; or
	(c) enter into a public private partnership, in accordance with the Public
	Private Partnerships Act (No. 14 of 2021, Laws of Kenya), for
	provision of solid waste collection services; or

	Sustainable Waste Management
	(d) licence a private person or entity to provide waste collection services
	on such terms and conditions as the department may determine.
	(3) The Department shall provide clearly labeled and colour-coded waste
	collection containers or receptacles in all public streets, public markets and other
	open public places within the County, and shall collect and dispose of such waste
	in the manner prescribed under this Act or regulations thereunder.
Minimum requirements for	15. The following shall be the requirements for solid waste collectors—
requirements for waste collectors	(a) All solid waste collectors and other personnel directly dealing with
	collection of solid waste shall be equipped with personal protective
	equipment to protect them from the hazards of handling solid wastes;
	(b) All solid waste collectors and personnel shall ensure that the waste is
	handled properly and in accordance with the provisions of this Act or any
	regulations made thereunder; and
	(c) Collection of solid waste shall be done in a manner which prevents
	damage to the waste container, and spillage or scattering of solid waste
	within the collection vicinity.
Establishment of	16. The Department shall construct, establish and/or designate communal waste
waste collection points	collection points for non-hazardous waste and shall develop and implement a
	waste collection schedule to promote efficient waste collection.
Waste collection	17. Every person or entity whose activities generate [non-hazardous] waste
	shall—
	(a) deposit such waste, after segregating, labeling and colour-coding
	as provided for under this Act at collection points established
	or designated by the Department; or

(b) hand over the waste to a service provider licenced or contracted by

this

the Department in accordance with the provisions of

Act.

Obligation of	<b>18.</b> (1) Every owner or occupier of a house, building or premises shall ensure that
owners and occupiers of	any waste stored within their house, building or premises while awaiting
houses, buildings or	collection is segregated and kept in properly labeled and colour coded waste
premises	receptacles or bins or containers or bags as provided for under this Act or
	regulations made thereunder.
	(2) An owner or occupier of a house, building or premises shall not place, cause
	or permit to be placed any waste in any public place or upon the frontage of any
	house, building or premises.
	(3) Notwithstanding the provision in subsection (2) above, it shall be lawful for
	an owner or occupier of a house, building or premises, to place such waste in
	properly labeled and colour coded waste receptacles or bins or containers or bags,
	at a location within or at the frontage of his house, building or premises to
	facilitate convenient collection of the waste by the Department or licenced waste
	service providers on the designated waste collection day.
Obligation of	<b>19.</b> (1) Every person whose activities generate waste shall—
waste generators	(a) deposit such waste, after segregating, labeling and colour-coding
	as provided for under this Act at collection points established
	or designated by the Department; or
	(b) hand over the waste to a service provider licenced or contracted by
	the Department in accordance with the provisions of this Act or
	regulations made thereunder.
	(2) The Department and/or contracted or licenced waste service
	providers shall provide colour coded waste bins to all persons or
	entities served by them.
Obligation of	<b>20.</b> (1) The Department responsible waste collection and any person or entity
waste service providers	contracted or granted a licence by the Department to collect and/or transport

	waste shall not collect or handle or transport any waste that is not segregated in
	the manner prescribed under this Act.
	(2) The Department responsible waste collection and any person or entity
	contracted or granted a licence by the department responsible for waste
	management to collect and/or transport waste shall ensure that
	(a) they provide clearly labelled waste bins or containers to the persons
	or entities served by them;
	(b) the containers, vessels, vehicle or other means of conveyance used
	for the transportation of waste are sealed or designed to prevent
	spillages, scattering, littering and/or emission of obnoxious odours and
	smells during transportation.
	(b) there is no spillage, scattering, littering and/or emission of obnoxious
	odours and smells during transportation.
Licence to	<b>21.</b> No person shall be granted a licence to collect and transport waste under this
collect and transport waste	Act unless such person owns or operates a transportation vehicle or other means
	of conveyance approved by Department in accordance with regulations
	established under this Act.

# PART VI – MATERIAL RECOVERY, RECYCLING AND COMPOSTING

Establishment of	22. (1) The Department shall construct or establish or designate and/or operate
Material	Material Recovery Facilities for the purpose of recovering recyclable, re-usable
Recovery Facilities	Material Recovery Pacificles for the purpose of recovering recyclable, re-usable
1 0000005	or compostable materials.
	(2) Notwithstanding the provisions of sub-section (1) above, the Department may
	enter into public private partnerships or licence private persons or enterprises or
	Producer Responsibility Organizations to construct or establish and/or operate

	Material Recovery Facilities for the purposes of recovering recyclable, re-usable
	or compostable materials.
Requirement for Environmental Impact Assessment	<ul> <li>23. (1) The Department shall not construct or establish or designate and/or operate any Material Recovery Facility before carrying out Environmental Impact Assessment (EIA) and obtaining an EIA Licence from the Authority in accordance with the provisions of the Environmental Management and Coordination Act (No. 8 of 1999, Laws of Kenya) and regulations made thereunder.</li> <li>(2) The Department shall not licence any private person or enterprise or Producer Responsibility Organization to construct or establish or operate a Material Recovery Facility unless such person or enterprise or Producer Responsibility Organization has carried out Environmental Impact Assessment (EIA) and obtained an EIA Licence from the Authority in accordance with the provisions of the Environmental Management and Co-ordination Act (No. 8 of 1999, Laws of Kenya) and regulations made thereunder.</li> </ul>
Environmental Audits for material recovery facilities Obligation to channel waste through Material Recovery Facilities	<ul> <li>24. The Department and any private person or enterprise or Producer Responsibility Organization operating a Material Recovery Facility shall carry out annual Environmental Audits and submit the same to the Authority in accordance with the provisions of the Environmental Management and Coordination Act (No. 8 of 1999) and regulations made thereunder.</li> <li>25. All waste service providers and Producer Responsibility Organizations operating within the County shall ensure that all waste collected, transported and/or handled by them after collection, other than hazardous waste, is first channeled through a Material Recovery Facility before final processing and/or disposal.</li> </ul>
Access to materials	<b>26.</b> Any person may obtain recyclable, re-usable or compostable materials from a Material Recovery Facility at the prevailing market price or upon such terms

	or conditions as may be prescribed by any regulations made under this Act or
	any other written law.
Compliance with	27. The Department and/or any private person or enterprise or Producer
Act	Responsibility Organization licenced to establish and/or operate a Material
	Recovery Facility shall ensure that all activities related to such establishment or
	operation comply with the provisions of this Act and any other written law.
Licence to	28. (1) No person or entity shall establish or operate a waste recycling or
establish or operate	composting plant or facility within the County without a licence issued by the
recycling or composting plants	Department in accordance with regulations made under this Act.
	(2) The Department shall not licence any person or entity to establish or operate
	a waste recycling or composting plant or facility within the County unless such
	person or entity has carried out Environmental Impact Assessment (EIA) and
	obtained an EIA Licence from the Authority in accordance with the provisions of
	the Environmental Management and Co-ordination Act (No. 8 of 1999, Laws of
	Kenya) and regulations made thereunder.
Environmental	29. Every person or entity operating a waste recycling or composting plant or
Audits for waste recycling and	facility shall carry out annual Environmental Audits and submit the same to the
composting plants	Authority in accordance with the provisions of the Environmental Management
	and Co-ordination Act (No. 8 of 1999, Laws of Kenya) and regulations made
	thereunder.
PART VII – W	ASTE DISPOSAL
Prohibition of	<b>30.</b> No person shall dispose of any solid waste in any public or private place
waste disposal in non-designated places	except in a designated waste receptacle or disposal facility.

Obligations to deliver waste to designated disposal facilities	<ul> <li>31. (1) The department responsible for solid waste management and all contracted and/or licenced waste service providers shall deliver all waste collected to designated and/or licenced disposal facilities in accordance with the provisions of this Act and any regulations made thereunder.</li> <li>(2) A waste service provider who fails to handle or manage waste in accordance with the provisions of this Act or regulations made thereunder commits an offence and shall, upon conviction, be liable to a fine not exceeding [five hundred thousand] shilling or imprisonment for a term not exceeding [twelve months or both].</li> </ul>
Obligation of County Government to provide waste disposal facilities	<ul> <li>32. (1) All solid waste generated within the County shall be disposed of within the County's boundaries except where there is an agreed framework for intercounty transportation and disposal of such waste.</li> <li>(2) The Department shall be responsible for the provision of solid waste disposal facilities in the County.</li> <li>(3) In undertaking the obligation set out in subsection (1) above, the Department</li> </ul>
	<ul> <li>may— <ul> <li>(a) construct or establish or designate and operate waste disposal facilities through its relevant department; or</li> <li>(b) contract private persons or entities to construct and/or establish and/or operate waste disposal facilities on its behalf; or</li> <li>(c) licence a private person or entity to provide waste collection services [on commercial basis].</li> </ul> </li> </ul>
Environmental Impact Assessment for waste disposal facilities	<b>33.</b> (1) The Department shall not construct or establish or designate and/or operate any waste disposal facility before carrying out Environmental Impact Assessment (EIA) and obtaining an EIA Licence from the Authority in accordance with the

	provisions of the Environmental Management and Co-ordination Act (No. 8 of
	1999) and regulations made thereunder.
	(2) The Department shall not contract or licence any private person or entity to
	construct or establish or operate a waste disposal facility unless such person or
	entity has carried out Environmental Impact Assessment (EIA) and obtained an
	EIA Licence from the Authority in accordance with the provisions of the
	Environmental Management and Co-ordination Act (No. 8 of 1999) and
	regulations made thereunder.
Environmental	<b>34.</b> The Department and any private person or entity operating a waste disposal
Audits for waste disposal	facility shall carry out annual Environmental Audits and submit the same to the
facilities	Authority in accordance with the provisions of the Environmental Management
	and Co-ordination Act (No. 8 of 1999) and regulations made thereunder.

## **PART IX – REGULATIONS**

Power to make	37. (1) The County Executive Committee Member shall, in consultation with
make Regulations	relevant stakeholders and with the approval of the County Assembly, make
	regulations for the better administration and implementation of the provisions of this
	Act.
	(2) Without prejudice to the generality of subsection (1), the regulations made under
	this section may provide for—
	(a) anything required to be prescribed under this Act;
	(b) fees or levies or charges for waste service provision;
	(c) requirements for solid waste segregation and handling at source;
	(d) requirements for the establishment or designation of waste collection
	points, waste collection schedules and routes and other related waste
	collection services;
	(e) requirements for waste transportation services;
	(f) requirements for establishment or operation of material recovery
	facilities;
	(g) requirements for establishment or operation of solid waste recycling or
	composting facilities;
	(h) requirements for establishment or operation of waste disposal plants or
	facilities or sites;

	(h) requirements for solid waste processing and disposal for various waste
	streams or types of solid waste;
	(i) requirements and procedure for application, issuance, suspension,
	cancellation or revocation of any licence or permit required under
	this Act or any regulations made thereunder; and
	(j) any other matter relevant for the sustainable management of
	solid waste as provided for under this Act.
	PART X – OFFENCES AND PENALTIES
Offences where	38. Any person who contravenes any provision of this Act or regulations made
penalty is	thereunder commits an offence and shall, upon conviction by a court of law, be liable
prescribed	to such fine or term of imprisonment as is prescribed by the relevant section of the
	Act or regulations.
General	<b>39.</b> Any person who contravenes a provision of this Act for which a penalty has not
penalty	been prescribed shall, upon conviction y a court of law, be liable to a fine of not
	exceeding one hundred thousand shillings or to imprisonment for a term not
	exceeding six months or to both.
Liablity for	<b>40.</b> (1) Where an offence is committed against the provisions this Act or regulations
offences	
	made thereunder by a body corporate, the body corporate and every director or
	officer of the body corporate who had knowledge of the commission of the offence
	and who did not exercise due diligence, efficiency and economy to ensure
	compliance with this Act or regulations made thereunder, shall be guilty of an
	offence
	(2) Where an offence is committed against the provisions this Act or regulations

had knowledge of the commission of the offence and who did not exercise due diligence, efficiency and economy to ensure compliance with this Act or regulations made thereunder, commits an offence.

(3) A person shall be personally liable for an offence against this Act or regulations made thereunder, whether committed by him on his own account or as an agent or servant of another person.

(4) An employer or principal shall be liable for an offence committed by an employee or agent against the provisions of this Act or regulations made thereunder, unless the employer or principal proves that the offence was committed against his express or standing directions.

PART XI – MISCELLANOUS PROVISIONS	
Public Participation	<b>41.</b> Any decision or action requiring public participation under this Act shall be made or conducted in accordance with the principles set out in the Second Schedule of the Sustainable Waste Management Act (No. 31 of 2022, Laws of Kenya)
Access to information	<ul> <li>42. (1) All records pertaining waste management in the County, whether internally generated by the Department or submitted to the County Government by third parties shall be kept by the department which shall maintain their confidentiality where the circumstances so require.</li> <li>(2) Any person or entity may, upon written application, have access to the records kept by the Department pertaining waste management in the County.</li> </ul>
Conflict of Interest	<b>43.</b> (1) No officer of the County Government or a member of any committee or any other organ of the County Government shall transact any business or trade relating to waste management with the County Government.

(2) If a person is present at a meeting of the County Government or any department, committee or any other organ of the County Government at which a particular matter relating to waste management is the subject of consideration and in which matter that person or that persons spouse or other family member is directly or indirectly interested in a private capacity, that person shall, as soon as is practicable after the commencement of the meeting, declare such interest and shall not take part in any consideration or discussion of, or vote on any question touching such matter.

(3) A disclosure of interest made under subsection (2) shall be recorded in the minutes of the meeting at which it is made.

(4) A person who contravenes the provisions of subsections (1) and/or (2) above commits an offence and is liable, upon conviction by a court of law, to a fine not exceeding [one million shillings] or to imprisonment for a term not exceeding [two years] or to both such fine and imprisonment.
